Introduction to Religious Studies Harvey J. Sindima, 2012-07-10 In *Introduction to Religious Studies* Harvey J Sindima provides an unconventional approach to the study of world religions Often books and courses on religious studies focus on the major world religions This approach however frequently ignores other religious experiences such as those of various African groups as well as the indigenous people of the Americas and Australia These less widespread religions are commonly described in pejorative terms such as primitive religions or non literate religions Focusing solely on well known religions is an approach that impoverishes religious studies and deprives students of the enormous wealth of religious knowledge of the world *Introduction to Religious Studies* pulls together the diverse religious experience of Africans Native Americans and the indigenous peoples of Australia in order to provide a comprehensive introduction to the study of religion and broaden the horizons of religious studies students Under each theme or topic examples are drawn from religions of salvation as well as African and Native American religious traditions This book provides students with a deep wide and very rich introduction to religious studies

The Critique of Bioethical Principlism in Contrast to an African Approach to Bioethics Jude Thaddaeus Buyondo, 2024-08-16 Though some argue that bioethics in the Black African world is simply a reflection of the Western approach to bioethics this work suggests otherwise While the Western approach bioethical principlism claims to offer an absolute approach to bioethics in a universalized common morality this book argues that bioethical principlism can be complemented with African approaches to bioethics Western principlism as primarily presented by Thomas L Beauchamp and James F Childress can hardly be incarnated in the African context of bioethical problems unless it is complemented by a contextual normative understanding of African social realities realities that themselves must be enriched by bioethical principlism Without claiming to offer the last word on intercultural bioethics or disputing which bioethical approaches deserve prioritization the work interactively relies on ordinary moral experiences that are practically visible in lived social realities as well as the community realities surrounding Africans south of the Sahara Prescriptively in order to not simply promote life but to do so fully the African ethical system supports an integral community life by continuously promoting the norm of solidarity continued vitality and the hierarchization of life within the corporate community which the individual must not blindly follow but responsibly interact with without her identity freedom and conscience being crushed

When Evil Strikes Sunday Bobai Agang, 2016-06-22 Human hostility is not the narrative of a selected few Since the fall of the grandparents of the human family Adam and Eve all humans have continued to participate in the reality of evil Accordingly

the question is no longer whether evil will strike but rather when evil strikes how should humans particularly Christians respond to it This book offers a relevant and effective theology and ethics for addressing the issue of Christian response to violence in Nigeria and beyond It situates the whole gamut of the reign of human hostility in its various manifestations self interest and greed for power deception and social injustices governmental official corruption terrorism and so on It encourages humans to take seriously both the fact of God creating humans good and the fall serving as the gateway of evil into the human race It recognizes the complexity of human problems Yet it offers possibility for just peacemaking In spite of the horrific violence across the globe humans are still able to do tremendous good Thus the book recognizes the paradox of humanity humans are capable of doing tremendous good and equally capable of doing tremendous evil **Holistic**

Bioethics Jude Thaddaeus Buyondo, 2024-10-31 In pursuing a holistic bioethics while dialoguing with different sciences appreciation of moral affinities between human and nonhuman entities Dr Buyondo argues for a minimum moral status for nonhuman entities The minimum normative basics of approaches to biomedical ethics are at the very least not distinctive to either human animals or nonhuman animals only The investigation builds further on the African understanding of life where no creation is lifeless In establishing a more inclusive functional bioethics the African approach goes further than biocentrism ecocentrism and holism to ground an inclusive African holistic moral egalitarianism suggesting that all forces and all created things have life We are not emphasizing how every system and creature command equal respect rather everything has life commands respect and moral concern as a minimum imperative within a Black African holistic approach to bioethics However holistic bioethics can neither be Western nor an African invention that people of other cultures only admire from a distance Moreover holistic bioethics doesn't offer the last word on the ethics of nonhuman animals holistic anamnestic solidarity the relational Other and intercultural theological bioethics
