and Transportation. Subcommittee on
Oceans, Atmosphere, Fisheries, and
Coast Guard**

Polar Fleet:

Sea of Gray Tom Chaffin, 2007-04-15 Assembled from hundreds of original documents including intimate shipboard journals kept by Shenandoah officers Sea of Gray is a masterful narrative of men at sea The sleek 222 foot black auxiliary steamer Sea King left London on October 8 1864 ostensibly bound for Bombay The subterfuge was ended off the shores of Madeira where the ship was outfitted for war The newly christened CSS Shenandoah then commenced the last most quixotic sea story of the Civil War the 58 000 mile around the world cruise of the Confederacy's second most successful commerce raider Before its voyage was over thirty two Union merchant and whaling ships and their cargoes would be destroyed But it was only after ship and crew embarked on the last leg of their journey that the excursion took its most fearful turn Four months after the Civil War was over the Shenandoah's Captain Waddell finally learned he was and had been fighting without cause or state In the eyes of the world he had gone from being an enemy combatant to being a pirate a hangable offense Now fearing capture and mutiny with supplies quickly dwindling Waddell elected to camouflage the ship circumnavigate the globe and attempt to surrender on English soil A superb account of how the Confederate raider Shenandoah brought the American Civil War to the farthest reaches of the world Nathaniel Philbrick author of Mayflower and Sea of Glory [Polar Icebreakers in a Changing World](#) National Research Council, Transportation Research Board, Marine Board, Division on Earth and Life Studies, Polar Research Board, Committee on the Assessment of U.S. Coast Guard Polar Icebreaker Roles and Future Needs, 2007-03-14 The United States has enduring national and strategic interests in the polar regions including citizens living above the Arctic circle and three year round scientific stations in the Antarctic Polar icebreaking ships are needed to access both regions Over the past several decades the U S government has supported a fleet of four icebreakers three multi mission U S Coast Guard ships the POLAR SEA POLAR STAR and HEALY and the National Science Foundation's PALMER which is dedicated solely to scientific research Today the POLAR STAR and the POLAR SEA are at the end of their service lives and a lack of funds and no plans for an extension of the program has put U S icebreaking capability at risk This report concludes that the United States should continue to support its interests in the Arctic and Antarctic for multiple missions including maintaining leadership in polar science The report recommends that the United States immediately program budget design and construct two new polar icebreakers to be operated by the U S Coast Guard The POLAR SEA should remain mission capable and the POLAR STAR should remain available for reactivation until the new polar icebreakers enter service The U S Coast Guard should be provided sufficient operations and maintenance budget to support an increased regular and influential presence in the Arctic with support from other agencies The report also calls for a Presidential Decision Directive to clearly align agency responsibilities and budgetary authorities [Landsat Commercialization](#) United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Science, Technology, and Space, 1984 **Coast Guard Icebreaking** United States. Congress. House.
