Radical Chic & Mau-Mauing the Flak Catchers Tom Wolfe, 1971 **Radical Chic** Tom Wolfe, 2002 *RADICAL CHIC* is Tom Wolfe s hilarious dissection of the need among wealthy liberals in late 60s America to be seen to support the correct political causes even if that meant giving champagne receptions for the feared Black Panther Party *MAU MAUING THE FLAK CATCHERS* takes a satirical look at how during that period of cultural upheaval minority groups from the ghettos refined the art of intimidating the white bureaucracy In these essays Wolfe s supercharged yet consummately controlled prose transports the reader back to the heady days of hippie revolution and Black Power *THE PAINTED WORD* is Wolfe s insightful flamboyant and supremely readable survey of Modern Art Taking in Picasso Pollock and Warhol he describes the tense relationship between bohemian artists and their wealthy patrons and concludes that modern art is Theory the paintings and sculptures themselves are mere illustrations of the text *Tome Wolfe* is a journalist who always manages to combine an encyclopedic store of inside knowledge with the obstinate detachment of a visitor from Mars not ot mention a brilliant style and incisive wit *San Francisco Chronicle*

Spectacular Blackness Amy Abugo Ongiri, 2010 Exploring the interface between the cultural politics of the Black Power and the Black Arts movements and the production of postwar African American popular culture Amy Ongiri shows how the reliance of Black politics on an oppositional image of African Americans was the formative moment in the construction of authentic blackness as a cultural identity While other books have adopted either a literary approach to the language poetry and arts of these movements or a historical analysis of them Ongiri s captures the cultural and political interconnections of the postwar period by using an interdisciplinary methodology drawn from cinema studies and music theory She traces the emergence of this Black aesthetic from its origin in the Black Power movement s emphasis on the creation of visual icons and the Black Arts movement s celebration of urban vernacular culture

The Participant Christopher M. Kelty, 2020-01-21 Participation is everywhere today It has been formalized measured standardized scaled up network enabled and sent around

the world Platforms algorithms and software offer to make participation easier but new technologies have had the opposite effect We find ourselves suspicious of how participation extracts our data or monetizes our emotions and the more procedural participation becomes the more it seems to recede from our grasp In this book Christopher M Kelty traces four stories of participation across the twentieth century showing how they are part of a much longer term problem in relation to the individual and collective experience of representative democracy Kelty argues that in the last century or so the power of participation has dwindled over time it has been formatted in ways that cramp and dwarf it even as the drive to participate has spread to nearly every kind of human endeavor all around the world *The Participant* is a historical ethnography of the concept of participation investigating how the concept has evolved into the form it takes today It is a book that asks Why do we participate And sometimes Why do we refuse

The New Progressive Era Peter Levine, 2000-01-12 A century ago Americans launched a period of civic renewal and political reform Today amid deep dissatisfaction with our major institutions there are signs that a new movement may revive the spirit of the original Progressive Era Peter Levine draws inspiration from the great Progressive leader Robert M La Follete Sr and his circle which included John Dewey Jane Addams and Louis Brandeis He discusses the shortcomings of this group as well as their successes but he argues that their ideal of a fair and deliberative democracy is right for our time Combining their philosophy and experience with the best contemporary proposals Levine advocates campaign finance reform an entirely different approach to regulation new styles of journalism and civic education and fundamental changes in the tax system Combining philosophical arguments historical background empirical data and concrete proposals *The New Progressive Era* offers today s most comprehensive plan for civic renewal and political reform

On the Corner Daniel Matlin, 2013-11-01 In July 1964 after a decade of intense media focus on civil rights protest in the Jim Crow South a riot in Harlem abruptly shifted attention to the urban crisis embroiling America s northern cities *On the Corner* revisits the volatile moment when African American intellectuals were thrust into the spotlight as indigenous interpreters of black urban life to white America and when black urban communities became the chief objects of black intellectuals perceived social obligations Daniel Matlin explores how the psychologist Kenneth B Clark the literary author and activist Amiri Baraka and the visual artist Romare Bearden each wrestled with the opportunities and dilemmas of their heightened public stature Amid an often fractious interdisciplinary debate black intellectuals furnished sharply contrasting representations of black urban life and vied to establish their authority as indigenous interpreters In time however Clark Baraka and Bearden each concluded that acting as interpreters for white America placed dangerous constraints on black intellectual practice *On the Corner* reveals how the condition of entry into the public sphere for African American intellectuals in the post civil rights era has been confinement to what Clark called the topic that is reserved for blacks

Philosophical Dimensions of Public Policy William Galston, 2017-07-12 At the mid point of the twentieth century many philosophers in the English speaking world regarded political and moral philosophy as all but moribund

Thinkers influenced by logical positivism believe that ethical statements are merely disguised expressions of individual emotion lacking propositional force or that the conditions for the validation of ethical statements could not be specified or that their content however humanly meaningful is inexpressible. Philosophical Dimensions of Public Policy presents thirty-four articles written by research scholars in numerous fields: philosophy, political theory, medicine, law, biology, economics, ecology, and sociology, treating a broad range of topics in practical philosophy. The Institute for Philosophy and Public Affairs has been home for these ideas, pioneering a distinctive method of conducting inquiry into the moral dimensions of public life and contributing to public discussion and deliberation. Members of the Institute reject the idea that public philosophy means reaching into the philosopher's tool kit and applying prefabricated theories to particular problems. They set in motion a dialogue between the distinctive moral features of practical problems and the more general moral theories or considerations that seem most likely to elucidate these problems. The volume is divided into five areas: Politics, Civic Life and Moral Education, Diversity, Identity and Equal Opportunity, Human Rights, Development, Ethics and International Justice, Biotechnology, Genetic Research and Health Policy, and Natural Environment, Human Communities. Philosophical Dimensions of Public Policy presents empirical data and philosophical arguments with the intention of informing public policy and public deliberation. Scholars as well as graduate and undergraduate students are certain to find it useful to their research work.
