Protest Policy And The Problem Of Violence Against Women A Cross National Comparison:

Protest, Policy, and the Problem of Violence against Women S. Laurel Weldon, 2013-12-09 Violence against women is one of the most insidious social ills facing the world today Yet governmental response is inconsistent ranging from dismissal to aggressive implementation of policies and programs to combat the problem In her comparative study of thirty six democratic governments Laurel Weldon examines the root causes and consequences of the differences in public policy from Northern Europe to Latin America She reveals that factors that often influence the development of social policies do not determine policies on violence against women Neither economic level religion region nor the number of women in government determine governmental responsiveness to this problem Weldon demonstrates for example that Nordic governments take no more action to combat violence against women than Latin American governments even though the Swedish welfare state is often considered a leader in social policy particularly with regard to women s issues Instead the presence of independently organized active women s movements plays a greater role in placing violence against women on the public agenda The breadth and scope of governmental response is greatly enhanced by the presence of an office dedicated to promoting women s status Weldon closes with practical lessons and insights to improve government action on violence against women and other important issues of social justice and democracy Living Gender after Communism

Janet Elise Johnson, Jean C. Robinson, 2006-12-12 How has the collapse of communism across Europe and Eurasia changed gender In addition to acknowledging the huge costs that fell heavily on women Living Gender after Communism suggests that moving away from communism in Europe and Eurasia has provided an opportunity for gender to multiply from varieties of neo traditionalism to feminisms from overt negotiation of femininity to denials of gender This development in turn has enabled some women in the region to construct their own gendered identities for their own political economic or social purposes Beginning with an understanding of gender as both a society wide institution that regulates people s lives and a cultural toolkit which individuals and groups may use to subvert or transvalue the sex gender system the contributors to this volume provide detailed case studies from Belarus Bosnia the Czech Republic Poland Romania Russia and Ukraine This collaboration between young scholars most from postcommunist states and experts in the fields of gender studies and postcommunism combines intimate knowledge of the area with sophisticated gender analysis to examine just how much gender realities have shifted in the region Contributors are Anna Brzozowska Karen Dawisha Nanette Funk Ewa Grigar Azra Hromadzic Janet Elise Johnson Anne Marie Kramer Tania Rands Lyon Jean C Robinson Iulia Shevchenko Svitlana Taraban and Shannon Woodcock **Getting Paid While Taking Time** Megan Sholar, 2016-09-28 The United States remains the

only industrialized nation in the world that does not provide paid family leave at the national level for either men or women In the more than two decades since the passage of the Family and Medical Leave Act there have been numerous unsuccessful attempts to expand family leave benefits nationally However in the United States it is common for innovations in family

policies to arise at the state level In her timely book *Getting Paid While Taking Time* Megan Sholar explains the development of family leave policies at both the national and state levels in the United States She provides cogent studies of states that have passed and proposed family leave legislation and she pays special attention to the ways in which women s movement actors and other activists e g labor unions exert pressure on public officials to help influence the policymaking process In her conclusion Sholar considers the future of paid family leave policies in the United States and the chances for it ever equaling the benefits in other countries
