nation state community and democracy They show the importance of education in building strong democratic nation states and global communities based on cultural identity and inter cultural awareness This book is essential reading for students of education policy studies and social policy analysis Political Philosophy, Educational Administration and Educative Leadership Reynold Macpherson, 2013-10-01 In this book Reynold Macpherson initiates a politically critical theory of educative leadership as a fresh line of inquiry in the practice research and theory of educational administration and educational leadership Divided into four parts the book introduces the sub discipline of political philosophy to the field of educational administration management and leadership It does this by clarifying the knowledge domain of each and identifying how four political ideologies specifically pragmatism communitarianism communicative rationalism and egalitarian liberalism have primarily informed and surreptitiously provided contestable justifications for power in the development of practice research and theory in the field of study The book goes on to offer three case studies illustrating how political philosophy can be used to interpret how people become leaders and administrators of educational institutions and systems Additional case studies then demonstrate how crises in governance in educational institutions and systems can be analyzed and improvements made using the tools of political philosophy The final part uses the sub discipline to critique the author's decades of research into educative leadership and concludes the book by both establishing the relativity of politically critical critique and the ideology it favours neo pragmatism Political Philosophy Educational Administration and Educative Leadership will provide practitioners researchers and theorists in educational administration management and leadership with a deeper appreciation of power by formally introducing them to the assumptions limits and tools of political philosophy **The Palgrave International Handbook of Education for Citizenship and Social Justice** Andrew Peterson, Robert Hattam, Michalinos Zembylas, James Arthur, 2016-10-20 This state of the art comprehensive Handbook is the first of its kind to fully explore the interconnections between social justice and education for citizenship on an international scale Various educational policies and practices are predicated on notions of social justice yet each of these are explicitly or implicitly shaped by and in turn themselves shape particular notions of citizenship education for citizenship Showcasing current research and theories from a diverse range of perspectives and including chapters from internationally renowned scholars this Handbook seeks to examine the philosophical psychological social political and cultural backgrounds factors and contexts that are constitutive of contemporary research on education for citizenship and social justice and aims to analyse the transformative role of education regarding social justice issues Split into two sections the first contains chapters that explore central issues relating to social justice and their interconnections to education for citizenship whilst the second contains chapters that explore issues of education for citizenship and social justice within the contexts of particular nations from around the world Global in its perspective and definitive in content this one stop volume will be an indispensable reference resource for a wide range of academics students and researchers in the fields of Education Sociology Social Policy

Citizenship Studies and Political Science **Historical Perspectives on Teacher Preparation in Aotearoa New Zealand**

Tanya Fitzgerald, Sally Knipe, 2019-07-11 This book documents and critiques the historical origins and historiography of schooling and teacher preparation in New Zealand The country has a unique educational history as the overview of the history and development of schools for the nation's children both Pakeha European and Maori will highlight **Equality and Inequality in Education Policy** Liz Dawtrey, 1995 Discusses the history and gendered nature of education policy and the impact of policies on practice in education The articles represent a range of views and approaches to education demonstrating the complexity of educational experience and the influence of class race culture and gender **The Search for Better Educational Standards** Martin Thrupp, 2017-08-22 This book deals with the development of New Zealand's standards system for primary school achievement Kiwi Standards which took effect from 2010 onwards and is becoming increasingly embedded over time The approach where teachers make Overall Teacher Judgements based on a range of assessment tools and their own observations rather than using any particular national test has created predictable problems with moderation within and across schools It has been claimed that this bold Kiwi Standards approach avoids the narrowed curriculum and mediocre outcomes of high stakes assessment in other countries Yet this book suggests it just produces another variant of the same problems and demonstrates that even a relatively weak high stakes assessment approach still produces performative effects The book provides a blow by blow account of the development of a policy including the continuous repositioning of New Zealand's Government as it has sought to justify the policy in the face of opposition from educators Indeed the Kiwi Standards tale provides a world class example of teachers fighting back against policy with the help of academics There is an indigenous M ori aspect to the story as well Finally this book also provides comparative international perspectives including responses from well known US English and Australian academics **Systems of Education** Sohan Modgil, Mal Leicester, 2005-07-28 Volume 1 is concerned with the theoretical and conceptual framework for reflecting about values culture and education and thus provides an introduction to the series as a whole It provides state and policy level analysis across the world **Schooling Reform In Hard Times** Bob Lingard, John Knight, Paige Porter, 2003-09-02 Based on research carried out under Labour governments throughout the 1990s in Western Australia the authors consider the social political and economic conditions under which policy is formulated understood and enacted They look at how the state structure affects the content and nature of policy statements and provide an outline of the history of policy developments and point to future possibilities and probabilities Outcomes within funding ceilings accountability frameworks and national guidelines are but some of the changes referred to The emergence of competency based standards in education and training in schools workplaces and the professions is evident throughout Australia at state level but the concern is whether issues of education should be played out within the state and outside civil society The authors argue for the mediation in implementation of policy rather than a lambasting of policy formulation and implementation This text is

intended for heads of education departments PGCE BEd MEd students and researchers interested in education policy and planning Education policymakers and educational historians **Education and Society** Len Barton, 2006-11-22 The British Journal of Sociology of Education has established itself as the leading discipline based publication This collection of selected articles published since the first issue provides the reader with an informed insight and understanding of the nature range and value of sociological thinking its development over the last twenty five years as well as the analysis of the relationship between society and education Divided into four sections the book covers social theory and education social inequality and education sociology of institutions curriculum and pedagogy research practices in the sociology of education The intention of this form of organisation is to provide the reader with an awareness and understanding of multiple perspectives within the discipline as well as key conceptual theoretical and empirical material including a wealth of insights ideas and questions The editor s specially written introduction to each section contextualises the selection and introduces readers to the main issues and current thinking in the field **Educational Policy and the Politics of Change** Miriam Henry, Bob Lingard, Fazal Rizvi, Sandra Taylor, 2013-01-11 Governments around the world are trying to come to terms with new technologies new social movements and a changing global economy As a result educational policy finds itself at the centre of a major political struggle between those who see it only for its instrumental outcomes and those who see its potential for human emancipation This book is a successor to the best selling Understanding Schooling 1988 It provides a readable account of how educational policies are developed by the state in response to broader social cultural economic and political changes which are taking place It examines the way in which schools live and work with these changes and the policies which result from them The book examines policy making at each level from perspectives both inside and outside the state bureaucracy It has a particular focus on social justice Both undergraduate and postgraduate students will find that this book enables them to understand the reasoning behind the changes they are expected to implement It will help to prepare them to confront an uncertain educational world whilst still retaining their enthusiasm for education *The Politics of School Government* G. Baron, 2014-06-28 Leading international scholars consider changes and developments in school government practice in the United States Canada England and Wales Scotland Australia New Zealand France West Germany Italy Denmark Norway and Sweden Each chapter looks at the introduction or reform of councils at school level designed to secure the involvement in decision making of parents teachers students and the local community Essential reading for everyone involved in educational administration this informative book will also be of interest to researchers of comparative education the politics of education and participatory developments in the field **A Companion to Research in Teacher Education** Michael A. Peters, Bronwen Cowie, Ian Menter, 2017-05-31 This state of the art Companion assembles and assesses the extant research available on teacher education and provides clear guidelines on future directions It addresses an important need in a collection that will be of value for teachers teacher educators policymakers and politicians There has been little sustained

long term or systematic research to provide empirical support for the broad aspects of teacher education policy largely because such research has been chronically underfunded and based on traditional practitioner knowledge. Many of the changes to teacher education are contentious and yet are occurring in rapid succession. These policies and movements have important consequences for education teacher quality and the future of the teaching profession. At the same time the policies and initiatives that support these changes seem to be based more on ideology, business interests and tradition than on research and empirical findings. The nature quality and effectiveness of teacher preparation have increasingly become a central focus for education policy worldwide in a fiercely argued debate among governments, think tanks, world policy agencies, education researchers and teacher organisations.

English Language as Hydra Vaughan Rapatahana, Pauline Bunce, 2012-06-22. In far too many places the worldwide trade in English language teaching, testing and publishing has become a self-perpetuating, self-congratulating neocolonial monster, a veritable multi-headed Hydra. Too often the English language industry aggressively promotes itself as some sort of uplifting, essential, proper or even better means of communication than any other language. Unfortunately its relentless global outreach is taking place at the direct expense and the active denigration of local and regional languages, not to mention individual identities. English Language as Hydra brings together the voices of linguists, literary figures and teaching professionals in a wide-ranging exposé of this monstrous Hydra in action on four continents. It provides a showcase of the diverse and powerful impacts that this ever-evolving gluttonous beast has had on so many non-English language cultures, as well as the surreptitious, drug-like ways in which it can infiltrate individual psyches.

The Miseducation of Women James Tooley, 2003-07-21. Girls and boys are different. So why do our schools insist on treating them as identical? Could this misguided equality have anything to do with the increasing dissatisfaction among women that is revealed in survey after survey? Do gender-blind educational policies in fact work to women's disadvantage? Bringing together many women's voices from Bridget Jones to Simone de Beauvoir, Betty Friedan to Germaine Greer, James Tooley challenges education's sacred cows, demanding a radical rethinking of sexual politics and a fairer way forward for women. *The Miseducation of Women* landed like a bombshell when it was published in England a few months ago, but Mr Tooley's book, replete with examples and anecdotes from the United States as well as Great Britain, has equal application to the gender arguments on this side of the Atlantic.

Restructuring Societies David B. Knight, Alun E. Joseph, 1999-04-23. A wide range of social scientific perspectives from anthropology, geography, history and Indigenous studies to politics, psychology and sociology are represented here. The effects of restructuring processes in Canada and New Zealand are particularly well documented and the importance of words and their manipulation is emphasized, but it is the broad sweep of approach that distinguishes this work from more abstract or uni-disciplinary commentaries on restructuring. Feature essays: one by former Ontario premier Bob Rae on conservative and radical resistance to abuses of power and two on aboriginal First Nations issues challenge important public policy trends. *Restructuring Societies* takes crucial steps toward

developing informed public debate about a process that affects us all International Perspectives in Curriculum History
