Rain Forest New View:

New Views on an Old Planet Tjeerd H. van Andel, 1994-10-28 In this 1994 revised edition of his award winning book on the Earth's history Professor van Andel updates and expands his earlier text drawing on a wealth of new knowledge that has become available in the last decade This book examines the major changes in the Earth's history the evolution of the solid Earth the changing oceans and atmospheres and the progression of life to render a historical account of the Earth's evolution Much knowledge was gained in the previous decade and while little material has been deleted this new edition has grown to cover the key topics including a chapter on how we can improve our grasp on geological time Mindful of the current interest in global change new sections describe the green house effect and address its possible future ramifications In prose that is both concise and compelling *New Views on an Old Planet A History of Global Change* makes Earth history appealing to the general reader It will serve as an excellent text for introductory courses in the earth and environmental sciences

Rainforest Tony Juniper, 2018-03-29 Rainforests are the lungs of our planet regulators of the earth's temperature and weather They are also home to 50 per cent of the world's animals and plants which for centuries have been the source of many of our key medicines And yet we've all heard of their systematic destruction the raising of trees to make way for plantations of oil palms or cattle the disenfranchisement of indigenous peoples and the corruption that leads to illegal logging and pollution But this is the full story you've never heard an in depth wide ranging first hand narrative that not only looks at the state of the world's tropical rainforests today and the implications arising from their continuing decline but also at what is being done and can be done in future to protect the forests and the 1.6 billion people that depend upon them It is inspirational too in its descriptions of the rainforest's remarkable birds and plants and its indigenous people *Rainforest* is a personal story drawing on the author's many years experience at the frontline of the fight to save the rainforests explaining the science and history of the campaigns and what it has felt like to be there amid the conflicts and dilemmas

Rainforest Radio Georgia Ennis, 2025-04-22 Napo Kichwa communities in the Upper Ecuadorian Amazon find themselves doubly marginalized by settler colonialism and well intentioned language revitalization projects In *Rainforest Radio* Georgia C Ennis provides a comprehensive ethnographic exploration of Amazonian Kichwa community media offering a unique look at how Indigenous broadcast and performance media facilitate linguistic and cultural reclamation in the Ecuadorian Amazon This work offers a critical analysis of how standardized language revitalization efforts like the imposition of Unified Kichwa can inadvertently perpetuate linguistic oppression Ennis follows producers performers and consumers to understand the role of media in language reclamation Through extensive fieldwork she provides vivid portrayals of community efforts to sustain the language and cultural practices of their elders amid environmental and social upheaval Meticulously researched and beautifully written *Rainforest Radio* is an essential work for anthropologists linguists and social scientists interested in language revitalization Indigenous media and environmental justice This book showcases the transformative potential of

community driven media initiatives highlighting the innovative responses of Napo Kichwa activists to the unique challenges they face It serves as a powerful model for those working on similar issues worldwide demonstrating the critical role of community media in language reclamation and cultural sustainability *Islands of Rainforest* Edvard Hviding,Tim Bayliss-Smith,2018-05-08 This title was first published in 2000 An original and thought provoking analysis of modern initiatives in the tropical rain forest While issues such as logging eco timber eco tourism have been widely analyzed from an outsider s perspective this book considers them from the local people s viewpoint in terms of a long history of the rainforest uses The authors demonstrate that the relationship of indigenous people to the tropical forest is not essentially timeless nor is it primarily spiritual or mystical It is in fact firmly connected to modern realities while still being rooted in historical beliefs and practices Standing at the intersection of anthropology historical geography and rainforest ecology and also at the interface of the local and the global this ethnographically grounded study dispels a number of commonly held assumptions It reveals how processes of impact are actually two way interactions as local communities in Melanesia incorporate industries like logging into rapidly evolving post colonial society and economy **Isle of Fire** Christian A. Kull,2004-07-19 Long considered both best friend and worst enemy to humankind fire is at once creative and destructive On the endangered tropical island of Madagascar these two faces of fire have fueled a century long conflict between rural farmers and island leaders Based on detailed fieldwork in Malagasy villages and a thorough archival investigation Isle of Fire offers a detailed analysis of why Madagascar has always been aflame why it always will be aflame and ultimately as Christian Kull argues why it should remain aflame *My Teacher Rides a Harley* Gary Dulabaum,2003 In this memoir about kids creativity and the power of songwriting Gary Dulabaum inspires and entertains Whether recounting his early days as a struggling reader and writer or outlining the songwriting process he uses in student workshops around the country Gary s belief in creativity as a learning tool is empowering This book includes the tools and processes teachers need to begin writing songs in their classrooms a CD of songs students can sing along with and classroom activities to enhance the educational value of the songs Throughout Gary shows concern for children and their ability to communicate A great way for teachers to expose their students to the writing process and encourage their personal creativity Book jacket **The Rough Guide to Costa Rica** Jean McNeil,2001 *What We Learned in the Rainforest* Tachi Kiuchi,William K. Shireman,2002-01-11 With clear direct language and dozens of real world examples the authors show how a company can become like nature a complex living system that doesn t merely balance competing interests but truly integrates them Women's Voices from the Rainforest Janet Gabriel Townsend,2005-08-05 International development policy is responsible for much of the destruction of Central and Latin American rainforests This explores how indigenous women are at last turning their voices to action demanding grassroots strategies as the solution **Water and the Rainforest in Malaysian Borneo** Ian Douglas,2022-01-01 This volume synthesizes and analyzes thirty years of hydrological research in the Danum Valley Conservation Area a lowland
