Political And Social Writings 1961 1979 Recommencing The Revolution From Socialism To The Autonomous Society 003:

Political and Social Writings Cornelius Castoriadis, 1992-12-01 Political and Social Writings Volume 3 1961 1979 was first published in 1992 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This work offers an extraordinary wealth and variety of writings from the crucial years that followed the publication of Castoriadis s landmark text *Modern Capitalism and Revolution* The new orientation he proposed for the Socialisme ou Barbarie group centered on the emerging roles of women youth and minorities in the growing challenge to established society in the early sixties Resistance within the group to this new orientation led Castoriadis to criticize the neopaleo Marxism of Jean Fran ois Lyotard and others who ultimately left Socialisme ou Barbarie A heightened concern for ethnological issues culminated in what might be called to the embarrassment of today s poststructuralists Castoriadis s premature antistructuralism Additional texts examine the dissolution of the group itself and analyze the May 1968 rebellion of workers and students who according to their own testimony were inspired by ideas developed in the group s journal Also included were many of Castoriadis s still relevant political writings from the seventies which were developed in tandem with the more explicitly philosophical work now found in *The Imaginary Institution of Society* and *Crossroads in the Labyrinth* Political and Social Writings Volume 3 provides key elements for a radical renewal of emancipatory thought and action while offering an irreplaceable and hitherto missing perspective on postwar French thought

Castoriadis and Critical Theory Christos Memos, 2014-11-18 By exploring the concepts of crisis and critique this study offers a thought provoking re examination of the political and social thought of Cornelius Castoriadis in light of the current world crisis and with regard to his radical critique of both the traditional Left and contemporary capitalist societies

Recommencing the Revolution Cornelius Castoriadis, 1992-12-01 *Global Economic Crisis as Social Hieroglyphic* Christos Memos, 2021-04-14 This book examines the 2008 global economic crisis as a complex social phenomenon or social hieroglyphic arguing that the crisis is not fundamentally economic despite presenting itself as such Instead it is considered to be a symptom of a long standing multifaceted and endemic crisis of capitalism which has effectively become permanent leading contemporary capitalist societies into a state of social regression manifest in new forms of barbarism The author offers a qualitative understanding of the economic crisis as the perversion or inversion of the capitalistically organized social relations The genesis of the current crisis is traced back to the unresolved world crisis surrounding the Great Depression in order to map the course and different inverted forms of the continuous global crisis of capitalism and to reveal their inner connections as derivative of the same social constitution From a historical and interdisciplinary perspective the book expounds critical social theory elaborating on the intersection between the early critical theory of the Frankfurt School mainly Adorno Horkheimer and Marcuse and the social form analysis of the Open

Marxism school Global Economic Crisis as Social Hieroglyphic critically addresses the permanent character of the 1920s 1930s crisis and the crisis theory debates the political crisis in Eastern Europe 1953 1968 the crisis of Keynesianism the crisis of subversive reason the crisis negative anthropology and transformations of the bourgeois individual the state of social regression and the destructive tendencies after the rise of neoliberalism and finally the 2008 financial crisis and its ongoing aftermath

The Power to Assume Form Sean McMorrow, 2023-08-15 The Power to Assume Form Cornelius Castoriadis and Regulative Regimes of Historicity examines the major contribution of Cornelius Castoriadis's work which elucidated the role of the social imaginary within human societies What is significant Sean McMorrow argues is that Castoriadis's work presents a unique perspective on the regimes of historicity modes of instituting power that establish the legitimacy of institutional order in relation to the extensive social imaginary articulations of the world The author assesses Castoriadis's theorization of the radically creative capacity of the social imaginary and suggests that there remains a tendency to present an overly dichotomous view of autonomous and heteronomous modes of institution McMorrow assesses how adherence to this inclination hinders the development of further insights into the creative capacities of social imaginary while also imposing limits on Castoriadis's own assessment of the partially autonomous situation of modern societies The author suggests that one way forward is to consider the role of an implicit dimension of instituting power involved in the reproduction of dominant social imaginary articulations of the world and which also shape the regulation of historicity more generally The main purpose of this book is to develop the critical depth of Castoriadis's work showing how it remains an insightful framework to analyze the significance of the deepening depoliticization of contemporary liberal democratic regimes and the partially autonomous dynamics that underlie their shift toward increasingly authoritarian modes of governance

Castoriadis: Psyche, Society, Autonomy Jeff Klooger, 2009-05-27 This book is a critical exploration of the philosophical underpinnings and implications of Cornelius Castoriadis's reflections on Being society and the self The book introduces the reader to the main concepts of Castoriadis's work but goes further to uncover the fundamental philosophical issues addressed by Castoriadis and to critically examine the issues his work opens up assessing and where necessary offering suggested amendments to the answers Castoriadis himself puts forward Key conceptual problems addressed include the distinction between autonomy and heteronomy the nature of the self and self creation and the nature of determination in a fundamentally indeterminate universe

Postscript on Insignificance Cornelius Castoriadis, 2011-02-24 Cornelius Castoriadis 1922 1997 was a philosopher social critic political activist practicing psychoanalyst and professional economist His work is widely recognized as one of the most singular and important contributions to twentieth century thought In this collection of interviews Castoriadis discusses some of his most important ideas with leading figures in the disciplines that play such a crucial part in his philosophical work poetry psychoanalysis biology and mathematics Available in English for the first time these interviews provide a concise and accessible introduction to his work as a whole allowing him to draw on the

astounding breadth of his knowledge ranging from political theory and sociology to ontology and the philosophy of science They also render Castoriadis cutting polemical and entertaining style while displaying the originality and clarity of his primary concepts Intellectually provoking this timely collection shows how Castoriadis polemics are sharp and riveting his conceptual manoeuvres rigorous and original and his passion inspiring This is an excellent introduction to one of Europe s most important intellectuals

Council Democracy James Muldoon,2018-07-24 The return to public assemblies and direct democratic methods in the wave of the global squares movements since 2011 has rejuvenated interest in forms of council organisation and action The European council movements which developed in the immediate post First World War era were the most impressive of a number of attempts to develop workers councils throughout the twentieth century However in spite of the recent challenges to liberal democracy the question of council democracy has so far been neglected within democratic theory This book seeks to interrogate contemporary democratic institutions from the perspective of the resources that can be drawn from a revival and re evaluation of the forgotten ideal of council democracy This collection brings together democratic theorists socialists and labour historians on the question of the relevance of council democracy for contemporary democratic practices Historical reflection on the councils opens our political imagination to an expanded scope of the possibilities for political transformation by drawing from debates and events at an important historical juncture before the dominance of current forms of liberal democracy It offers a critical perspective on the limits of current democratic regimes for enabling widespread political participation and holding elites accountable This timely read provides students and scholars with innovative analyses of the councils on the 100th anniversary of their development It offers new analytic frameworks for conceptualising the relationship between politics and the economy and contributes to emerging debates within political theory on workplace economic and council democracy

Protest, Property and the Commons Lucy Finchett-Maddock,2016-03-17 Protest Property and the Commons focuses on the alternative property narratives of social centres or political squats and how the spaces and their communities create their own resistant form of law Drawing on critical legal theory legal pluralism legal geography poststructuralism and new materialism the book considers how protest movements both use state law and create new more informal legalities in order to forge a practice of resistance Invaluable for anyone working within the area of informal property in land commons protest and adverse possession this book offers a ground breaking account of the integral role of time space and performance in the instituting processes of law and resistance

W. E. B. Du Bois and the Problems of the Twenty-First Century Reiland Rabaka,2008-04-29 W E B Du Bois and the Problems of the Twenty First Century utilizes Du Bois s thought and texts to develop an informed critical theory of contemporary society This book broadens the base of critical theory making it more multicultural transethnic transgender and non Western European philosophy focused by placing it in dialogue with theory and phenomena that had been heretofore woefully neglected Taking the preeminent black intellectual of the twentieth century as his primary point of departure

Reiland Rabaka identifies and analyzes several key contributions that Du Bois and the black racial tradition offer to those interested in redeveloping and racially revising contemporary critical social theory. With chapters on critical race theory, postcolonial theory, feminism, and Marxism, this volume builds bridges from Africana Studies to disparate discursive communities, accessibly demonstrating Du Bois's and the black radical tradition's contributions to and the potential impact on a wide range of new social scientific research and radical political struggles.
