Religion Identity And Empire:

Religion, Identity and Empire Gregory L. Bruess, 1997 During the early Russian Empire tensions between the state and the church and the beliefs of many ethnic minorities and social groups shaped the religious culture of Russia's southern frontier This work explores the dynamic between religion and both religious and political institutions It recreates the struggle of the government and church to consolidate its diverse population into a single unified secular Russia It illuminates historical and cultural aspects of this era including the attempts of Archbishop Nikiforos to bring the correct message of Christ to ethnically diverse parishioners for their religious moral and civic benefit In addition the text provides accounts of those who strayed offering a glimpse of daily lives and struggles on the frontier as well as the stigmatization that resulted from their nonconformity

Egypt and Empire Elisabeth R. O'Connell, 2022 Across Eurasia and North Africa in the First Millennium AD empires rose and fell each adopting a universalizing faith which distinguished it broadly from its neighbours In Egypt our sources are particularly rich owing to the land's arid climate and the unparalleled survival not only of stone ceramic and metalwork but also of organic material such as textiles wood and manuscripts found on papyrus parchment and paper This volume brings together over a dozen of the world's leading specialists to explore the dialectical interplay between empire and religious identity through a series of case studies from Egypt Evidence from Egypt suggests that it was precisely in the context of empire that religious identity emerged as a distinctive marker Using the unrivalled abundance and variety of surviving material culture this volume explores the formation renegotiation and reconstitution of religious identities from the Roman period forward Whereas Egypt's pharaonic millennia c 3000-30 BC have been studied as a coherent whole later eras are often studied as fragments Egypt and Empire offers a different approach by covering together periods that are usually treated separately in different academic disciplines

Religion, Identity and Politics Haldun Gülap, Günter Seufert, 2013-06-26 German Turkish relations which have a long history and generally unrecognized depth have rarely been examined as mutually formative processes Isolated instances of influence have been examined in detail but the historical and still ongoing processes of mutual interaction have rarely been seriously considered The ruling assumption has been that Germany may have an impact on Turkey but not the other way around Religion Identity and Politics examines this mutual interaction specifically with regard to religious identities and institutions It opposes the commonly held assumption that Europe is the abode of secularism and enlightenment while the lands of Islam are the realm of backwardness and fundamentalism Both historically and contemporarily Germany has treated religion as a core aspect of communal and civilizational identity and framed its institutions accordingly the book explores how there has been and continues to be a mutual exchange in this regard between Germany and both the Ottoman Empire and modern Turkey The authors show that the definition of identity and regulation of communities have been explicitly based on religion until the early and since the late twentieth century the period in between the age of secular nationalism which has always been treated as the norm now

appears more clearly as an exception This book will be of interest to students and scholars of sociology politics history and religion

Religion, Identity and Power Ahmet Erdi Ozturk, 2021-01-05 This book examines Turkey's ethno religious activism and power related political strategies in the Balkans between 2002 and 2020 the period under the rule of the Justice and Development Party AKP to determine the scopes of its activities in the region Ahmet Erdi Ozturk illuminates an often neglected aspect of Turkey's relations with its Balkan neighbours that emerged as a result of the much discussed authoritarian turn a broader shift in Turkish domestic and foreign policy from a realist secular to a Sunni Islamic orientation with ethno nationalist policies Ozturk draws on personal testimonies given by both Turkish and non Turkish Muslim and non Muslim interviewees in three country cases Bulgaria North Macedonia and Albania The findings shed light on contemporary issues surrounding the continuous redefinition of Turkish secularism under the AKP rule and the emergence of a new Muslim elite in Turkey

Rhetoric and Religious Identity in Late Antiquity Richard Flower, Morwenna Ludlow, 2020 Rhetoric and Religious Identity in Late Antiquity takes an interdisciplinary approach to the question of how individuals and groups ascribed religious categories during late antiquity Particular focus is given to the role of rhetoric in the expression of religious identity in order to give mutual illumination to both phenomena in this period

Religion and Identity in Porphyry of Tyre Aaron P. Johnson, 2013-03-28 Porphyry a native of Phoenicia educated in Athens and Rome during the third century AD was one of the most important Platonic philosophers of his age In this book Professor Johnson rejects the prevailing modern approach to his thought which has posited an early stage dominated by Oriental superstition and irrationality followed by a second rationalizing or Hellenizing phase consequent upon his move west and exposure to Neoplatonism Based on a careful treatment of all the relevant remains of Porphyry's originally vast corpus much of which now survives only in fragments he argues for a complex unity of thought in terms of philosophical translation The book explores this philosopher's critical engagement with the processes of Hellenism in late antiquity It provides the first comprehensive examination of all the strands of Porphyry's thought that lie at the intersection of religion theology ethnicity and culture

Religion and Nationalism in Asia Giorgio Shani, Takashi Kibe, 2019-08-28 This book re-examines the relationship between religion and nationalism in a contemporary Asian context with a focus on East South and South East Asia Addressing empirical analytical and normative questions it analyses selected case studies from across Asia including China India Iraq Japan Pakistan the Philippines and Sri Lanka and compares the differences and commonalities between the diverse configurations of nationalism and religion across the continent It then goes on to explain reasons for the regional religious resurgence and asks is the nation state model aligned with secularism suitable for the region Exploring the two interrelated issues of legacies and possibilities this book also examines the relationship between nationalism and modernity identifying possible and desirable trajectories which go beyond existing configurations of nationalism and religion Bringing together a stellar line up of contributors in the field Religion and Nationalism in Asia will be a valuable resource for students

and scholars of Asian religion and politics as well as sociology ethnicity nationalism and comparative politics **Religion and Democratization** Michael Daniel Driessen, 2014 Religion and Democratization is a comparative study of how regime types and religion state arrangements frame religious and political identities in Muslim and Catholic societies The book analyzes its theoretical claims through case studies of religiously friendly democratization in Italy and Algeria and a statistical analysis using cross national data on religion state arrangements *Religion, Identity, and Global Governance* Patrick James, 2011-01-01 This volume addresses essential themes in international relations today asking how we can establish when religious identity is a relevant factor in politics when and how religion can be applied to advance positive peace oriented agendas in global governance and how governments can reconsider their foreign and domestic policies

The Palgrave Handbook of Religion and State Volume II Shannon Holzer, 2023-10-19 The Palgrave Handbook of Religion and State Volume II Global Perspectives addresses issues of Religion and State from a multitude of disciplines The volume begins with the philosophical discussion of perennial issues that have to do with the origin and nature of rights One question centers on the right to use one's religious beliefs to enact laws This discussion alone sets this handbook apart from other handbooks of its type While addressing these perennial questions this volume includes authors who interact with the work of John Rawls Hobbes Rousseau and a host of contemporary philosophers The subsequent sections address the American Constitutional Experiment religion state and law in the Americas
