The Liberal State and Criminal Sanction Jonathan A. Jacobs, 2020 Jonathan Jacobs examines the injustice of incarceration in the U S and U K both during incarceration and upon release into civil society Situated at the intersection of criminology and political philosophy Jacobs s focus is on moral reasoning and he argues that the current state of incarceration is antithetical to the project of liberal democracy as it strips incarcerated people of their agency He advocates for reforms through a renewed commitment to the values and principles of liberal democracy and proposes a retributivist conception of sanction to reform the criminal justice system and emphasizes the importance of proportionality

The Oxford Handbook of Political Obligation , 2025-09-28 The Oxford Handbook of Political Obligation offers an authoritative up to date overview of research in this field In recent decades scholars have developed strong criticisms of the traditional reasons given to explain political obligations At present skepticism about the possibility of a convincing account may well be the dominant position in the literature These philosophical developments run

alongside changed political and social circumstances In recent years Western political systems have come under suspicion with citizens led to question traditional reasons why they should obey them Additional factors renewing interest in political obligation include the emergence of new democracies in Eastern Europe occasioned by the fall of the Soviet Union and unrest in many American cities especially over issues of racial justice This Handbook has two main foci contemporary philosophical debates about political obligation and responses to political social circumstances that raise questions about requirements to obey the law Traditional theories of obligation are addressed in a series of essays by well known authorities while additional essays canvass new approaches including the possibility of legitimate states without moral requirements to obey them and skeptical conclusions from important theorists Responses to political and social circumstances include civil disobedience and more radical approaches In addition political obligations are addressed as they bear on emerging democracies and unjust and authoritarian regimes

Political Obligation John Horton, 2017-08-24 How should we understand the relationship between citizens and governments and what are the obligations of citizens In this substantially revised new edition of an influential text John Horton challenges dominant theories by offering an associative account focusing particularly on what it is to be a member of a political community

Obligation in Exile Ilan Zvi Baron, 2014-12-22 Combining political theory and sociological interviews spanning four countries Israel the USA Canada and the UK Ilan Zvi Baron explores the Jewish Diaspora Israel relationship and suggests that instead of looking at Diaspora Jews relationship with Israel as a matter of loyalty it is one of obligation Baron develops an outline for a theory of transnational political obligation and in the process provides an alternative way to understand and explore the Diaspora Israel relationship than one mired in partisan debates about whether or not being a good Jew means supporting Israel He concludes by arguing that critique of Israel is not just about Israeli policy but about what it means to be a Diaspora Jew

Islamic Doctrines and Political Liberalism Gozde Hussain, 2024-11-13 This book delves into the compatibility of Islam with liberal values engaging in a comparative analysis of Islamic moral language and John Rawls's liberal democratic ideas Rawls a prominent modern liberal political philosopher posits that diverse moral and religious doctrines in a pluralistic society should align with the principles of a liberal democratic political culture The author shares Rawls's assumptions and maps out a spectrum of Islamic orthodoxy positions to assess the plausibility of reconciling Islamic doctrines with a liberal political order While acknowledging that such compatibility is not the mainstream outlook the book argues that it's feasible through reasonable interpretations of Islamic sources The central question addressed is the realism of observant Muslims endorsing a liberal democratic state from within their doctrinal tradition By examining a range of Islamic orthodoxy positions the book demonstrates that Muslims can theoretically find Islamic reasons rooted in acceptable interpretations of divine sources to justify their commitment to a liberal state Furthermore it provides moral reasons and strategies for the liberal state to address incompatible Islamic doctrines ensuring Muslims can maintain religious practices without an Islamic political

authority This theoretical framework offers insights for future empirical and theoretical studies on Muslims navigating pluralistic liberal societies making it a vital contribution to the discourse on Islam and liberalism Political Obligation and the Liberal State Sergej Zoubok, 1990
