Raf Fighters:

RAF Fighters Before the Storm Martin Derry, Neil Robinson, 2025-11-04 This is a truly excellent product well written and excellently illustrated it needs to find its way on to the shelves of any RAF silver wings modeler IPMS USA When the First World War ended the then recently established Royal Air Force was awash with aircraft of all descriptions More surprising perhaps was the fact that despite an ongoing cull of obsolescing types on the last day of 1919 the RAF still possessed 9 122 non obsolete aircraft with a further 1 100 more assigned to the Fleet Air Arm while the famous SE 5A and Sopwith Camel had by this time largely been consigned to history the RAF possessed no less than 1 860 Sopwith Snipes which from 1920 would become the RAF s standard single seat fighter for years to come Other core types on charge on 31 December 1919 included some 1 650 Bristol F 2B fighters and 1 250 de Havilland DH 9As which together with the Snipe accounted for over fifty per cent of the RAF s inventory at that time Avro 504 training aircraft accounted for a further 2 700 airframes In this *Flight Craft Special* the authors provide a detailed and informative pictorial history of those scout fighter aircraft that served in an operational capacity with the RAF from January 1920 until the last day of 1939 a period in which Britain once again moved from an era of peace to war with an old enemy albeit this time Hitler s totalitarian National Socialist Germany as opposed to the Imperial Germany of old As well as covering each of the fighter types used during the inter war period and featuring most of the squadrons the photographs themselves convey the sense of the technical advances that rapidly took root within Britain s aero industries from the mid 1930s onwards moving from the brightly marked overall silver wood and linen biplanes to the dull camouflaged metal skinned monoplanes The progression of machine gun development from the Lewis and Vickers of the First World War to the later Browning is covered spanning the days of the biplanes two fixed synchronized Lewis or Vickers 303 inch machine guns mounted in the forward fuselage to eight wing mounted 303 inch Browning machine guns in the new monoplane fighters There is also a small but fascinating section on the monoplane also runs the monoplane fighters that were designed and had prototypes built but failed to reach the finishing post RAF

Fighter Pilots in WWII Martin W. Bowman, 2015-08-31 This is a pulsating account of the young RAF fighter boys who flew Spitfires Hurricanes and Defiants in England against the Luftwaffe and from Malta 1940 45 against the Regia Aeronautica Their story is told using combat reports and first person accounts from RAF German and Commonwealth pilots who fought in the skies in France in 1940 in England during the Battle of Britain and in the great air offensives over Occupied Europe from 1942 onwards Chapters include the stories of Wing Commander D R S Bader Wing Commander Adolph Gysbert Sailor Malan Oberleutnant Ulrich Steinhilper Flight Lieutenant H M Stephen Squadron Leader Robert Stanford Tuck Johnny Johnson Squadron Leader M N Crossley Squadron Leader A McKellar Cowboy Blatchford and Squadron Leader D H Smith an Australian veteran of the Battle of Malta and many others whose names have now become legendary The RAF and Aircraft Design Colin S Sinnott, 2014-05-22 This work examines the evolution of the RAF s operational requirements for its

home defence air force for bombers to mount a deterrent counter offensive and for fighters to provide direct defence of Britain It discusses the management processes policies and decisions relevant to operational requirements on the basis of a detailed study of Air Ministry papers of the time By tracing the development of operational requirements the author exposes the thinking behind the RAF's quest for effective fighter and bomber aircraft He describes the ideas and concepts of air warfare that were adopted in the 1920s and shows how these evolved into the Air Staff's requirements for the aircraft which the RAF entered and fought in World War II

The Royal Air Force Michael Napier, 2018-02-22 A fully illustrated history of the Royal Air Force while on operations publishing to mark the centenary of its foundation in World War I The world's first independent air force the Royal Air Force celebrates its centenary in 2018 In the 100 years since the end of World War I the service has been involved in almost continuous operations around the globe giving the RAF the longest and most wide ranging history of any air force in the world But over the years this history has also become entangled with myths The Royal Air Force A Centenary of Operations sets the record straight dispelling these as it uncovers in both words and photographs the true exploits and accomplishments of RAF personnel over the last 100 years From its formation as an independent service in the dying days of World War I its desperate fight against the Axis air forces in World War II to its commitments during both the Cold War and modern times this is the complete story of how the RAF has defended Britain for a century

The RAF's French Foreign Legion G H Bennett, 2011-06-30 An examination of the relationship between the Royal Air Force and the French Fighter pilots who flew for the RAF during WWII

Fighter Aces John Sadler, Rosie Serdiville, 2017-08-19 A readable and entertaining introduction to aerial combat in the series that would be excellent for someone with an early interest in military history Army Rumour Service Just over a decade after the first successful powered flight fearless pioneers were flying over the battlefields of France in flimsy biplanes Though the infantry in their muddy trenches might see aerial combat as glorious and chivalric the reality was very different and undeniably deadly new Royal Flying Corps subalterns in 1917 had a life expectancy of eleven days In 1915 the term ace was coined to denote a pilot adept at downing enemy aircraft and top aces like the Red Baron Ren Fonck and Billy Bishop became household names The idea of the ace continued after the 1918 Armistice but as the size of air forces increased the prominence of the ace diminished But still the pilots who swirled and danced in Hurricanes and Spitfires over southern England in 1940 were and remain feted as the Few who stood between Britain and invasion Flying aircraft advanced beyond the wildest dreams of Great War pilots the top fighter aces of World War II would accrue hundreds of kills though their life expectancy was still measured in weeks not years World War II cemented the vital role of air power and postwar innovation gave fighter pilots jet powered fighters enabling them to pursue duels over huge areas above modern battlefields This entertaining introduction explores the history and cult of the fighter ace from the first pilots through late twentieth century conflicts which leads to discussion of whether the era of the fighter ace is at an end

The Royal Air Force: The Trenchard Years, 1918-1929 Ian M. Philpott, 2005-07-19

The inter war years between 1918 and 1939 saw the newly created Royal Air Force fighting for its very existence politically being dispatched to the remotest corners of the British Empire and its Protectorates in various policing roles and then finally engaged in a headlong rush to modernize in the face of the new German Fascist regime that was threatening British and European freedom Yet this important period in RAF history and its effect on political and military rationale during the period has never been completely documented This exhaustive and comprehensive reference is the most detailed work to be published on the subject The author gives full information on the changing structure of the Force during the period squadron operations political machinations and their effects the airplanes and their equipment the personnel technical advances in navigation and breakthroughs achieved in engine performance The book is cross referenced throughout extremely well illustrated and contains an abundance of location maps and other diagrams This book will become a Bible for anyone interested in the history of the RAF This work has been reviewed by personnel at the RAF Historical Branch who praise it

Royal Air Force Quarterly and Commonwealth Air Forces Journal ,1942 *Fighter!* Jim Laurier,2016-11 Hear the daring tales of the pilots who flew the top World War II fighter planes as well as their perspective on the design and weaponry

Fighter Operations in Europe and North Africa, 1939-1945 David Wragg,2012-02-29 Fighter Operations in Europe and North Africa 1939 1945 tells the story of Allied and German fighter pilots in Europe over the Mediterranean and in North Africa during the Second World War The book starts with the early skirmishes as each side tested the others defenses moves through the Battle of Britain and then the Blitz when the emphasis switched from single engined day fighters to twin engined night fighters while increasingly fighters were used to sweep over enemy air fields and lines of communication in occupied France This overlapped with the need to provide air cover for the besieged island fortress of Malta by day and by night as well as defensive operations against Axis forces in Crete and North Africa but as the balance of power changed in North Africa the Desert Air Force was formed incorporating elements from many Allied air forces and the emphasis moved to offensive operations in support of ground forces The invasions of Italy and the South of France also called for fighter cover initially by carrier based aircraft The lessons learnt in North Africa were put to good use by the 2nd Allied Tactical Air Force which accompanied the advancing allied armies towards and eventually into Germany achieving all important air supremacy which was a major factor in the Allied victory The book also covers Luftwaffe fighter pilots as they sought to stop the RAF by night and the USAAF by day against increasingly overwhelming odds
