Processes of Literary Creation Marion Schmid, 1998 This work examines the genetic processes that shaped two of the great literary masterpieces of modernity Flaubert's *L'Education Sentimentale* and Proust's *A la Recherche de Temps Perdu* A detailed investigation of Flaubert's notebooks and scenarios from 1864 and 1869 and Proust's *Cahiers* from 1908 to 1911 reveals the almost diametrically opposed ways in which the two novels evolved in their early stages

Breeches and Metaphysics Siegbert Salomon Prawer, 1997 This study traces the successive stages of Thackeray's contact with the German world and analyses the discourse he developed as a result The author is concerned with the fiction and criticism of Thackeray's *Paris Sketch Book* and the impressions related by the cockney traveller in *Irish Sketch Book* and *Notes of a Journey from Cornhill to Grand Cairo* Thackeray's own pictorial illustrations of his writings and those by Cruikshank Doyle and Walker which he supervised and supplemented are recognized as an integral part of his German discourse The study is a chronological one setting Thackeray's construction of German and the Germans against the background of his own development and of the social industrial cultural and political history of Britain and its continental neighbours

History Painting and Narrative Peter Brooks, 1998 The narrative of historical events was of prime political and aesthetic importance to the generation that came to the fore in France in 1830 The choice of the right moment to illustrate historical events was a continuing subject of concern for Delacroix as the brief explanations he wrote for the salon and catalogue demonstrate He wants spectators to understand the chosen moment as part of a continuing narrative but also as the moment most revelatory of the historical meaning of the narrative This lecture illuminates Delacroix's sense of illustrative historical moment with some reference to Sartre Freud Delaroche and Isabey
