Macromedia Flash MX Actionscripting Derek Franklin,Jobe Makar,2002 Introducing actionscript Using event handlers Understanding target paths Understanding and using objects Using functions Customizing objects Using dynamic data Manipulating data Using conditional logic Automating scripts with loops Getting data in and out of flash Using XML with flash Validating and formatting data Controlling movie clips dynamically Time and frame based dynamism Scripting for sound Loading external assets *Foundation ActionScript for Macromedia Flash MX* Ben Renow-Clarke,Sham Bhangal,2013-11-11 With the release of Flash MX scripting in Flash moved from being a desirable asset to an essential skill in the world of web design ActionScript is quite simply the center of power in Flash and it s no surprise that most of the advances in Flash MX are script centric Flash is a design tool and ActionScript can easily scare designers This book is for anyone who has ever looked in awe at a cutting edge Flash site then taken a look at some code and run in the other direction Learning ActionScript with friends of ED will not turn you into a boring programmer it will turn you into someone who finally has the power to achieve what they want with their web design This book will take you from knowing nothing about ActionScript to a firm knowledge that will allow you to exercise a previously unimaginable amount of power over your flash movies It does this with fully 0worked examples throughout and a case study that will leave you with a cutting edge Flash site by the end of the book The book assumes no previous knowledge of code or ActionScript but does assume that you know the basics of the Flash interface and have maybe created some basic timeline based movies with tweens and so on If you re totally new to Flash then you might want to take a look at friends of ED s acclaimed Foundation Flash MX or at the more visually oriented Flash MX Express This is no simple re write of the first edition of iFoundation ActionScript Show Me Macromedia Flash MX 2004 Andy Anderson,Mark Del Lima,Steve Johnson,2004 Offering readers a fast visual way to learn Flash MX solve problems and get work done this guide s step by step instructions with accompanying visuals require less time reading and free more time for learning this popular Web authoring software The new features icon highlights what is new in Flash MX as readers learn to perform everyday tasks **Macromedia Flash Communication Server MX** Kevin Towes,2002 Towes presents an introduction to the technology as well a guide to implementation of successful applications Part one provides ten quick steps to get readers familiar with the server Part two explores the issues affecting appropriate integration of the Communication Server Key concepts include understanding digital communication solutions understanding objects using server side ActionScripting and more *Macromedia Flash MX 2004 ActionScript* Derek Franklin,Jobe Makar,2004 Sure you can use Flash MX 2004 without being a master programmer but as any Flash developer worth his or her salt will tell you you re not tapping all of its power unless you re taking advantage of its scripting language ActionScript 2 0 which offers a more robust programming model and better object oriented programming support than ever before Here to take the fear factor out of learning it are Flash veterans and best selling authors Derek Franklin and Jobe Makar who

demonstrate that scripting is an instinctual process you already know by translating real life activities into ActionScript scripts In these pages you ll find methodologies and techniques for building over 40 real life Flash ActionScript projects including sample games applications Web sites and more New in this edition are coverage of ActionScript 2 0 Web services Components Printing Video and more On the companion CD you ll find all the project files and images you need to complete each project

Flash MX Video Kristian Besley,Brian Monnone,Hoss Gifford,Todd Marks,2013-11-09 Let s make movies Interactive movies totally integrated into your Flash interface With Macromedia Flash MX you have the power to import digital video and sound and manipulate them just like any other media object That s a whole world of design possibilities This book hopes to take you through all you ll need to know about producing such wonderful sites The first section will give you a thorough grounding in how best to import your video and sound into Flash and the many different ways that you can manipulate it once it s in there Then in the second section we ll go through a complete real world case study from pre production on the video to final output on the web and CD ROM Finally we ll see how you can apply use some advanced ActionScripting with video and create a fully object orientated sound and video playing Flash component that you ll be able to use time and time again The inclusion of video support is the most noticeable and exciting feature in Flash MX viewers who have the tiny Flash plug in installed can now see video material that would otherwise necessitate the lengthy downloads and clunky interfaces of other web video plug ins This book is the guide you need for this exciting new universe offering inspiration and technical guidance in equal measures This book assumes no knowledge beyond an ability to work with Flash MX s interface and is not intended for those with substantial digital video experience As such this book does not assume that the reader has access to expensive video editing software All you need for this book is access to Flash MX and some imagination

Flash MX Studio Connor McDonald,Jon Steer,Jerome Turner,Abe White,Gerald YardFace,Matthew Baldwin,Steve Webster,David Tudury,2013-11-11 Flash MX Studio takes your raw Flash talent and multiplies its potency by focusing it on real world web design situations In the heady days of the late 1990s designers were trying their hand at anything and everything they could lay their hands on Now the marketplace is seriously focused and serious Flash designers have to know exactly what they re doing and why These days it s all about functionality over experimentation justification over style It s all about maturity The design must fit the job specs and this book shows the reader how to fulfill these requirements and more This book examines all the avenues open to professional or aspiring professional Flash MX designers It takes a look at advanced uses of the new MX features such as components and the Drawing API and gives guidance on building whole new structures for animation Dynamic Content PHP ColdFusion MX XML video audio and audiovisual formats Never before has so much power been so accessible to the web designer This book is designed to put that power in your hands Flash MX Studio has been broken into four sections to address the most common needs for the Flash designer First off Jamie McDonald provides five chapters on site presentation and the principles of web design These opening chapters take a

look at how to create slick professional level sites involving Flash MX's new drawing and motion capabilities and interactive techniques. The second section concentrates on ActionScript. Flash's resident coding environment is crucial to master and taps into Flash's great strength: intuitive and interactive applications. Keith Peters and Todd Yard have buddied up on this section and examine some of the most advanced ActionScript techniques around. Be warned: this section is not for the faint hearted. Section three takes a look at Flash MX's greatly improved visual audio and audiovisual capabilities. Its three chapters written by Jez Turner and Alex White concentrate on building a single site aimed at displaying rich media content. The final section is devoted to expounding a few myths about dynamic content using Flash. Its four chapters talk about general practice before focusing in on specific areas including introductions to PHP and XML together with a look at Macromedia's brand new ColdFusion MX.

FLASH MX EXPRE, CYCH, 2002-06-23 Some Flash users like the depth, comfort and security of the linear tutorial approach. Others respond better to a more laid back model. This book is for you if you're a denizen of the latter group: it's rich in images and examples and restrained in its use of narrative. It gives you a fast but thorough and structured introduction that'll get you started with Flash MX quickly. This beginner level book uses a visual tutorial model to teach you the core knowledge you'll need to get started with Flash MX. It's rich in images and examples and is aimed at the reader who prefers to learn by example and play rather than by following a fixed tutorial route. This book is completely modular so you can read it in any order you like and come back to specific modules for reference purposes later.

Macromedia Flash MX, 2003 Those in the business of programming or developing online applications with Macromedia Flash have probably had moments when they wished they could turn to the real experts for advice on integrating server side technologies. Now they can. This guide showcases how both state of the art and well established server side technologies coupled with Flash MX can deliver powerful dynamic applications.

Using Macromedia Flash MX Michael Hurwicz, Laura McCabe, 2003 Annotation: The only comprehensive reference to Flash that creative professionals and Flash gurus will need. Covering basic skills quickly and concisely, it allows more time to be spent on more advanced topics. Organised by topic, readers can jump in and learn only what they need to complete the task at hand. Completely up to date and expanded to cover all aspects of Flash MX including Flash's upgraded ActionScript and interface features. Concise and complete, containing the information that busy professionals need without any of the fluff. Includes contributions from several highly respected Flash professionals: they give real world tasks and tips as well as answers to questions they've been hearing for years as trainers. Cyndy Cashman is the founder and president of Breakaway Interactive Training and Digital Media Center located in Norman, Oklahoma. Her company is a Macromedia authorized training center providing training and consulting services for interactive media. She has been using and teaching advanced Flash topics for many years. Michael Hurwicz has been using Flash 5 intensively since it first came out. He has written about Macromedia Director, Discreet 3d Studio Max and eRain Swift3D for WebTools. A full time freelance writer for 16 years, he has written books on networks and architecture.
