Politics and the Internet in Comparative Context Paul Nixon, Rajash Rawal, Dan Mercea, 2013-07-24 For many years now we have witnessed the developing use of the internet and associated technologies by political actors and organisations Claims and counter claims have been made as its suitability as a tool to help in the struggle to re invigorate political participation in democracies across the globe has been contested This book charts the shifting sands of political activity in the digital age It interrogates the hybrid nature of modern politics as online and offline actions blur the boundaries of traditional politics between real life co presence and the booming virtual domain of politics By so doing it critically reflects on the latest scholarship on the subject while concurrently advancing stimulating new insights into it Encapsulating both the range and the diverse velocities of change in different political arenas and geographical locations this volume seeks to map out a path if not towards the politics of tomorrow then towards a better comprehension of the politics of today Featuring a range of international and comparative case studies presenting research on the UK US Italy France Spain Romania Africa and China this book will be of interest to students and scholars of Politics and Media Political Communication New Media studies Public Administration Sociology Communication Studies Computing and Information and Communications Technologies

Political Parties in the Digital Age Guy Lachapelle, Philippe Maarek, 2015-07-01 The Internet and social media may initially have been understood as just one more instrument politicians could employ to manage without political parties However these media cannot be reduced to being a tool available solely to politicians The electronic media make reinforcement of the globalization of the public and political sphere a process already set in motion with the advent of television and they can develop the trend even further Political parties are therefore once again becoming indispensable they are in an unparalleled position to recreate social and political bonds for only they stand both at the center and on the periphery of the new sphere encompassing public and political life
