Hagberg Wright, C. J. Purnell**

Pol Theory Mod Ger:

The German Revolution and Political Theory Gaard Kets, James Muldoon, 2019-05-02 This book is the first collection within political theory to examine the ideas and debates of the German Revolution of 1918-19. It discusses the political theorists and actors of the revolution and uncovers an incredibly fertile body of political thought. Revolutionary events led to the proliferation of new political strategies, theoretical insights and institutional proposals. Key questions included the debate between a national assembly and a council system, the socialisation of the economy, the development of new forms of political representation and the proper role of parliaments, political parties and trade unions. This book offers novel perspectives on the history of the revolution, a thorough engagement with its main thinkers and an analysis of its relevance for contemporary political thought.

1974 Annual Supplement Joan Schmitz Bergholt, 2013-12-21 *The 1848 Revolutions and European Political Thought* Douglas Moggach, Gareth Stedman Jones, 2018-02-22 The revolutions that swept across Europe in 1848 marked a turning point in the history of political and social thought. They raised questions of democracy, nationhood, freedom and social cohesion that have remained among the key issues of modern politics and still help to define the major ideological currents: liberalism, socialism, republicanism, anarchism, conservatism, in which these questions continue to be debated today. This collection of essays by internationally prominent historians of political thought examines the 1848 Revolutions in a pan-European perspective and offers research on questions of state power, nationality, religion, the economy, poverty, labour and freedom. Even where the revolutionary movements failed to achieve their explicit objectives of transforming the state and social relations, they set the agenda for subsequent regimes and contributed to the shaping of modern European thought and institutions.

Catalogue of the London Library, St. James's Square London Library, 1920 **Catalogue of the London Library, St. James's Square, London. Supplement** London Library, Sir Charles Theodore Hagberg Wright, Christopher James Purnell, 1920 *Catalogue of the London Library, St. James's Square, London: 1928-1950* London Library, Charles Theodore Hagberg Wright, C. J. Purnell, 1920 Political Theory and International Affairs Anthony Lang, 2004-11-30 Hans J Morgenthau is primarily considered a theorist of power politics, often associated with the six principles of realism and the national interest. Shedding new light on the theorist by digging into his archives to show his wide-ranging views on politics, these selected lectures demonstrate the broad set of political themes that were important to Morgenthau and his ability to engage classical political philosophy in a contemporary setting. This book reveals a scholar who drew on Aristotelian insights to understand the politics of the Mafia in New York City, regime change in Latin America and the foreign policy of the United States. Based on Aristotle's *The Politics*, these lectures discuss a wide spectrum of history and theory in order to examine the realm of politics. This collection serves as the only published seminars from Morgenthau, revealing him as both a teacher and a thinker. Topics include Equality to Freedom, Ethics and Politics, Justice and Revolution.

Political Science Abstracts, 2012-12-06 Political Science Abstracts is an annual supplement to the Political Science Government and Public Policy Series.
