Hagan, 2008 Introduction to Criminology Sixth Edition is a comprehensive introduction to the study of criminology and includes one chapter on the criminal justice system It aims to avoid an overly legal and crime control orientation and instead concentrates on the vital core of criminological theory theory method and criminal behavior Hagan investigates all forms of criminal activity such as organized crime white collar crime political crime and environmental crime He explains the methods of operation the effects on society and how various theories account for criminal behavior *High and Low Corruption* Harry Adams, 2023-12-19 High and Low Corruption Children Capabilities and Crime provides a systematic theory of corruption and analyzes high corruption in terms of political corruption and high end white collar crime and low corruption in terms of juvenile delinquency and street crime It shows how delinquents and street criminals often suffer from arrested development of their basic human capabilities In turn Harry Adams argues that their maldevelopment often emerges neither merely through their own fault when they were children nor through the fault of biological caregivers who were guilty of parental child neglect Beyond this Adams argues that the maldevelopment of at risk youth commonly emerges through a kind of political child neglect when corrupt public officials fail to provide adequate protection or back up support for their development In these ways the author shows how the former type of high corruption or suite crime can significantly contribute to the latter type of corruption and street crime By applying a set of moral constitutional and criminological

principles from Derek Parfit Ronald Dworkin and Jeffrey Reiman respectively Adams also provides a systematic account of why and how both these types of corruption should be curbed
