Religion Truth And Language Games:

Religion Patrick Sherry,1977-06-17 **Religion, Truth and Language-Games** Patrick Sherry,1977 **Religion, Truth, and Language-games** Patrick Sherry,1977 Wittgenstein within the Philosophy of Religion Thomas D. Carroll,2014-07-08 The commonly held view that Wittgensteinian philosophy of religion is fideistic loses plausibility when contrasted with recent scholarship on Wittgenstein's corpus and biography This book reevaluates the place of Wittgenstein in the philosophy of religion and charts a path forward for the subfield by advancing three themes **Philosophy of Religion for A2 Level** Michael B. Wilkinson,Hugh N. Campbell,2009-07-07 **Religious Truth and Religious Diversity** Nathan S. Hilberg,2009 Interpreting religion poses a dilemma realist interpretations of religion face the philosophical problem of religious diversity and irrealist interpretations of religion are revisionary The author explores the implications of this dilemma and also clarifies the confusions caused by two abiding problems those stemming from first the concern over which religious beliefs are true rather than attending to what it means for a belief to be true and second the failure to acknowledge two fundamentally different forms of religious irrealism anti realism and non realism Providing critical assessment of the relevant works of John Hick William Alston Alvin Plantinga Peter van Inwagen and Ludwig Wittgenstein and his followers this book is appropriate for upper level undergraduate and graduate courses in philosophy of religion and religious theory

Philosophy of Religion: An Introduction Michael B. Wilkinson,2010-04-08 Theology within the Bounds of Language Garth L. Hallett,2012-01-02 In this wide ranging work Garth L Hallett offers a guided tour through fundamental issues regarding the use of language in theology His preliminary discussions on language and thought language and truth the authority of language making sense the relationship between sense and possibility prepare linguistic reflection on such topics as inference and argument universal factual and moral claims defining and saying what things are verbal versus nonverbal agreement and disagreement interfaith dialogue theological language and metaphor Hallett employs a wealth of distinctly Christian examples in these considerations including love faith God religion the Eucharist the afterlife divine law evil the Incarnation the Trinity the holy and many others In the course of this fascinating exploration readers should learn to find their way more surely in a vast complex terrain and mystery will emerge both diminished and deepened In addition at the end of each chapter Hallett provides a series of intriguing quotations that invite further reflection **The Metaphysics of Religion** Michael S. Jones,2006 Lucian Blaga was an early twentieth century European philosopher whose work was suppressed at the height of his career by the creation of the Romanian Socialist Republic Blaga's philosophical writings are rich and creative spanning metaphysics epistemology philosophy of science philosophical anthropology aesthetics philosophy of culture philosophy of history and philosophy of religion Mircea Eliade wrote that Blaga was the most gifted and critical original thinker in the history of Romanian philosophy Because of historical circumstances Blaga's philosophy has not become known outside of his own country although within Romania it continues to be read and discussed Were it to become

known outside of Romania Blaga s philosophy could provide interesting contributions to contemporary philosophical discussions The thesis of this book is that Blaga s philosophy can make valuable contributions to contemporary Anglo American philosophy In order to support this thesis Blaga s philosophical system is explained in detail so that the reader may see how it can be applied to a variety of philosophical issues philosophy of religion in order to demonstrate that it can contribute to contemporary Anglo American discussions Michael S Jones is Assistant Professor of Philosophy at Liberty University

Religion Within the Limits of Language Alone Felicity McCutcheon, 2017-03-02 Religion Within the Limits of Language Alone provides a critical examination of the Wittgensteinian philosophers of religion who claim that the word God cannot be understood as referring to a metaphysical being who may or may not exist McCutcheon traces the arguments offered by these philosophers of religion back to Wittgenstein s own criticisms of speculative metaphysics arguing that in its religious usage the concept of God does not fall under Wittgenstein s anti metaphysical gaze In presenting a detailed account of Wittgenstein s own philosophical method including his criticisms of metaphysics McCutcheon shows that it is possible to accept Wittgenstein s criticisms of metaphysics whilst retaining the metaphysical content of religious language This book offers a fresh understanding of Wittgenstein s philosophical method and a new critique of religious discourse for those studying philosophy and religious studies
