Miles, Andrew Scott, 2005 Written with a strong business focus Miles and Scott's *Macroeconomics and the Global Business Environment* Second Edition examines fascinating real world economic issues shows why these issues matter and uses them as an entry point into advanced economic theory Throughout the authors present technical material clearly and accessibly allowing students to develop a solid understanding of the global economy and how economists think about it

**Macroeconomics: Understanding the Wealth of Nations, 2nd Ed** David Miles, Andrew Scott, 2008-05 Market\_Desc Economists Financial Analysts Economic Students Special Features Discusses geographical and historical events in a global perspective Contains more references for the purpose of advanced research Examines the effects of consumption investment monetary policy stabilization policy equity markets and bond markets on business cycles Looks at real exchange rates nominal exchange rates and global capital markets currency crises exchange rate regimes and single currencies Describes fiscal policy and the role the government plays in the economy About The Book The goal of this book is to help the reader understand how the global economy works and the way economists think Completely up to date and full of international data the second edition covers current events as well as many striking historical examples The information will enable the reader to think more clearly about the economy and evaluate the arguments of economists

**Macroeconomics** David D. Miles, Andrew Scott, Francis J. Brendon, 2001-12 The goal of this text is to help the reader understand how the global economy works and the way economists think Completely up to date and full of international data the book covers current events as well as many striking historical examples Enables the reader to think more clearly about the economy and evaluate the arguments of economists

**Real Money and Romanticism** Matthew Rowlinson, 2010-05-27 Modern systems of paper money and intellectual property became established in the Romantic period Matthew Rowlinson shows how a new conception of material artefacts as the bearers of abstract value shaped Romantic conceptions of character material culture and labour

**Macroeconomics** Wendy Carlin, David W. Soskice, 2015 Carlin and Soskice integrate the financial system with a model of the macro economy In doing this they take account of the gaps in the mainstream model exposed by the financial crisis and the Eurozone crisis This equips the reader with a realistic modelling framework to analyse the economy both in crisis times and in periods of stability

**The General Economic Theory** Wei-Bin Zhang, 2020-08-27 This book develops a general economic theory that integrates various economic theories and ideas and establishes important relationships between economic variables that are not formally recognized in the economic literature The author demonstrates how the basic model is integrated with neoclassical growth theory Walrasian general equilibrium theory and Ricardian distribution theory and how these theories can be incorporated through a single set of equations with a microeconomic basis The book offers new insights into income and wealth distribution between heterogeneous households racial and national differences in growth and development interdependence

between different stock variables with portfolio choices among different markets It will appeal to scholars of economists interested in an integrative theoretical approach to this discipline      The Social Science Encyclopedia Adam Kuper,2004-10-14 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society      **A Macroeconomic Regime for the 21st Century** Christopher Taylor,2011-03-02 The book aims to give non economists a detailed understanding of how macroeconomic policy works in modern economies and the issues it faces The world has recently been through a huge economic crisis and thinking people everywhere have reason to wonder whether something is not seriously wrong with the policy regimes underlying these dramatic events in the major economies and whether changes should be made The author reviews the history of the successive regimes tried and found wanting in the second half of the last century and proposes a set of reforms designed to convert the flawed neo liberal consensus of the 1990s into a durable regime for the present century      *Theory Of Interregional And International Economics, A: Integrating Neoclassical Growth Theory And New Economic Geography* Wei-bin Zhang,2024-12-13 The contemporary global economy is characterized by complex and nonlinear dynamics of interregional and international economic interactions The complexity is associated with endogenous changes in wealth human capital technology population economic structures and gender relations It is obviously necessary to construct a theory to connect all these changes in a single analytical framework with minimum assumptions Nevertheless mainstream economic theory on spatial economics is mostly static and partial This book expands on spatial economics by integrating various theories of spatial economics into a comprehensive and analytical framework through mathematical modelling and computing This book is part of the author s general economic theory with endogenous population capital knowledge preferences sexual division of labor and consumption institutions economic structures and exchange values over time and space It focuses on further developing the theory of interregional and international economies and encompasses dynamic relations between population growth human capital and wealth accumulation environmental change gender institutions market structures the division of labor and consumption and the determination of price structure among regions and nations in a single analytical framework      **Selected Issues on**
