Managing Decline Japans Coal Industry:

Managing Decline Suzanne Culter, 1999-05-01 Industrial restructuring has become a way of life the inevitable accommodation to rapid changes in technology to a global economy that affects large and small communities through the constant flow of goods and people and to the challenging patterns of economic viability that alter that flow *Managing Decline* examines the impact of coal mine closures in Yubari City Hokkaido once one of Japan s most prosperous coal producing cities and asks how Japanese culture has influenced the enactment of and response to industrial policy for restructuring in this community For many years coal formed the backbone of Japan s economic development but the dangers and costs of mining became increasingly expensive for the industry and government Global changes in coal production and exchange finally prompted Japan s decision in 1986 to shut down nearly all domestic coal mines in favor of coal imports Japan s policy for industry restructuring has been applauded as one of the most comprehensive in addressing the needs of the industry the workers and the community At the micro level however the people in the community most affected by the policy decisions have been excluded from the process *Managing Decline* reveals the stratified effects as well as compensation for the different groups in Yubari Although the policy settlement package goes to the coal miners community redevelopment ignores their needs prompting them to leave the city and benefiting instead land owners and public employees Revealed as well as the ways in which Japan s cultural values particularly the vertical social structure as it affects decision making status occupations and company organization and the importance of maintaining the family system figure in the policy process and its consequences The author s research based on two years residence in Yubari during the last few years of the closures makes an important contribution to community studies of social change in Japan It is also the first field study to examine the effects of industrial policy for restructuring in Japan at the worker and community level *Coal Mining Communities and Gentrification in Japan* Tai Wei Lim, Naoko Shimazaki, Yoshihisa Godo, Yiru Lim, 2019-05-06 This book offers a multidisciplinary analysis of approach in the field of energy studies of Japan examining post closure coal mining towns in Japan and their gentrification It considers the impact of closures on the agricultural industry the re absorption of laid off coal miners into service and industrial sectors and the gentrification of former coal mines into agricultural farms and communities It also considers the historical process of gentrification in terms of origins social history continuity discontinuity and cooperation resistance The historical background of coal mine closures analyses nostalgic recollection about mine closures and Sakubei s UNESCO drawings of life in the coal mines and other cultural materials related to coal energy and the mining industry in general in Japan **Managing Decline** Antti Sihvonen, Juha-Antti Lamberg, Henrikki Tikkanen, 2021-11-11 A growing body of literature in the area of business administration has focused on the phenomenon of decline These studies span multiple levels of analysis and draws on a range of disciplines including strategic management economics and economic geography *Managing Decline A Research Overview* provides a summary of this research by focusing on three key levels of

analysis industries clusters and organizations The targeted reviews in this book map each individual level of analysis separately and the discussion section outlines overarching themes regarding decline and its management The three levels are analyzed by identifying different forms causes processes and management options regarding decline This is accompanied by the identification of key academic discourses that have been used to analyze decline The discussion section highlights broader themes regarding the nature and management of decline that span across the different levels of analysis This book provides an easy to access summary on the nature and management of decline for academic scholars and business practitioners and is essential reading for getting an overview of this broad field of research

A History of Japan Conrad Totman, 2014-09-11 This is an updated edition of Conrad Totman's authoritative history of Japan from c 8000 BC to the present day The first edition was widely praised for combining sophistication and accessibility Covers a wide range of subjects including geology climate agriculture government and politics culture literature media foreign relations imperialism and industrialism Updated to include an epilogue on Japan today and tomorrow Now includes more on women in history and more on international relations Bibliographical listings have been updated and enlarged Part of The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production

The Face of Decline Thomas Dublin, Walter Licht, 2005 The anthracite coal region of Pennsylvania once prospered Today very little mining or industry remains although residents have made valiant efforts to restore the fabric of their communities In *The Face of Decline* the noted historians Thomas Dublin and Walter Licht offer a sweeping history of this area over the course of the twentieth century Combining business labor social political and environmental history Dublin

and Licht delve into coal communities to explore grassroots ethnic life and labor activism economic revitalization and the varied impact of economic decline across generations of mining families The Face of Decline also features the responses to economic crisis of organized capital and labor local business elites redevelopment agencies and state and federal governments Dublin and Licht draw on a remarkable range of sources oral histories and survey questionnaires documentary photographs the records of coal companies local governments and industrial development corporations federal censuses and community newspapers The authors examine the impact of enduring economic decline across a wide region but focus especially on a small group of mining communities in the region s Panther Valley from Jim Thorpe through Lansford to Tamaqua The authors also place the anthracite region within a broader conceptual framework comparing anthracite s decline to parallel developments in European coal basins and Appalachia and to deindustrialization in the United States more generally

Energy Security in Japan Vlado Vivoda,2016-04-29 For a country already uneasy about energy security the 2011 earthquake and tsunami which caused a nuclear catastrophe at the Fukushima nuclear power plant turned pre existing Japanese concern about the availability of energy into outright anxiety The subsequent closure of many nuclear reactors meant Japan needed to replace lost power quickly and so had no choice but to secure additional fossil fuels undermining Japanese diversification policy and increasing global and regional competition for energy This switch has been at a cost to the already weak Japanese economy whilst the increase in fossil fuel consumption has caused a significant increase in greenhouse gas emissions In this book Vlado Vivoda examines the drastically changed environment following the disaster in order to analyse Japan s energy security challenges and evaluate Tokyo s energy policy options Looking at how the disaster exacerbated Japan s existing energy security challenges Vivoda considers the best policy options for Japan to enhance national energy security in the future exploring the main impediments to change and how they might be overcome *Doing*
