Political Process A Functional Study In:

Political Process S. McKee Rosen, 1935 **Post-communist Studies And Political Science** Jr. Fleron, Erik P Hoffmann, 2019-08-15 Serious stock taking is in progress now among practitioners of what has been called Sovietology meaning studies of the Union of Soviet Socialist Republics The reason is that the field for the most part had not been expecting what happened in 1991 The USSR collapsed and went out of existence as a unified state system governing a sixth of the world's territory having allowed its East European empire to free itself from Soviet dominance somewhat earlier It might be said in defense of Sovietology that by the beginning of the 1980s it understood that economic and political crises were brewing in the Soviet Union and its outer empire But the field as a whole failed to grasp the full depth of the systemic crisis in Soviet Russia and the destructive or self-destructive potentialities inherent in it As the editors of this valuable volume write in the Introduction Sovietology was not prepared for perestroika and postcommunism **The Functional Analysis of Politics** Roy E. Jones, 2025-04-01 The Functional Analysis of Politics 1967 discusses the feasibility of looking at political activities as constituting a system and of the concepts of structures and functions as general categories of political activities As well as expounding and criticising structural function analysis it applies it to political institutions groups and the notion of political development Government-supported Research International Affairs; Research Completed and in Progress July 1969-June 1970 Allan E. Suchinsky, United States State Government, 1971 The document describes current research projects those initiated in progress and completed during fiscal year 1970 in the social and behavioral sciences dealing with international affairs foreign areas and United States foreign policy for the use primarily of research officers throughout the Government The research descriptions are arranged by subject matter with cross references as appropriate at the end of each section Author *A Functional Analysis of Political Television Advertisements* William L. Benoit, 2014-04-01 A Functional Analysis of Political Television Advertisements examines theory and research on election advertisements William Benoit employs the Functional Theory of Political Campaign Discourse to understand the nature or content of television spots in election campaigns Beginning with a look at American presidential spots from 1952 2012 Benoit investigates the three functions acclaims attacks and defenses and the topics of policy and character for these groups of political commercials The following chapters are devoted to reporting similar data on presidential primary advertisements presidential third party spots other theories including Issue Ownership Theory and Functional Federalism Theory as well as nonpresidential and non U S election advertising Benoit considers the data discusses the development of political advertising over time and finally presents areas for further research This book is a uniquely comprehensive examination of the value and use of television spots in political election rhetoric Political Theory Hoveyda Abbas, Ranajay Kumar, 2012 Political Theory is about the description observation analysis and inquiry into the issues of political science Divided into 15 chapters the book captures all relevant aspects of political science and analyses them in the light of examples from India and the rest of the world Through
