2 history books I have read in years We Are the Mighty In the winter of 1941 as Britain faced defeat on all fronts an RAF reconnaissance pilot photographed an alien looking object on the French coast near Le Havre The mysterious device a Wurzburg Dish appeared to be a new form of radar technology ultra compact highly precise and pointed directly across the English Channel Britain s experts found it hard to believe the Germans had mastered such groundbreaking technology But one young technician thought it not only possible he convinced Winston Churchill that the dish posed a unique and deadly threat to Allied forces one that required desperate measures and drastic action Capturing the radar on film had been an amazing coup Stealing it away from under the noses of the Nazis would be remarkable So was launched Operation Biting a mission like no other An extraordinary snatch and grab raid on Germany s secret radar installation it offered Churchill s elite airborne force the Special Air Service a rare opportunity to redeem themselves after a previous failed mission and to shift the tides of war forever Led by the legendary Major John Frost these brave paratroopers would risk all in a daring airborne assault with only a small stretch of beach menaced by enemy guns as their exit point With the help of a volunteer radar technician who knew how to dismantle the dish as well as the courageous men and women of the French Resistance they succeeded against all odds in their act of brazen robbery Some would die Others would be captured All fought with resolute bravery This is the story of that fateful night of February 27 1942 A brilliantly told thrillingly tense account of Churchill s raiders in their finest hour this is World War II history at its heart stopping best This highly informative book almost reads like a genuine techno thriller New York Journal of Books A little known behind the lines spectacular led by two heroic British officers Kirkus Reviews Anyone who wants to learn more about the origins of the British Special Forces should read this book It intertwines historical research and eyewitness testimony to tell the untold story of heroism courage and ingenuity Military Press Lewis presents a richly detailed and nail biting tale Library Journal

Sample Book Insights

- 1 The six men were wedged into the aircraft s narrow hold like the proverbial sardines in a tin They were prepared for the long flight ahead and their commander Trevor Alan Gordon Pritchard was a ten year Army veteran and as tough as old boots regular
- 2 The first British airborne raid was codenamed Operation Colossus and it was led by Tait The Whitley aircraft flew with a pronounced nose down attitude making the hold pitch at a bizarre angle With no side door the only means for the men to exit was via a dark narrow hole in the floor
- 3 The first Allied airborne raiders were sent to the Scottish Highlands to train The Scottish Highlands were not too different from the kind of terrain that Pritchard s SAS would be deployed to and they were there to learn how to fight and survive in such an environment
- 4 The raiders were taught to be self reliant and to track and kill a wild animal if they were separated from their comrades They were also taught to use fair means or foul to kill and to keep their weapons concealed until the last possible moment
