Religion As Belonging A General Theory Of Religion:

Religion as Belonging John S. Cumpsty, 1991-11-01 Religious studies having struggled to establish a phenomenological approach has been reluctant to go beyond observation and various interpretive strategies to theoretical explanation Insofar as it has ventured into explanation it has been heavily dependent for its theory upon those whose primary field of study is sociology anthropology or psychology This book attempts a general theory of religion on its own terms Part One lays a foundation for such a scientific study of religion A comprehensive and essential definition from which to generate a conceptual framework is sought through an examination of the nature of religious experience of religious discourse and of types of religious tradition In Part Two the consequences of the chosen theoretical understanding are unpacked into a conceptual framework and phenomena regarded as religious are located within it Religion, Theology and the Human Sciences Richard H. Roberts, 2002 Religion Theology and the Human Sciences explores the religious consequences of the so called end of history and triumph of capitalism as they have impinged upon key institutions of social reproduction in recent times The book explores the imposition of managerial modernity upon successive sectors of society and shows why many people today feel themselves to be oppressed by systems of management that seem to leave them no option but to conform Richard Roberts seeks to challenge and outflank such seamless oppressive modernity through reconfiguration of the religious and spiritual field **Religion as Belonging** John S. Amanze, 2012-06-28 This book introduces the study of Biblical studies theology religion and philosophy from an African perspective The book comprises twenty six chapters divided into four sections The first section deals with Biblical studies the second with theology the third with religion and the fourth with philosophy The contributions are from 20 eminent scholars from African and Caribbean universities **Transforming Encounters and Critical Reflection: African Thought,**

Critical Theory, and Liberation Theology in Dialogue Justin Sands, Anné Hendrik Verhoef, 2018-12-04 This book is a printed edition of the Special Issue Transforming Encounters and Critical Reflection African Thought Critical Theory and Liberation Theology in Dialogue that was published in Religions Manufacturing Religion Russell T.

McCutcheon, 1997-06-19 In this new book author Russell McCutcheon offers a powerful critique of traditional scholarship on religion focusing on multiple interrelated targets Most prominent among these are the History of Religions as a discipline Mircea Eliade one of the founders of the modern discipline recent scholarship on Eliade's life and politics contemporary textbooks on world religions and the oft repeated bromide that religion is a sui generis phenomenon McCutcheon skillfully analyzes the ideological basis for and service of the sui generis argument demonstrating that it has been used to constitute the field's object of study in a form that is ahistoric apolitical fetishized and sacrosanct As such he charges it has helped to create departments jobs and publication outlets for those who are comfortable with such a suspect construction while

establishing a disciplinary ethos of astounding theoretical naivete and a body of scholarship to match Surveying the textbooks available for introductory courses in comparative religion the author finds that they uniformly adopt the sui generis line and all that comes with it As a result he argues they are not just uncritical which helps keep them popular among the audiences for which they are intended but badly disserve but actively inhibit the emergence of critical perspectives and capacities And on the geo political scale he contends the study of religion as an ahistorical category participates in a larger system of political domination and economic and cultural imperialism

Modern Societies & the Science of Religions

Gerard Wiegers, 2018-11-13 This book brings together studies by seventeen specialists in the science of religions in which they relate the changes in their discipline to the changes which have occurred in a select number of modernising societies worldwide It attempts to study these developments in their relation to and as conditioned and constrained by cultural change changes in educational systems technology population for example migration economic patterns politics and last but not least religious systems The essays focus on resp France Germany the Netherlands Spain the USA Turkey Israel Morocco Saudi Arabia South Africa Indonesia Japan and China Written in honour of Dr Lammert Leertouwer professor of History of Religions and the Comparative Study of Religions at Leiden University from 1979 until his retirement in 1997 the book is particularly important for all those who are interested in the religious social and political contexts of the academic Study of Religions in general and in the various countries dealt with in particular

Interpreting Charles Taylor's Social Theory on Religion and Secularization Germán

McKenzie, 2016-11-22 This book examines Taylorean social theory its sources main characteristics and impact Charles Taylor

s meta narrative of secularization in the West prominently contained in his major work *A Secular Age* 2007 has brought new insight on the social and cultural factors that intervened in such process the role of human agency and particularly on the contemporary conditions of belief in North America and Europe This study discusses what Taylor s approach has brought to the scholarly debate on Western secularization which has been carried on mostly in sociological terms McKenzie interprets Taylor s views in a way that offers an original social theory Such interpretation is possible with the help of sociologist Margaret Archer s morphogenetic theory and by making the most of Taylor s particular understanding of the method of the social sciences and of his philosophical views on human beings knowledge and modernity After exploring the philosophical and sociological sources informing Taylorean social theory and proposing its basic concepts and hermeneutic guidelines the author compares it with two widespread theories of secularization the now waning orthodox account and that proposed by Rational Choice Theory scholars particularly prevalent in the United States In doing so the book shows in which ways Taylorean social theory supersedes them what new issues it brings into the scholarly discussion and what difficulties might limit its future development
