Radiation Educational Video:

Radiology Education Kathryn M. Hibbert, Rethy K. Chhem, Teresa Van Deven, Shih-chang Wang, 2012-04-23 This book reviews the philosophies theories and principles that underpin assessment and evaluation in radiology education highlighting emerging practices and work done in the field The sometimes conflicting assessment and evaluation needs of accreditation bodies academic programs trainees and patients are carefully considered The final section of the book examines assessment and evaluation in practice through the development of rich case studies reflecting the implementation of a variety of approaches This is the third book in a trilogy devoted to radiology education The previous two books focused on the culture and the learning organizations in which our future radiologists are educated and on the application of educational principles in the education of radiologists Here the trilogy comes full circle attending to the assessment and evaluation of the education of its members has much to offer back to the learning of the organization
