each other the one mystical the other prophetic Whenever their religions are not so contrasted they are usually treated in isolation from each other the religion of Israel Zoroastrianism Judaism Christianity Hinduism Jainism and Buddhism Dr Ling however stresses that there is considerable overlap and interpenetration between the two types and areas and that it is important to see the historical inter relation between these religions and to observe how during given periods of history there are parallel developments or significant divergences He covers the period 1500 B C to the present time providing an outline of the development of Asian and European religious traditions and institutions and discussing the social and economic factors involved in the development of religious traditions although he shows that such factors alone do not account for the religious life of man Dr Ling goes on to interpret the contemporary significance of these religions and their potential for the future life of humanity He suggests that the present stage of religious advance is characterised by open endedness towards the future not all religions exhibit this character but none has yet exhausted the possibilities of development This book is intended for use as an introduction to the study of religion Although reference is made in the text to sources of further information the book can be used without reference to them

Rudolf Otto and the Foundation of the History of Religions Yoshitsugu Sawai, 2022-02-10 This book provides an up to date treatment of Rudolf Otto and his work placing him in the context of comparative religion theology and the philosophy of religion Yoshitsugu Sawai shows how Otto has three faces the Lutheran Theologian the Philosopher of Religion and the Comparative Religionist The book also shows how of these Otto saw himself primarily as a Lutheran Theologian and provides an account of Otto's engagement with India and the centrality that Hindu theology had on his thinking In Otto's theory of religion his well known concepts including wholly other and numinous constitute a multiple structure of meaning For example his concept of the wholly other das ganz Andere no doubt has the meaning of God in his Christian theological studies At the same time however from the perspective of comparative religion or the phenomenology of religion this same term semantically implies the ultimate reality of other religious traditions Brahman and God Isvara in Hindu religious tradition as well as God in Christianity
