Religion and Society in Spain, c. 1492 John Edwards, 2024-10-28 The articles in this volume explore both individual and corporate aspects of religion in Spain during the 15th and 16th centuries Jewish Christian and Muslim John Edwards looks in particular at the status experience and attitudes of the conversos those who had converted to Christianity to avoid expulsion from Spain and at the activities of the Inquisition In the second part of the book he expands his analysis to examine the social economic and political basis of religious conflict in the period The primary focus of the book is on the cities of Andalucia Cordoba above all but its concerns extend to Castile and Aragon as well Society and Culture in Early Modern England

David Cressy, 2023-05-31 The common theme of this selection of articles by David Cressy published over the last twenty five years is the linkage of elite and popular culture and the participation of ordinary people in the central events of their age The collection also traces a development in historical style and method from quantitative applications using statistics to qualitative telling of tales Seven essays under the heading Opportunities explore problems of education literacy and cultural attainment within the gendered and hierarchically ordered society of Elizabeth and Stuart England Eight more under the heading Passages examine social and cultural interactions kinship migration community celebrations and rituals in the life cycle The collection brings together a coherent body of research that is much cited in current scholarship and continues to shape the agenda for the social and cultural history of early modern England *Culture and Society in Habsburg Spain*

Nigel Griffin, 2001 Essays on key aspects of cultural religious and intellectual life in early modern Spain **Decline and Change in Late Antiquity** J.H.W.G. Liebeschuetz, 2024-10-28 The essays in this second collection of articles by Professor Liebeschuetz deal with several aspects of the history of Late Antiquity One theme is the prehistory of Late Antique ethical monotheism which is illustrated by studies of pagan cults Mithraism and Judaism Several essays discuss the nature of the people who took over large areas of the Western Roman Empire especially the Visigoths and the Vandals The author insists that the continuing ethnogenesis of these groups was made possible by customs and traditions some of them going back before the entry of these peoples into the Empire It is argued that the fact that formal possession of Roman citizenship became unimportant helped the barbarian settlers to expand their groups and to consolidate their ethnic solidarity Other papers deal with the historiography of Late Antiquity and more generally with the writings of historians from Thucydides to A H M Jones and Peter Brown The anxiety of today s historians to reject the concept of decline is linked to current political concerns especially to the ideology of multiculturalism A recurring theme is the relationship between the historian s own background and his or her writing *Carolingian Coinage and the Vikings* Simon Coupland, 2007 This volume brings together for the first time Simon Coupland s series of significant articles on Carolingian coinage The author draws out the economic and political implications of coin types and coin hoards from the reign of Charlemagne to the Edict of P tres in 864 This numismatic survey is complemented by other studies which use the evidence of coinage and contemporary texts to

Kagay,2024-10-28 The focus of this collection of articles by Donald J Kagay is the effect of the expansion of royal government on the societies of the medieval Crown of Aragon He shows how the extensive episodes of warfare during the 13th and 14th centuries served as a catalyst for the extension of the king's law and government across the varied topography and political landscape of eastern Spain In the long conflicts against Spanish Islam and neighbouring Christian states the relationships of royal to customary law of monarchical to aristocratic power and of Christian to Jewish and Muslim populations all became issues that marked the transition of the medieval Crown of Aragon to the early modern states of Catalonia Aragon and Valencia and finally to the modern Spanish nation Christians and Jews in Dispute Anna Sapir Abulafia,2024-10-28 The articles brought together

here use anti Jewish disputational literature to shed light on the rise of anti Judaism in the West Christian theologians at this time were particularly interested to work out the relationship between Christianity and Judaism because they were in the process of clarifying their own doctrines under the influence of classical material which had not been fully utilised since late Antiquity In this context a response to the continued and vociferous Jewish rejection of Christianity seemed all the more urgent It is not for nothing that the output of anti Jewish polemics rose sharply towards the end of the 11th century and simultaneously became more and more sophisticated Many of the anti Jewish ideas of later centuries go back to what was formulated in the 11th and 12th centuries
