Political Experience:

Varieties of Political Experience Gianfranco Poggi, 2024-08-22 The management of contemporary public affairs involves many different centres of social power engaged in complex and mutable relations ranging from willing cooperation to competition to out and out conflict This book emphasises the role played in these relations by political institutions in particular Generally these claim a special competence to authorise and regulate the activities of other institutions but their claim is often contested by other power centres serving different and sometimes contrasting interests To explore those processes the author after identifying the nature of the political considers its dealings with other forms of social power Among these economic power gets particular attention in view of the contemporary salience of the state vs market issue But this book also considers the relations between politics at one end and law the public sphere citizenship and religion at the other

The Doctoral Journey as an Emotional, Embodied, Political Experience Rebecca Twinley, Gayle Letherby, 2021-12-28 The Doctoral Journey as an Emotional Embodied Political Experience is the first text of its kind to capture stories of involvement in doctoral journeys from students supervisors and examiners Drawing from experiences across a variety of disciplines in the social sciences medical sciences education and the humanities these stories share a keenness to demonstrate the ways in which this journey is emotional rather than detached embodied rather than separated

and political rather than having no relationship to politics The journey metaphor is often adopted to describe and explore the PhD process However this journey is usually only seen from the perspective of the doctoral candidate This implies that it is only the student that learns develops and reflects This is clearly not always maybe never the case The suggestion that the candidate learns whilst the supervisors teach harks back to traditional masculinist educational approaches and neglects the reciprocal knowledge sharing process between student and supervisor Similarly the prescription that relationships between all concerned remain professional and removed rather than in any way intimate suggest an unrealistic acceptance of an scientific detached objective agenda rather than an emotional embodied political and holistic approach to research The contributions to this book extend the journey metaphor to additionally consider the experiences of supervisors and examiners including the joint collaborative journey of the team the candidate their supervisors and their examiners This provides a challenge to traditional understandings of the doctoral process and offers implications for future reflection and practice This book is therefore an invaluable resource for doctoral students supervisors examiners and readers interested in pedagogy and educational practice

Public Space and Political Experience David Antonini, 2021-04-30 Contemporary politics is dominated by discussions of rights and liberties as the proper subjects about which citizens should be concerned in the political sphere In *Public Space and Political Experience* An Arendtian Interpretation David Antonini argues that Hannah Arendt conceived of politics differently and that her thought can help us retrieve a more authentic sense of politics as the site where citizens can speak and act together about matters of shared concern Antonini shows that citizens can experience politics together if they approach it not as a realm where privately interested individuals compete for their rights or liberties but instead as a space where plural human beings come together as distinct yet equal creatures Antonini argues that if we read Arendt as primarily concerned with political experience we can reimagine common political concepts such as freedom power revolution and civil disobedience The book posits that politics should be considered a fundamental form of human experience one rooted in what Arendt refers to as the existential condition of politics human plurality If plurality is the existential condition out of which our political life emerges we can enliven and reimagine the possibilities that political life can provide for contemporary citizens
