Novels Of Wells Bennett And Galsworthy 1890 1910:

The Novels of Wells, Bennett, and Galsworthy: 1890-1910 William Bellamy, 1971 Utopias and Dystopias in the Fiction of H. G. Wells and William Morris Emelyne Godfrey, 2016-12-08 This book is about the fiercely contrasting visions of two of the nineteenth century's greatest utopian writers. A wide-ranging interdisciplinary study, it emphasizes that space is a key factor in utopian fiction, often a barometer of mankind's successful relationship with nature or an indicator of danger. Emerging and critically acclaimed scholars consider the legacy of two great utopian writers exploring their use of space and time in the creation of sites in which contemporary social concerns are investigated and reordered. A variety of locations is featured, including Morris's quasi-fourteenth-century London, the lush and corrupted island, a routed and massacred English countryside, the high rises of the future, and the vertiginous landscape of another Earth beyond the stars. **The Birth of**

Liberal Guilt in the English Novel Daniel Born, 1995 Daniel Born explores the concept of liberal guilt as it first developed in British political and literary culture between the late Romantic period and World War I. Disturbed by the twin spectacle of urban poverty at home and imperialism abroad, major novel *John Galsworthy's Life and Art* James Gindin, 2015-12-22

British History 1815-1914 Norman McCord, Bill Purdue, A. William Purdue, 2007-10-25 This fully revised and updated new edition, extended to cover the period up to 1914, provides the ultimate introduction to British history between the end of the Napoleonic Wars and the outbreak of the First World War. **John Galsworthy** Alec Frechet, 1982-06-18 *H.G. Wells* W.

Warren Wagar, 2004-09-22 A look inside one of the greatest minds of the 20th century. **Degeneration, Culture and the Novel** William M. Greenslade, 1994-04-28 An exploration of the impact of degeneration theories on British culture and fiction.

The Masculine Middlebrow, 1880-1950 K. Macdonald, 2011-10-04 Who was the early twentieth-century masculine middlebrow reader? How did his reading choices respond to his environment? This book looks at British middlebrow writing and reading from the late Victorian period to the 1950s and examines the masculine reader and author and how they challenged feminine middlebrow and literary modernism. **Writers, Readers, and Reputations** Philip Waller, 2008 Philip Waller explores the literary world in which the modern best seller first emerged, with writers promoted as stars and celebrities advertising both products and themselves.

The Age of Urban Democracy Donald Read, 2014-06-17 This ambitious survey covers all aspects of the period in which English society acquired its modern shape: industrial rather than agricultural, urban rather than rural, democratic in its institutions and middle class rather than aristocratic in the control of political power. For this revised edition, the footnotes and bibliography have been fully updated, and the entire text has been reset in a larger and more attractive format. An ideal introduction to the subject, it masters a huge amount of material through its clear structure, sensible judgements, and approachable style. **The Forsyte Saga** John Galsworthy, 2008-07-10 The three novels which make up The Forsyte Saga chronicle the ebbing social power of the commercial upper middle class Forsyte family between 1886 and 1920. Soames Forsyte is the brilliantly portrayed central figure, a Victorian who outlives the age and

whose baffled passion for his beautiful but unresponsive wife Irene reverberates throughout the saga Written with both compassion and ironic detachment Galsworthy's masterly narrative examines not only the family's fortunes but also the wider developments within society particularly the changing position of women in an intensely competitive male world Above all Galsworthy is concerned with the conflict at the heart of English culture between the soulless materialism of wealth and property and the humane instincts of love beauty and art ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

The Literary Imagination from Erasmus Darwin to H.G. Wells Professor Michael R Page, 2013-05-28 At the close of the eighteenth century Erasmus Darwin declared that he would enlist the imagination under the banner of science beginning Michael Page argues a literary narrative on questions of evolution ecology and technological progress that would extend from the Romantic through the Victorian periods Examining the interchange between emerging scientific ideas specifically evolution and ecology new technologies and literature in nineteenth century Britain Page shows how British writers from Darwin to H G Wells confronted the burgeoning expansion of scientific knowledge that was radically redefining human understanding and experience of the natural world of human species and of the self The wide range of authors covered in Page's ambitious study permits him to explore an impressive array of topics that include the role of the Romantic era in the molding of scientific and cultural perspectives the engagement of William Wordsworth and Percy Shelley with questions raised by contemporary science Mary Shelley's conflicted views on the unfolding prospects of modernity and how Victorian writers like Charles Kingsley Samuel Butler and W H Hudson responded to the implications of evolutionary theory Page concludes with the scientific romances of H G Wells to demonstrate how evolutionary fantasies reached the pinnacle of synthesis between evolutionary science and the imagination at the close of the century

The Vital Science (Routledge Revivals) Peter Morton, 2014-08-01 In this title first published in 1984 Peter Morton argues that in late Victorian Britain a group of novelists and essayists quite consciously sought and found ideas in post Darwinian biology that were susceptible to imaginative transformation The period between 1860 and 1900 was a time of great confusion in biology the natural selection hypothesis was in retreat before its acute critics and no extension of evolutionary theory to human affairs was too bizarre to attract its quota of enthusiasts Writers capitalised on this prevailing uncertainty and used it to their own artistic or polemic ends A fascinating and interdisciplinary title this reissue will interest students of late Victorian literature as well as historians of biological theory between *The Origin of Species* and Mendel
