Federica Bicchi, Richard Gillespie

Polish Foreign Policy Reconsidered The Dilemmas Of Independence:

The Union for the Mediterranean Federica Bicchì, Richard Gillespie, 2014-07-10 This is the first comprehensive analysis of the Union for the Mediterranean UfM launched in 2008 amid great controversy within the European Union Affected from the start by negative fallout from the failure of Middle East peace initiatives its inadequacies have been underlined by the popular movement for regime change in the Arab world Leading experts provide here the first integrated analysis of the significance and shortcomings of the UfM Beginning with critical questioning of the motives and institutional logics informing this venture the collection proceeds to analyse its key actors as well as major policy dossiers such as energy and development The book explains how and why an initiative aiming to depoliticize Euro Mediterranean relations in fact proved wide open to political discord bringing huge disruption to UfM activity While some aspects are found to have merit the volume is critical of the way in which EU Mediterranean policy became driven by a narrow range of national interests lost sight of the political objectives of the preceding Barcelona Process and became overwhelmingly bilateral in approach at the expense of more ambitious region building efforts It concludes by highlighting the need to reform the EU Mediterranean policy framework in the light of the Arab uprisings of 2011 This book was published as a special issue of Mediterranean Politics

Bridging the European Divide Joshua B. Spero, 2004-10-20 Do middle powers matter geopolitically to great powers when confronting the unconventional twenty first century threats from nation states or nonstate actors By studying certain middle power politics in the heart of early anarchical and volatile post Cold War Europe we can better grasp the impact such middle powers have in the aftermath of September 11 2001 Bridging the European Divide explores how key regional middle powers perceived and advocated their political power options and tells the largely untold story behind the motives of significant middle power decisions and repercussions Such regional alignment decisions stemmed from the ideas opportunities and realities necessary to transform nation states amid acute regional uncertainty global upheaval and international systemic change In order to achieve a better understanding of how to bridge the post 9 11 gap between changes in material incentives and the role of ideas Spero smartly connects two different types of power politics ways of assessing security dilemmas and foreign policy decisions and reasons why middle powers and their geopolitical roles matter to great powers

Dealing with a Juggernaut Joanna A. Gorska, 2012-07-10 Dealing with a Juggernaut Analyzing Poland's Policy towards Russia 1989-2009 by Joanna A Gorska is the first substantial study of Poland's foreign policy interaction with its more powerful eastern neighbor Russia This study is essential to understanding the prospects for order and peace in Central and Eastern Europe towards Russia during the past twenty years Gorska challenges widely established interpretations of Poland's post 1989 foreign policy by arguing that consecutive Polish governments pursued a largely cooperative policy towards Russia and did so because of material power considerations namely Poland's strengthened power position after the Cold War and moderate security pressures from Russia In analyzing Polish foreign policy Dealing with a

Juggernaut draws on leading theories in the field of International Relations and Foreign Policy Analysis and develops a comprehensive theoretical framework to guide empirical research Representing a cross section of politically important areas in Poland s most recent Russia policy the analysis is delineated along four case studies the Soviet military withdrawal from Poland in the early 1990s the NATO issue in Polish policy towards Russia Polish energy policy towards Moscow and the Katyn question in Polish foreign policy This book uses previously unpublished archival material interviews with leading Polish officials and a wealth of Polish publications to provide an insight into Warsaw s foreign policy behavior Gorska points to a departure from hostility and imposition a significant change in Poland s policy towards Russia after 1989 As such Dealing with a Juggernaut by Joanna A Gorska uncovers important mechanisms of regional cooperation between states with a checkered past

The Transatlantic Relationship : Problems and Prospects Sabina A. M. Auger,2003 National and European Foreign Policy Reuben Wong,Christopher Hill,2012-04-27 Examines how national foreign policies in the EU affect common EU positions in international politics

The Russian Military Today and Tomorrow :.,2010 **Politics of Stigmatization** Molly Krasnodebska,2020-10-27 This book studies how the pursuit of becoming an established insider in an international community shapes a state s foreign policy It looks at Poland s response to three international crises that called for joint action of the EU and its members the Iraq war of 2003 the Russo Georgian war of 2008 and the Ukraine crisis beginning in 2013 The book develops the concept of strategic culture as a collection of historically informed narratives that guide a state s pursuit of ontological security a basic sense of certainty about the state s role and place in the international environment Building on this concept the author argues that Poland s behavior reflects the awareness of its stigma as a late arrival in the EU and more generally in the West as an identity community The study thus provides insight into how stigmatization and struggle for recognition shape international dynamics
