Policing World Society Historical Foundations Of International Police Cooperation:

Policing World Society Assistant Professor of Sociology Mathieu Deflem, Mathieu Deflem, 2002 This book offers a sociological analysis of the history of international police cooperation in the period from the middle of the 19th century until the end of World War II It is a detailed exploration of international cooperation strategies involving police institutions from the United States and Germany as well as other European countries The study provides a rich empirical account of many dimensions in the history of international policing including the role of police in the 19th century movement towards national independence evolution from political cooperation towards international criminal enforcement international policing aspects of the outbreak of World War I and the Bolshevik Revolution the early history of international police organizations including Interpol the international implications of the Nazification of the German police and the rise on the international scene of the Federal Bureau of Investigation To account for these historical transformations this book develops an innovative theoretical model of bureaucratization based on the sociology of Max Weber and theories of globalization It is argued that international police cooperation is enabled through a historical process of police agencies gradually claiming and gaining a position of relative independence from the governments of their respective states Furthermore it shows that international police cooperation relies on expert systems of knowledge on international crime which police institutions across nations develop and share Paradoxically in spite of this spirit of cooperation national concerns of participating forces remain paramount

Trust in International Police and Justice Cooperation Saskia Hufnagel, Carole McCartney, 2017-01-26 The use of extra territorial intelligence is growing among security border and public agencies Internationally rapidly evolving efforts to tackle transnational crime entail the exchange of intelligence across jurisdictions and state borders as well as the linking of law enforcement operations This book provides a number of different perspectives from across Europe Australasia and Canada to examine recent cooperation experiences and the challenges faced in practice The book brings together scholars from a range of legal and criminological fields to examine the legal imperatives and social parameters that shape international police and justice cooperation and highlights the importance of both trust and clear legal rules to ensure effective cooperation It focuses on areas where cooperation is now mandated but where significant issues are raised including the international and regional methods of information and intelligence exchange and challenges to human rights protection the coordination of international and regional exchange of evidence such as forensic bioinformation police cooperation in international investigations and the added value of formalising investigative strategies across jurisdictions regionally and internationally and the operation accountability and legitimacy of organisations and institutions of cooperation in law enforcement and specific international policing missions
