Notice of Excavations in the Chambered Mound of Maeshowe, in Orkney, and of the Runic Inscriptions on the Walls of Its Central Chamber John Stuart, 1865 **The Runic Inscriptions of Maeshowe, Orkney** Michael P. Barnes, 1994 **The Runes, Whence Came They** George Stephens, 1894 **The Runic Hall** George Stephens, 2022-06-10
Unveränderter Nachdruck der Originalausgabe von 1868 *Between the Wind and the Water* Caroline Wickham-Jones, 2014-04-30
The archaeological sites of Orkney give us an unparalleled glimpse into prehistory Inscribed as the Heart of Neolithic Orkney World Heritage Site in 1999 four great monuments the village of Skara Brae the Ring of Brodgar the Stones of Stenness and the burial mound of Maeshowe are also at the center of the archipelago's story This book looks at what makes these monuments so special Caroline Wickham Jones explores the Neolithic world in which they were built how they came to be a focus through the ages and what they mean today Picts saints Vikings antiquarians and tourists populate Orkney's past a history which is channeled through these dances of stones This new second edition replaces the highly successful and widely used first edition which sold over 1 000 copies The text has been fully updated to take account of recent discoveries and research including the now world famous site Ness of Brodgar In addition there are over thirty new images including stunning photographs of Orkney's archaeology and landscape *Archaeoastronomy* Giulio Magli, 2025-01-02
This book provides the first comprehensive easy to read and up to date account of the fascinating discipline of archaeoastronomy in which the relationship between ancient constructions and the sky is studied to gain a better understanding of the ideas of the architects of the past and their religious and symbolic worlds The book is divided into three sections The first section discusses in detail the fundamentals of archaeoastronomy including the celestial coordinates the apparent motion of the sun moon stars and planets observation of celestial bodies at the horizon the use of astronomical software in archaeoastronomy and current methods for making and analyzing measurements The second part explores the past relations between astronomy and people power the afterworld architecture and landscape The final section reviews what archaeoastronomy can now tell us about the nature and purpose of such sites and structures as Stonehenge the Pyramids of Giza Chichen Itza the Angkor Temples the Campus Martius Machu Picchu and the Valley of the Temples of Agrigento Additionally it provides a set of exercises that can be performed using non commercial free software e.g. Google Earth and Stellarium and that will equip readers to conduct their research This book is an ideal introduction to what has become a wide ranging multidisciplinary science This newly revised edition includes the most recent research on Stonehenge ancient Japan and other sites worldwide , **Runes** Michael P. Barnes, 2012
Offers a full introduction to and survey of runes and runology their history how they were used and their interpretation Runes often considered magical symbols of mystery and power are in fact an alphabetic form of writing Derived from one or more Mediterranean prototypes they were used by Germanic peoples to write different kinds of Germanic language principally Anglo Saxon and the various

Scandinavian idioms and were carved into stone wood bone metal and other hard surfaces types of inscription range from memorials to the dead through Christian prayers and everyday messages to crude graffiti First reliably attested in the second century AD runes were in due course supplanted by the roman alphabet though in Anglo Saxon England they continued in use until the early eleventh century in Scandinavia until the fifteenth and later still in one or two outlying areas This book provides an accessible general account of runes and runic writing from their inception to their final demise It also covers modern uses of runes and deals with such topics as encoded texts rune names how runic inscriptions were made runological method and the history of runic research A final chapter explains where those keen to see runic inscriptions can most easily find them Professor MICHAEL P BARNES is Emeritus Professor of Scandinavian Studies University College London

Exploring Megalithic Europe Julian Heath, 2019-11-07 Abundant prehistoric remains survive in the wide landscapes of Europe but none are arguably as fascinating or awe inspiring as the megalithic after the Greek mega great and lithos stone monuments built by the people who lived here during the three hugely important periods of European prehistory known respectively as the Neolithic the Copper Age and the Bronze Age These huge prehistoric stone structures can still be found scattered in their thousands across Europe and provide a tentative but evocative link to their builders and to Europe's distant past From the Mediterranean islands to the colder climes of Scandinavia *Exploring Megalithic Europe* takes readers to many European countries examining both famous and lesser known megalithic monuments and looking at what insights these remarkable reminders of prehistoric life may provide into the ancient communities responsible for their construction *The Journal of the Royal Anthropological Institute of Great Britain and Ireland*, 1900 The Journal of the Anthropological Institute of Great Britain and Ireland *Archaeology* Brian M. Fagan, Nadia Durrani, 2016-05-05 *Archaeology* is a jargon free and accessible introduction to the field which details how archaeologists study the human past in all its fascinating diversity Now in its twelfth edition this classic textbook has been updated to reflect the latest research and new findings in the field Reflecting the global scope of the discipline the book has a truly international coverage of important discoveries and sites from many corners of the globe Individual chapters examine archaeology and its history considering the role of the archaeologist and how they discover investigate and classify sites and artifacts This journey through archaeology also includes a discussion of important individuals and groups and some of the ways in which archaeologists attempt to explain major social and cultural changes in the remote past *Archaeology* ends with an outline of the complex world of cultural resource management and gives invaluable advice on how to become an archaeologist Richly illustrated throughout this popular and engaging textbook on archaeological methods has introduced generations of students to the captivating world of archaeology *Tracing the Jerusalem Code* Kristin B. Norma Ever After Nancy Baxter, 2007-12-18 Once upon a time specifically our time there lived an ordinary commoner named Norma Dale Hovering near thirty Norma no longer expected passion or even romance Not since puberty and the retirement of her single Ken doll and his harem of Barbies When Norma's father leaves her a sea chest brimming with cash and her beloved plush puffin from childhood she takes the old stuffed bird as a sign and decides that it's high time she started believing in fairy tales Particularly the ones her father used to tell her about the mystical Orkney Islands So Norma travels to the far north of Scotland where she discovers that nesting puffins are indeed real And unbelievably so are the handsome men of the heather she's always dreamed of and they're looking in her direction Suddenly Norma feels sexy Not go go boots and hot pants sexy more mysterious like a lithe and lovely young Catherine from Wuthering Heights sexy minus the dead part But there's more than one Heathcliff on these moors Will she choose the brooding artist the brash Texan or the sensitive professor If those Barbies could see her now

[Historicising Heritage and Emotions](#) Alicia Marchant, 2019-03-04 Historicising Heritage and Emotions examines how heritage is connected to and between people and places through emotion both in the past and today Discussion is focused on the overlapping categories of blood families and bloodlines stone monuments and memorials and land landscape and places imbued with memories with the contributing authors exploring the ways in which emotions invest heritage with affective power and the transformative effects of this power in individual community and cultural contexts The 13 chapters that make up the volume take examples from the premodern and modern eras and from two connected geographical regions the United Kingdom and Australia and the Pacific Each chapter seeks to identify historicise and contextualise the processes of heritage and the emotional regimes at play locating the processes within longer historical and transnational genealogies and critically appraising them as part of broader cultural currents Theoretically grounded in new approaches to the history of emotions and critical heritage studies the analysis challenges the traditional scholarly focus on heritage in its modern forms offering multifaceted premodern and modern case studies that demonstrate heritage and emotion to have complex and vibrant histories Offering transhistorical and multidisciplinary discussion around the ways in which we can talk about discuss categorise and theorise heritage and emotion in different historical contexts Historicising Heritage and Emotions is a valuable resource for students and scholars interested in heritage emotions and history

[Orkney](#) Mark Rowe, 2024-03-20 This thoroughly updated second edition of Bradt's guidebook to the alluring Scottish archipelago of Orkney is written by experienced author and journalist Mark Rowe who is something of a specialist on the more remote parts of Scotland Bradt's guidebook combines all the practical details a traveller could need when to visit suggested itineraries local culture accommodation and where to

eat and drink together with insightful background that ranges from geography and geology to architecture and archaeology plus significant coverage of wildlife. Comprising 70 islands of which just 19 are inhabited, Orkney is extraordinary. The World Heritage Site of Neolithic Orkney harbours many archaeological treasures including Skara Brae, the most important Stone Age village in northern Europe, and Maeshowe, a chambered tomb whose entrance is aligned with the setting sun on the winter solstice. Here you'll also find the Old Man of Hoy, a spectacular 140m high sea stack. Scapa Flow, scene of the dramatic scuttling of the German fleet in 1919, and dramatic nature reserves with cliffs upon which one in six UK seabirds nests. The deeper you delve, made easy with Bradt's Orkney, the more you uncover. Foodies will be delighted by an astonishing number of local food outlets and family producers, some going back more than 100 years. Discover Scotland's first carbon neutral island or that's the plan, the island whose past may have included sky burials and the world's shortest scheduled commercial flight, just 60 seconds. Or why not attend one of the world's leading science festivals or Scotland's sole wine festival. New for this edition are additional mapped walks, greater detail on history, expanded coverage of archaeological developments, the outer isles, new or enhanced visitor attractions including croft tours, all in the UK's top destination for cruise ships and an increasingly popular location for family staycations. With much to enchant archaeology enthusiasts, walkers, cyclists, wildlife watchers, beach lovers and genealogists, Bradt's Orkney is the ideal guide for those who travel with curious minds to discover far-flung places of great cultural, historical and wildlife interest.

Art and Architecture in Neolithic Orkney

Antonia Thomas, 2016-09-26. This book offers a groundbreaking analysis of Neolithic art and architecture in Orkney, focussing upon the incredible collection of hundreds of decorated stones being revealed by the current excavations at the Ness of Brodgar.

Temporary Palaces Richard Bradley, 2021-05-31. The Great Houses of the prehistoric and early medieval periods were enormous structures whose forms were modelled on those of domestic dwellings. Most were built of wood rather than stone; they were used over comparatively short periods; they were frequently replaced in the same positions; and some were associated with exceptional groups of artefacts. Their construction made considerable demands on human labour and approached the limits of what was possible at the time. They seem to have played specialised roles in ancient society but they have been difficult to interpret. Were they public buildings or the dwellings of important people? Were they temples or military bases, and why were they erected during times of crisis or change? How were their sites selected and how were they related to the remains of a more ancient past? Although their currency extended from the time of the first farmers to the Viking Age, the similarities between the Great Houses are as striking as the differences. This study focuses on the monumental buildings of northern and northwestern Europe but draws on structures over a wide area extending from Anatolia as far as Brittany and Norway. It employs ethnography as a source of ideas and discusses the concept of the House Society and its usefulness in archaeology. The main examples are taken from the Neolithic and Iron Age periods but this account also draws on the archaeology of the first millennium AD. The book emphasises the importance of comparing archaeological sequences with one

another rather than identifying ideal social types In doing so it features a range of famous and less famous sites from Stonehenge to the Hill of Tara and from Old Uppsala to Yeavering
