our supposedly flat world black markets where governments are never seen but still spend outrageous amounts of money Journalist Matt Potter tells the story of Yuri and his crew a gang of Russian military men who after the collapse of the Soviet Union found themselves without work or prospects So they bought a decommissioned Soviet plane at liquidation prices straight from the Russian government and started a shipping business It wasn't long before Yuri and many pilots like him found themselves an unlikely and ethically dubious hub of global trading Men like these are paid by the U S the Taliban and blue chip multinational companies to bring supplies some legal some not across dangerous borders In a feat of daring reportage Potter gets onto the flight deck with these outlaws and tells the story of their fearless missions Dodging gunfire Potter is taken from place to place by men trafficking everything from illicit weapons to emergency aid making enemies everywhere but no reliable friends As the world changes we see the options for the crew first explode then slowly diminish until in a desperate maneuver they move their operations to the most lawless corners of Africa where they operate to this day The story of these outlaws is a microcosm of the world since the end of the cold war secret contracts guerrilla foreign policy and conflicts too thorny to be handled in public Potter uses the story of these men to articulate an underground history of the globalized world At once thrilling provocative and morally circumspect this book is a must read for anyone with an interest in espionage or in how the world works today *Carlo Tresca* Nunzio Pernicone,2010-08-01 An in depth biography of a charismatic labor leader anarchist and early opponent of Italian fascism *Angel: a Hustling Diva with a Twist* Brenda G.
