Policing Soviet Society:

Policing Soviet Society Louise Shelley, 2005-08-02 The first book to look in depth at the Soviet militia A crucial aid to understanding the authoritarianism of the communist system and its legacy for Russia and the successor states *Policing Post-communist Societies* Niels A. Uildriks, P. van Reenen, 2003 Eastern European countries have been involved in a complex transition towards more democratic forms of government Since the demise of communism the building up of an independent judiciary and a general reorientation of the police role within society have been key issues On the basis of three country studies in Russia Lithuania and Mongolia this book analyses the present state of policing in a variety of post communist societies in terms of police public violence democratic policing the rule of law and human rights It is also complemented by recent comparable and previously unpublished police data for Romania Bulgaria and Poland Those studies have been carried out amongst the rank and file of the uniform branch in Lithuania and Russia which were commissioned by the Soros Open Society Foundation They were specifically concerning views and experiences concerning police public violence and current policing problems in general A third study was carried in Mongolia amongst criminal investigators and sought to explore violent investigative practices This book seeks to combine a thorough theoretical analysis with unique empirical data It analyses the different problems of transition of post communist societies towards more democratic forms of government with unique data from both outside and inside the police *Policing Stalin's Socialism* David R. Shearer, 2014-05-14 *Policing Stalin's Socialism* is one of the first books to emphasize the importance of social order repression by Stalin's Soviet regime in contrast to the traditional emphasis of historians on political repression Based on extensive examination of new archival materials David Shearer finds that most repression during the Stalinist dictatorship of the 1930s was against marginal social groups such as petty criminals deviant youth sectarians and the unemployed and unproductive It was because Soviet leaders regarded social disorder as more of a danger to the state than political opposition that they instituted a new form of class war to defend themselves against this perceived threat Despite the combined work of the political and civil police the efforts to cleanse society failed this failure set the stage for the massive purges that decimated the country in the late 1930s

Policing Cities Randy Lippert, Kevin Walby, 2013-07-18 *Policing Cities* brings together international scholars from numerous disciplines to examine urban policing securitization and regulation in nine countries and the conceptual issues these practices raise Chapters cover many of the world's major cities including New York Beijing Paris London Berlin Mexico City Johannesburg Rio de Janeiro Boston Melbourne and Toronto as well as other urban areas in Britain United States South Africa Germany Australia and Georgia The collection examines the activities and reforms of the traditional public police but also those of emerging public and private policing agents and spaces that fall outside the public police's purview and which previously have received little attention It explores dramatic changes in public policing arrangements and strategies exclusion of urban homeless people new forms of urban surveillance and legal regulation and securitization and militarization

of urban spaces The core argument in the volume is that cities are more than mere background for policing securitization and regulation Policing and the city are intimately intertwined This collection also reveals commonalities in the empirical interests methodological preferences and theoretical concerns of scholars working in these various disciplines and breaks down barriers among them This is the first collection on urban policing regulation and securitization with such a multi disciplinary and international character This collection will have a wide readership among upper level undergraduate and graduate level students in several disciplines and countries and can be used in geography urban studies legal and socio legal studies sociology anthropology political science and criminology courses

Police and Government Relations Margaret E. Beare, Tonita Murray, 2007-01-01 Questions of police governance accountability and independence have been subjected to thorough research before That the issue still draws critical attention more than twenty years after the McDonald Commission of Inquiry into Certain Activities of the Royal Canadian Mounted Police suggests that understanding and a resolution to the issue still elude us Despite the modifications to police practice that the Charter of Rights and Freedoms has brought there is still concern over the degree of independence the police exercise and debate over where the line between legitimate government direction of the police and illegitimate political interference should be drawn Police and Government Relations explores the question of police governance and independence from a number of different points of view Editors Margaret E Beare and Tonita Murray offer multi disciplinary comparative and case study methodologies written by scholars from law political science and criminology to illustrate the diversity of opinion that exists on the topic and to explore how the operating tension between police independence and democratic governance and accountability has played out both in Canada and other countries This book does not attempt to find final answers its goal is to provide a framework for a continuing discussion that may lead to helpful and workable recommendations for the future It serves as an academic and intellectual contribution to an important matter of public policy Contributors Margaret E Beare Alan Borovoy Gordon Christie Susan Eng Dianne Martin Tonita Murray Kim Murray W Wesley Pue Kent Roach Robert Simmonds Lorne Sossin Philip Stenning Toni Williams
