Maggio Selvaggio:

Representations of Lethal Gender-Based Violence in Italy Between Journalism and Literature Nicoletta Mandolini, 2021-08-15 This book discusses femicide in Italy and the cultural conversations that have resulted from feminist discourse on lethal violence against women entering the mainstream by analyzing journalistic inquiries and literary works produced after 2012 In a global and national context where activism's goals are mainly discursive this study deepens our understanding of the role played by written narratives in the critique of a public interest matter such as gender based violence The first part of the book is dedicated to the analysis of three journalistic inquiries published in book format that focus on one or more cases of femicide that happened on the Italian peninsula The second section draws on the concept of feminist rewriting to propose the analysis of a heterogeneous body of literary texts that explore some of the most controversial and notorious femicide cases covered by previous journalistic historical or mythical narratives before demonstrating the close connection between theoretical and narrative discourse within the analyzed texts This is a fascinating case study contributing to global understandings of gender based violence which will be important for researchers in gender studies sociology and media studies

Encounters with the Real in Contemporary Italian Literature and Cinema Loredana Di Martino, Pasquale Verdicchio, 2017-01-06 This volume explores the Italian contribution to the current global phenomenon of a return to reality by examining the country's rich cultural production in literature and cinema The focus is particularly on works from the period spanning the Nineties to the present day which offer alternatives to notions of reality as manufactured by the collusion between the neo liberal state and the media The book also discusses Italy's relationship with its own cultural past by investigating how Italian authors deal with the return of the specter of Neorealism as it haunts the modern artistic imagination in this new epoch of crisis Furthermore the volume engages in dialogue with previous works of criticism on contemporary Italian realism while going beyond them in devoting equal attention to cinema and literature The resulting interactions will aid the reader in understanding how the critical arts respond to the triumph of hyperrealism in the current era of the virtual spectacle as they seek new ways to promote cognitive transformations and foster ethical interventions
