Baking Dorie Greenspan,2006 Offers more than three hundred of the author s favorite recipes including split level pudding gingered carrot cookies and fold over pear torte and provides baking tips and a glossary **Being and Film**

Christine Reeh-Peters,2021-03-16 This book develops the so called solaristic ontology of film by building a philosophical system based on an inquiry into the nature of film being and reality This solaristic system appropriates the aesthetic ideas and principles of thought present in the 1972 sci fi movie Solaris by Andrei Tarkovsky This movie is the main center of analysis here since it is highly symptomatic of the medium s philosophical self reflexivity and its intriguing correlation with reality and being The solaristic science is a fictional science introduced in the movie s diegesis and dedicated to the investigation of the planet Solaris an unattainable challenge In this sense the solaristic system closes the film s narrative by telling a philosophical story on the planet Solaris The book thus details a philosophical form of concept art and at the same time builds on previous results of film philosophy as well as the speculative turn in contemporary philosophy **A**

Companion to Ricoeur's Freedom and Nature Scott Davidson,2018-06-13 Paul Ricoeur s first book Freedom and Nature introduces many themes that resurface in various ways throughout his later work but its significance has been mostly overlooked in the field of Ricoeur studies Gathering together an international group of scholars A Companion to Freedom and Nature is the first book length study to focus exclusively on Freedom and Nature It helps readers to understand this complex work by providing careful textual analysis of specific arguments in the book and by situating them in relation to Ricoeur s early influences including Merleau Ponty Nabert and Ravaissou But most importantly this book demonstrates that Freedom and Nature remains a compelling and vital resource for readers today precisely because it resonates with recent developments in the areas of embodied cognition philosophical psychology and philosophy of the will Freedom and Nature is fundamentally a book about embodiment and it situates the human body at the crossroads of activity and passivity motivation and causation the voluntary and the involuntary This conception of the body informs Ricoeur s unique treatment of topics such as effort habit and attention that are of much interest to scholars today Together the chapters of this book provide a renewed appreciation of this important and innovative work **The British Larder** Madalene Bonvini-Hamel,2020-10-01
