Domestic Goods Joy Parr,1999-12-15 Visions of life in the 1950s often spring from the United States supermarkets freeways huge gleaming cars bright new appliances automated households Historian Joy Parr looks beyond the generalizations about the indulgence of this era to find a specifically Canadian consumer culture Focusing on the records left by consumer groups and manufacturers and relying on

interviews and letters from many Canadian women who had set up household in the decade after the war she reveals exactly how and why Canadian homemakers distinguished themselves from the consumer frenzy of their southern neighbours Domestic Goods focuses primarily on the design production promotion and consumption of furniture and appliances For Parr such a focus demands an analysis of the intertwining of the political economic and aesthetic Parr examines how the shortage of appliances in the early postwar years was a direct result of government reconstruction policy and how the international style of high modernism reflected the postwar dream of free trade But while manufacturers devised new plans for the consumer depression era frugality and a conscious setting of priorities within the family led potential customers to evade and rework what was offered them eventually influencing the kinds of goods created This book addresses questions such as who designed furniture and appliances and how were these designs arrived at What was the role of consumer groups in influencing manufacturers and government policy Why did women prefer their old wringer washers for over a decade after the automatic washer was brought in In finding the answers the author celebrates and ultimately suggests reclaiming a particularly Canadian way of consuming Karin Bergoo Larsson and the Emergence of Swedish Design Marge

Swedish Catalogue Sweden,1915 **Holistic Sustainability Through Craft-Design Collaboration** Rebecca Reubens,2019-05-07 This book explores the intersection of craft design and sustainability in the developing world It argues that most sustainable design approaches and efforts fall short of implementing holistic sustainability and in order to reach this goal design must be underpinned by alternatives to the mainstream technology intensive industrial design paradigm Renewable materials such as bamboo cork and hemp which are abundantly available in the developing world have the potential to be a viable resource base for sustainable development Current sustainable design initiatives and approaches already recontextualize these materials using industrial techniques and technologies However these efforts fall short of impacting holistic sustainability and tend to focus on the ecological aspect This book offers the development of one alternative to design for holistic sustainability called the Rhizome Approach which draws on existing sustainability praxis and craft Holistic Sustainability Through Craft Design Collaboration includes customizable tools which aim to empower designers

to guide and evaluate their own designs Through these tools and the Rhizome Approach in general the book aims to enable designers and students of design to move beyond green and sustainable design to holistic sustainability design **Design in Sweden** Monica Boman,Bertil Lundgren,1985 **Art and Handicraft in the Woman's Building of the World's Columbian Exposition, Chicago, 1893** Elliott, Maud Howe, 1854- comp,1893 The Jewelers' Circular ,1923
