Religion And The State 2004 Supplement:

Constitutions, Religion and Politics in Asia Dian A. H. Shah, 2017-10-26 As religious polarisation in society deepens political actors and policy makers have begun to struggle with questions on the role of the dominant religion and how religion influences constitutional commitments and development By focusing on Indonesia Malaysia and Sri Lanka *Constitutions Religion and Politics in Asia* demonstrates how constitution making and the operation of constitutional arrangements involving religion cannot be separated from the broader political dynamics of society Although constitutions establish legal and political structures of government institutions and provide tools for rights protection they do not operate in a vacuum divorced from the games of power and the political realities surrounding them Here Shah sets out how constitutions operate and evolve and demonstrates how constitutional provisions can produce unintended consequences over time A vital new source of scholarship for students and scholars of law and religion and comparative constitutional law and those interested in issues of constitutionalism and legal and political history in Asia *Between State and Synagogue* Guy Ben-Porat, 2013-03-25 A thriving yet small liberal component in Israeli society has frequently taken issue with the constraints imposed by religious orthodoxy largely with limited success However Guy Ben Porat suggests in recent years in part because of demographic changes and in part because of the influence of an increasingly consumer oriented society dramatic changes have occurred in secularization of significant parts of public and private lives Even though these fissures often have more to do with lifestyle choices and economics than with political or religious ideology the demands and choices of a secular public and a burgeoning religious presence in the government are becoming ever more difficult to reconcile The evidence which the author has accrued from numerous interviews and a detailed survey is nowhere more telling than in areas that demand religious sanction such as marriage burial the sale of pork and the operation of businesses on the Sabbath *Sub-State Governance through Territorial Autonomy* Markku Suksi, 2011-07-17 This study focuses on territorial autonomy which is often used in different conflict resolution and minority situations Four typical elements are identified on the basis of the historical example of the Memel Territory and the so called Memel case of the PCIJ distribution of powers participation through elections and referendums executive power of territorial autonomy and international relations These elements are used for a comparative analysis of the constitutional law that regulates the position of six currently existing special jurisdictions the land Islands in Finland Scotland in the United Kingdom Puerto Rico in the United States of America Hong Kong in China Aceh in Indonesia and Zanzibar in Tanzania The current sub state entities examined can be arranged in relation to Memel in a manner that indicates that Hong Kong and the land conform to the typical territorial autonomy while Puerto Rico and Aceh should probably not be understood as territorial autonomies proper At the same time the territorial autonomies can be distinguished from federally organized sub state entities Rights, Religious Pluralism and the Recognition of Difference Dorota Anna Gozdecka, 2015-08-27 Human rights and their principles of interpretation are the

leading legal paradigms of our time Freedom of religion occupies a pivotal position in rights discourses and the principles supporting its interpretation receive increasing attention from courts and legislative bodies This book critically evaluates religious pluralism as an emerging legal principle arising from attempts to define the boundaries of freedom of religion It examines religious pluralism as an underlying aspect of different human rights regimes and constitutional traditions It is however the static and liberal shape religious pluralism has assumed that is taken up critically here In order to address how difference is vulnerable to elimination rather than recognition the book takes up a contemporary ethics of alterity More generally and through its reconstruction of a more difference friendly vision of religious pluralism it tackles the problem of the role of rights in the era of diverse narratives of emancipation *War and Religion in the Secular Age* Davis

Brown,2019-11-12 Is religion a factor in initiating interstate armed conflict and do different religions have different effects Breaking new ground in political science this book explores these questions both qualitatively and quantitatively concluding that the answer is yes Previous studies have focused on conflict within states or interstate aggression with overtly religious motivations in contrast Brown shows how religion affects states propensities to militarize even disputes that are not religious in nature Different religions are shown to have different influences on those propensities and those influences are linked to the war ethics inculcated in those religions The book analyses and classifies war ethics contained in religious scripture and other religious classics teachings of religions contemporary epistemic communities and religions historical narratives Using data from the new Religious Characteristics of States dataset project qualitative studies are combined with empirical measurements of governments institutional preferences and populations cultures This book will provide interesting insights to scholars and researchers in international security studies political science international law sociology and religious studies
