Underwater Communications Marco Lanzagorta, 2013 Underwater vehicles and underwater moorings are increasing in tactical importance As such it is critical to have a robust and secure communication system connecting underwater vehicles on a long seaborne mission and a ground station As a matter of fact the deployment of efficient communication links with underwater vehicles is one of the greatest technological challenges presently confronted by the world's naval forces To circumvent most of the limitations involved in the use of RF or acoustic channels for perfectly secure communications with underwater vehicles it is worth considering the feasibility of an optical channel to facilitate a two way satellite communication link secured via perfectly secure ciphers enabled by a quantum key distribution protocol This book offers a concise review of underwater communications systems Our approach is pedagogical making a strong emphasis on the physics behind the attenuating properties of the oceanic environment and the propagation of electromagnetic signals in the ELF VLF and optical bands We assume the reader is familiar with the basic principles of classical electrodynamics and optics The system design components and noise analysis of an underwater optical communications device are discussed in detail Furthermore we offer simulations of the performance of the communication system for different types of ocean waters Our final conclusion is that it appears to be feasible to design and build underwater communications using optical classical and quantum channels secured with quantum key distribution protocols Air University Periodical Index, 1961 *Air University Library Index to Military Periodicals*, 1961 **Journal of the American Society of Naval Engineers, Inc** American Society of Naval Engineers, 1960 Anthology of Children's Literature Evelyn Ray Sickels, Frances Clarke Sayers, 1970 An anthology of nursery rhymes poetry epics mythology and folklore fiction and non fiction for children Appendices include notes on storytelling the history of children's literature illustrators of children's books children's book awards graded reading lists and biographical sketches
