contends that civil society in Russia is developing in a distinctive way It shows that government and elite led drives to encourage civil society have indeed been limited and that the impact of external promotion of civil society has also not been very successful It demonstrates however that independent domestic grassroots movements are beginning to flourish despite difficulties and adverse circumstances and that this development fits well into the changing nature of contemporary Russian society

A Framework for European Competition Law Christopher Townley, 2018-11-29 This book asks whether the current push to increase uniformity in substantive and procedural competition policy and enforcement in Europe as well as in related institutional structures is desirable It focuses on European Union EU competition policy and enforcement related to Articles 101 and 102 TFEU and the merger rules the equivalent rules in the Member States and the relationships between these different legal orders Uniformity has many benefits yet the advantages of diversity are also legion enabling more policy experimentation and innovation and improving the ability to accommodate national preferences Contrary to the overwhelming view of academics practitioners and regulators in this area the book argues that uniformity is insufficient and examines ways of achieving a better mix of uniformity and diversity the EU s motto is United in Diversity To achieve this better mix the book offers a new framework for European competition law Co ordinated Diversity Finally this book discusses whether Co ordinated Diversity fits with the current legal order in the EU as well as the EU constitutional settlement more generally and suggests some ways that it might be made compatible with this order with relative ease The book s impact could be significant changing the results in individual cases the way cases are argued and what information is relevant More importantly it builds the theoretical foundations for fundamentally altering the way in which the EU and the Member States competition authorities interact allowing space for disagreement and uncertainty The aim is to improve the efficiency and effectiveness of competition policy making and enforcement in Europe It should also increase the legitimacy in this field rebalancing towards the Member States Co ordinated Diversity provides a new way of seeing the EU that better blends difference when this is demanded with uniformity and its benefits as necessary A timely and ambitious work this book will be read with interest by all practitioners and academics interested in EU competition law as well as the related fields of political science and economics

 information about the social and political habits of twentieth century Americans **Imaginative Ecologies**, 2021-12-13
 Imaginative Ecologies Inspiring Change through the Humanities highlights the role literature and visual arts play in fostering
 sustainability It weaves together contributions by international scholars practitioners and environmental activists whose
 insights are brought together to illustrate how creative imaginations can inspire change One of the most outstanding
 characteristic of this volume is its interdisciplinarity and its varied methods of inquiry The field of environmental humanities
 is discussed together with ideas such as the role of the public intellectual and el buen vivir Examples of ecofiction from the
 UK the US and Spain are analysed while artistic practices aimed at raising awareness of the effects of the Anthropocene are
 presented as imaginative ways of reacting against climate change and rampant capitalism *Towards a Deliberative and
 Associational Democracy* Stephen Elstub, 2008-04-25 In an era where citizens of liberal democracies are becoming
 increasingly disillusioned dissatisfied and disenfranchised by the dominant political institutions and decision making
 processes in these polities new ideas of how to deepen democracy re engage citizens and enhance decision making
 legitimacy are required This book suggests that a combination of deliberative democracy and associational democracy is both
 a normatively desirable and an empirically plausible solution to the complex problems that are present in contemporary
 societies as well as being compatible with many recent trends in governance Author Stephen Elstub argues that by
 combining deliberative with associational democracy the weaknesses of each model alone are compensated by the other
 allowing the key strengths of each to manifest themselves And he goes further by offering a detailed set of original
 institutional requirements for liberal democracies that if adopted will enable a deliberative and associational democracy to be
 realised in practice **Florida's Minority Trailblazers** Susan MacManus, 2016-11-21 Saves a piece of Florida political
 history by narrating the personal stories of the state s minority trailblazers from the Civil Rights Movement to the present
 day Richard E Foglesong author of Immigrant Prince Mel Martinez and the American Dream Captures Florida s ongoing
 political transition from a yellow dog lily white state to one where diversity is beginning to make an impact on politics Doug
 Lyons former senior editorial writer South Florida Sun Sentinel Florida experienced a population surge during the 1960s that
 diversified the state and transformed it into a microcosm of the nation but discrimination remained pervasive With the
 passage of the Civil Rights Act of 1964 and the Voting Rights Act of 1965 along with later rulings on redistricting and term
 limits the opportunity to participate in government became more and more possible for previously silenced voices Drawing

primarily from personal interviews Susan MacManus recounts the stories of the first minority men and women both Democrat and Republican who were elected or appointed to state legislative executive and judicial offices and to the U S Congress since the 1960s She reveals what drove these leaders to enter office how they ran their campaigns what kinds of discrimination they encountered what rewards each found during their terms and what advice they would share with aspiring politicians In addition to the words of the officeholders themselves MacManus provides helpful timelines photos biographical sketches of each politician and election results from path breaking victories The book also includes comprehensive rosters of minority individuals who have held state offices and those who have gone on to represent Florida in the federal government Full of inspiring stories and informative statistics Florida s Minority Trailblazers is an in depth rendering of personal struggles guided by opportunity ambition and idealism that have made Florida the vibrant diverse state it is today Susan A MacManus is Distinguished University Professor in the Department of Government and International Affairs at the University of South Florida and the coauthor of Politics in Florida and Politics in States and Communities A volume in the series Florida Government and Politics edited by David R Colburn and Susan A MacManus
