**Rail Scene in Colour**, 1978      The Railway Magazine, 1904      **Britain's Changing Train Liveries** David

Goodyear, 2023-11-23 Railway liveries play an important role in establishing much valued recognition of the many operating companies through the variety of colors worn by their trains which ply our British railways. These reinforce the pride that their uniform bestows. This is demonstrated by the immaculate designs which adorned the Pre grouping steam locomotives through to the stamp of Network South East which certainly raised the profile of many ordinary commuter trains at least around London and the Home Counties. Similarly it is a quality which is especially evident in the ubiquitous all pervading British Railways blue era which now features as an essential ingredient in diesel preservation as also in a multitude of colors and futuristic designs bestowed by the contemporary privatized passenger and freight companies. Furthermore consider the appeal of retro liveries which decorate some of the locomotives hauling charter trains a trend which reinforces the popularity of liveries which were once merely part of the mundane everyday scene. Any glimpse through the news reviews and photographs published in monthly railway magazines will reveal such a kaleidoscope of colors adorning the locomotives and rolling stock which traverse the UK's modern and preserved railways. This book endeavors to facilitate a brief overview of some of these liveries in the hope that it will whet the readers appetite to explore their own world of railway liveries.

*The Visitor's Guide to Cambridge...being the Ninth Edition of Railway Traveller's Walk Through Cambridge* William White (sub-librarian of Trinity college, Cambridge.), 1896      Seventy Years of Railway Photography Colin Boocock, 2018-03-30  
Colin Boocock's railway photographs are already familiar as they have been featured in a variety of railway books and magazines. This book shows around 300 of his favorite images that illustrate the many different aspects of railway photography. The key seven chapters in this book each cover one decade from the 1940s up to the present day. Not only do they display the early improvement in his photography as he gained experience they also bring into focus how much railways

have changed over the last seventy years Grimy steam locomotives in smoky surroundings persisted in ever reducing pockets as more modern forms of traction spread across our railways Working steam finally disappeared from UK main lines in 1968 and around coal mines in the mid 1980s The later chapters benefit greatly from Colins worldwide travels in which he searched for more unfamiliar railways The growth of heritage railways also features Useful appendices add insights into Colins experience of camera technologies and photographic techniques These emphasize the changes that have faced him as his photography has moved from black and white to color and from films and darkrooms to the computer and the digital age Colin last used film in early 2004 having embraced digital photography with enthusiasm People and Rail Systems John R. Wilson, Beverley Norris, Ann Mills, 2016-12-05 Following on from 2005 s Rail Human Factors Supporting the Integrated Railway this book brings together an even broader range of academics and practitioners from around the world to share their expertise and experience on rail human factors The content is both comprehensive and cutting edge featuring more than 55 chapters addressing the following topics Passengers and public Driver performance and workload Driving and cognition Train cab and interfaces simulation and design Routes signage signals and drivability Signalling and control of the railway Planning for the railway Engineering work and maintenance Level crossings Accidents and safety Human error and human reliability SPADs signals passed at danger Human factors integration and standards Impairments to performance Staff competencies and training People and Rail Systems Human Factors at the Heart of the Railway will be invaluable for all those concerned with making railways safer more reliable of higher quality and more efficient It will be essential reading for policy makers researchers and industry around the world *The Amateur Photographer & Photography*, 1922

**Encyclopedia of Ephemera** Maurice Rickards, 2018-10-24 The joy of finding an old box in the attic filled with postcards invitations theater programs laundry lists and pay stubs is discovering the stories hidden within them The paper trails of our lives or ephemera may hold sentimental value reminding us of great grandparents They chronicle social history They can be valuable as collectibles or antiques But the greatest pleasure is that these ordinary documents can reconstruct with uncanny immediacy the drama of day to day life The Encyclopedia of Ephemera is the first work of its kind providing an unparalleled sourcebook with over 400 entries that cover all aspects of everyday documents and artifacts from bookmarks to birth certificates to lighthouse dues papers Continuing a tradition that started in the Victorian era when disposable paper items such as trade cards die cuts and greeting cards were accumulated to paste into scrap books expert Maurice Rickards has compiled an enormous range of paper collectibles from the obscure to the commonplace His artifacts come from around the world and include such throw away items as cigarette packs and crate labels as well as the ubiquitous faxes parking tickets and phone cards of daily life As this major new reference shows simple slips of paper can speak volumes about status taste customs and taboos revealing the very roots of popular culture Images of the British Railway Landscape David Goodyear, 2022-05-05 A collection of striking and evocative photography capturing the interplay of trains and the spaces that

surround them David Goodyear's approach to railway photography has always been to capture the context of the railway within the landscape in which it finds itself The railway train itself embraces each scene providing the soul and atmosphere where it may dominate or be dominated by the landscape in which it is portrayed alongside the special manner through which it expresses its very character The landscape expresses the train as much as the train expresses the landscape The magnificence and splendor of a railway viaduct such as that at St Germans or Brunel's engineering masterpiece of the Royal Albert Bridge makes a statement of the railway within the location it is placed The train crossing the viaduct finds itself enveloped by the architecture of the viaduct and yet characterizes the very function for which the viaduct was built Steam locomotives always bring a very special sense of mood and movement to a railway landscape but a modern train can also contribute its own soul to the landscape in which the railway participates Diesel and electric trains possess their own appeal and character such as through an eye catching livery that conveys a sense of stage appearance on a scene where the aesthetic of the passing train is expressed alongside the location or architecture embracing it Inspirational scenery big skies and brooding hills or a patchwork of color in springtime fields can instill a sense of admiration for beauty in nature through which the train passes Equally expressive are sunlight and shadows and the quality of light through different seasons The author lives in an area with access to many such awe inspiring vistas to explore within Devon and Cornwall Join him on a series of journeys in this collection of his extraordinary photography

*Travelling by Train in the Edwardian Age* Philip Unwin,2023-10-09 First published in 1979 *Travelling by Train in the Edwardian Age* is a book for the steam train enthusiast but it is much more than that it is as well a fascinating social document reflecting an important aspect of Edwardian times From boyhood memories the author calls to life the sights sounds and smells of the railways in their heyday when an express train was the fastest thing on earth the unforgettable whiff of steam coal dust and oil the colourful liveries of the numerous companies the characteristic voices of the engines and their whistles the decor and the motion of the gaslit carriages with their strict division into classes The author stresses that the cheap comfortable travel was made possible by the arduous and long hours and often dangerous labour of drivers foremen signalmen and other railway staff He pays tribute to their loyalty and expertise in the face of often exceptionally difficult circumstances and crude equipment The author gives due attention to the important developments during the period in locomotive and rolling stock design station architecture and signalling technology The many rare period photographs combine with the author's vivid memories and evident

enthusiasm to make this a uniquely informative and entertaining book      **Railroad Postcards in the Age of Steam** H. Roger Grant, 1994 Out of the tradition of those long gone days of great heaving steam locomotives and endless rail lines comes this remarkable selection of vintage cards a treasure trove selected from John Vander Maas consummate collection at the University of Iowa Libraries This lavish volume is the first general book length work devoted to the once ubiquitous railroad picture postcard It comprises an introductory essay and an album of cards The former fully examines the nature of the postcard craze which reached its zenith about 1910 and discusses why images of American railroads played such an important part in the card phenomenon The album divides an engaging assortment of more than 150 representative views into five sections Trains and Rolling Stock Depots and Railway Structures The Railroad Corridor People and Railroads and The Lighter Side of Railroading Railroad historians train enthusiasts postcard collectors and all other readers will find much to interest them in this selection of images Not only are the cards themselves visually striking but they convey a sense of how important railroads once were to the nation s citizenry The sight of steaming locomotives and the hustle and bustle associated with train time caused hearts to quicken These feelings made views of railroad scenes popular with buyers of postcards and now with latter day railroad fans and card collectors      **The Seventies Railway** Greg Morse, 2018-02-15 The decade of blue and grey of red striped container trains and curly sandwiches once derided but now beloved of a generation of train lovers here encapsulated by Greg Morse in full colour      **The American Railroad Passenger Car** John H. I Want to Get On** Graham Hutchins, 2014-08-01 Graham Hutchins fell in love with trains at an early age As a youngster growing up in the railway town of Te Kuiti he would gaze on the steaming monsters as they thundered through the King Country Before long train travel became more than a pastime more than a fascination he was hooked As he recounts in this book he was just ten years old when he undertook a journey alone on the night train to Auckland From then on he travelled as much as he could and later as a young man searched out the smaller forgotten lines to experience what they had to offer Stop the Train I want to get on describes his experiences travelling throughout New Zealand on regular passenger trains railcars goods trains and work trains The routes he traverses include the Central Otago line the Gisborne Railcar the Southerner to Invercargill a mixed train through rural Taranaki a workers train from Greymouth on the Rewanui Incline the Endeavour to Hawke s Bay the Silver Fern Railcar and more Many services have now been axed but he vividly recalls their delights from the scenery outside to the often primitive conditions inside and the people he encounters along the way He also tells many engaging tales about the history of the lines and what makes each so distinctive Sometimes alone on other occasions with his wife Jenny or his mate Russell he conveys the unique experience and sheer pleasure of rail travel in every corner of New Zealand from the 1950s to the present day Some people take to the bottle others go shopping I jump on a train if I can find one and wait for the

swish and sway to take me away Away from the down times For me the diversion comes as much from the rhythm as the passing landscapes from the train window Graham Hutchins remembers the incredibly varied journeys he has taken by train throughout New Zealand They have given him a lifetime of pleasure Night trains and The Northerner The Midland Line Christchurch to the West Coast The Gisborne Railcar The Central Otago Line Alexandra to Dunedin The Picton Christchurch Railcar The Silver Star Auckland to Wellington Greymouth to Rewanui and back By mixed train on the Stratford to Okahukura Line Hamilton to Mount Maunganui The Silver Fern Railcar on the Main Trunk Line The Endeavour Wellington to Napier The Southerner Christchurch to Invercargill The Northern Explorer
