Department of Justice, 1975 Community Policing in Indigenous Communities Mahesh K. Nalla, Graeme R. Newman, 2013-03-04 Indigenous communities are typically those that challenge the laws of the nation states of which they have become often very reluctantly a part Around the world community policing has emerged in many of these regions as a product of their physical environments and cultures Through a series of case studies *Community Policing in Indigenous Communities* explores how these often deeply divided societies operate under the community policing paradigm Drawing on the local expertise of policing practitioners and researchers across the globe the book explores several themes with regard to each region How community policing originated or evolved in the community and how it has changed over time The type of policing style used whether informal or formal and uniformed or non uniformed whether partnerships are developed with local community organizations or businesses and the extent of covert operations if any The role played by community policing in the region including the relative emphasis of calls for service the extent to which advice and help is offered to citizens whether local records are kept of citizen movement and locations and investigation and arrest procedures The community's special cultural or indigenous attributes that set it apart from other models of community policing Organizational attributes including status in the hierarchy of control within the regional or national organization of policing The positive and negative features of community policing as it is practiced in the community Its effectiveness in reducing and or preventing crime and disorder The book demonstrates that community policing cannot be imposed from above without grassroots input from local citizens It is a strategy not simply for policing with consent but for policing in contexts where there is often little if any consent It is an aspirational practice aimed to help police and communities within contested contexts to recognize that positive gains can be made enabling communities to live in relative safety *The Police and the Community* University of California, Berkeley.
