Policing Europe Bill Heberton, Terry Thomas, 1995-03-20 Developments in European police co operation have become sharply focused in the last few years Policing Europe critically examines the historical development of forms of co operation and their traditional justifications terrorism illegal immigration drug trafficking and other cross border crime It is argued that a full understanding of the new policing of Europe needs to take account of the linking of such justifications with the more diffuse debate around removal of border controls and free movement of people The book suggests that a new European policework is emerging and examines the implications of this phenomenon

Policing European Metropolises Elke Devroe, Adam Edwards, Paul Ponsaers, 2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross border terrorism of the attacks on Paris in 2015 and Brussels in 2016 trafficking in people narcotics and armaments cybercrime the deregulation of global financial services and environmental crime Metropolises are the focal points of the transnational networks through which policing problems are exported and imported across national borders as they provide much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent Policing European Metropolises develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy
