Radical Femininity Womens Self Representation In The Public Sphere:

Radical Femininity Eileen Yeo,1998 A pioneering study of how British women from different social groups created radical identities and represented themselves in the public sphere between 1800 and 1940 While highlighting their ingenuity in remaking various dominant discourses such as Christianity constitutionality and domesticity the book also reveals the paradoxes involved in this subversion The feminine public sphere Megan Smitley,2013-07-19 At a time when women were barred from clerical roles middle class women made use of the informal power structures of Victorian and Edwardian associationalism in order to actively participate as citizens This investigation of women s part in civic life provides a fresh approach to the public sphere illuminates women as agents of a middle class identity and develops the notion of a feminine public sphere or the web of associations institutions and discourses used by disenfranchised middle class women to express their citizenship The extent of middle class women s contribution to civic life is examined through their involvement in reforming and philanthropic associations as well as local government Making use of a range of previously untapped sources this fascinating book will appeal in particular to those with an interest in Gender History and Scottish History **Quaker Women, 1800-1920** Robynne Rogers Healey,Carole Dale Spencer,2023-08-31 This collection investigates the world of nineteenth century Quaker women bringing to light the issues and challenges Quaker women experienced and the dynamic ways in which they were active agents of social change cultural contestation and gender transgression in the nineteenth century New research illuminates the complexities of Quaker testimonies of equality slavery and peace and how they were informed by questions of gender race ethnicity and culture The essays in this volume challenge the view that Quaker women were always treated equally with men and that people of color were welcomed into white Quaker activities The contributors explore how diverse groups of Quaker women navigated the intersection of their theological positions and social conventions asking how they challenged and supported traditional ideals of gender race and class In doing so this volume highlights the complexity of nineteenth century Quakerism and the ways Quaker women put their faith to both expansive and limiting ends Reaching beyond existing national studies focused solely on white American or British Quaker women this interdisciplinary volume presents the most current research providing a necessary and foundational resource for scholars libraries and universities In addition to the editors the contributors to this volume include Joan Allen Richard C Allen Stephen W Angell Jennifer M Buck Nancy Jiwon Cho Isabelle Cosgrave Thomas D Hamm Julie L Holcomb Anna Vaughan Kett Emma Lapsansky Werner Linda Palfreeman Hannah Rumball and Janet Scott Women and the Anglican Church Congress 1861-1938 Sue Anderson-Faithful,Catherine Holloway,2023-05-18 This book covers new ground in its focus on the Anglican Church congresses 1861 1938 as a public space in which the views of notable women were widely disseminated It celebrates the contribution made by women to public life and discourse on womanhood as platform speakers and commemorates the presence of the large numbers of women who joined congresses as audience members Original research draws on extensive

Agitate, Educate, Organise, Legislate Ellen Warne, 2017-07-17 After successfully agitating for the vote for women from the 1890s Protestant women s organisations in Australia began to educate women at a grassroots level on effective ways of applying political pressure on a wide range of topics and social concerns Positioning their organisations as non party political and separate from more overtly feminist groups the Woman s Christian Temperance Union WCTU the Young Women s Christian Association YWCA and the Mothers Union attracted women who were keen to work for change and who were seeking to save the individual as well as the greater society These three organisations sought to agitate on a wide range of issues related to girls and women connecting with public anxieties and highlighting particular vulnerabilities of girls and young women who lived alone in the city and had the potential to be exploited in the workforce By the 1920s and 1930s these women s groups noted with concern the easier access to divorce and birth control in the Soviet Union and the growing influence of both Communism and Hitlerism in galvanising young people Agitate Educate Organise Legislate explores the colourful debates and anxieties that were prevalent from the 1890s to the 1930s and the responses of the key women s organisations whose leadership and campaigns acknowledged that outside of parliament and party politics women s connection to political matters could be both innovative and socially influential *Borderline Citizens* Kathryn Gleadle, 2009-09-24 This is the most comprehensive analysis to date of women s involvement in British political culture in the first half of the 19th century Innovative in its attention to both urban and rural experiences of politics the volume also challenges many assumptions about contemporary politics including fresh insights into the Reform Act of 1832 **For Better or For Worse? Collaborative Couples in the Sciences** Annette Lykknes, Donald L. Opitz, Brigitte Van Tiggelen, 2012-06-05 In this volume a distinguished set of international scholars examine the nature of collaboration between life partners in the sciences with particular attention to the ways in which personal and professional dynamics can foster or inhibit scientific practice Breaking from traditional gender analyses which focus on divisions of labor and the assignment of credit the studies scrutinize collaboration as a variable process between partners living in the nineteenth and twentieth centuries who were married and divorced heterosexual and homosexual aristocratic and working class and politically right and left The contributors analyze cases shaped by their particular geographical locations ranging from retreat settings like

the English countryside and Woods Hole Massachusetts to university laboratories and urban centers in Berlin Stockholm Geneva and London The volume demonstrates how the terms and meanings of collaboration variably shaped by disciplinary imperatives cultural mores and the agency of the collaborators themselves illuminate critical intellectual and institutional developments in the modern sciences
