Religious Organizations And Democratization

**Andrea Kendall-Taylor, Natasha
Lindstaedt, Erica Frantz**

Religious Organizations And Democratization:

Religious Organizations and Democratization Tun-jen Cheng, Deborah A. Brown, 2015-03-26 Since the terrorist attacks on 9 11 the political roles of religious institutions and groups have captured international attention This book examines how religious institutions and organizations in various Asian countries are influencing democratic development and the shaping of government policies Religious Organizations and Democratization covers Taiwan Hong Kong Mainland China Korea Thailand the Philippines Malaysia Indonesia and Japan The chapters specifically address the engagement of Christian Buddhist Muslim and other religious organizations in the advancement and or hindrance of democratization in the region The contributors consider such questions as Why have some religious organizations played a decisive role in democratic transitions while others remained politically dormant and other still acted in conservative alliances to block democratic development Why did some religious organizations that once were active and instrumental to democratic change lose their political vitality as soon as civil liberties were successfully introduced And why did other religious organizations irrespective of their roles in the process of democratic transition emerge as key political forces in the civil society *Religious Ideas and Institutions* Edmond Joseph Keller, Ruth Iyob, 2012 In the latest phase of political transitions in Africa analysts rarely consider the relationship between religion and politics This book addresses this need arguing that for democracy to be consolidated political leaders must make the right institutional choices choices that structure the incentives of their constituents as well as their own away from antagonistic forms of politics or religious extremism What impact do African contemporary religious organizations and elites have on their societies in terms of intergroup reciprocity and political bargaining The primary objective of this volume is to analyze how such organizations respond to the political signs and gestures of other groups in a like minded manner and the nature and effects of their negotiations with the State and other interests over contested matters The book s contributors hypothesize that Africa s religious organizations can prove critical in the way their elites make demands on the State and in the way they help to shape the structure of intergroup relations in constructive or destructive directions The authors consider the roles of both secular and religious elites and institutions in creating a political climate that enables elites to consolidate democracy **Religion and Democratization** Michael Daniel Driessen, 2014 Religion and Democratization is a comparative study of how regime types and religion state arrangements frame religious and political identities in Muslim and Catholic societies The book analyzes its theoretical claims through case studies of religiously friendly democratization in Italy and Algeria and a statistical analysis using cross national data on religion state arrangements Religiously Oriented Parties and Democratization Luca Ozzano, Francesco Cavatorta, 2014-04-03 To the surprise of both academics and policy makers religion has not been relegated entirely to the private sphere quite the contrary Over the last few decades religion has begun to play a significant role in public affairs and in many cases directly in political systems This edited volume analyses in detail how religion and religious precepts inform the ideology strategies and

electoral behaviour of political parties Working with an original and innovative typology of religiously oriented political parties the book examines cases from different regions of the world and different religious traditions to highlight the significance of religion for party politics This interest for religiously oriented parties is combined with an interest in processes of democratic change and democratic consolidation Political parties are central to the success of processes of democratization while religion is seen in many circles as an element that prevents such success because it is perceived to be a polarising factor detrimental to the consensus necessary to build a liberal democratic system Through the different case studies presented here a much more complex picture emerges where religiously oriented political parties perform very different and often contradicting roles with respect to democratic change This book was published as a special issue of Democratization

Africa's Social Cleavages and Democratization Douglas Kimemia, 2015-12-17 Africa's Social Cleavages and Democratization offers a comparative approach to African countries by providing an in depth analysis of the impact of ethnicity and religion on both multiparty and post multiparty eras By applying different theoretical frameworks Douglas Kimemia explores and analyzes how social cleavages have affected the growth of democracy in Africa It is crucial to assess the relationship between democratic development and the impact of social cleavages because multiparty politics have increased political competition participation transparency and civic engagement in Africa However social divisions have significantly slowed the maturing of democracy as these social cleavages have become polarizing factors which are used by political elites for their own self interest As a result politics of identity caused by competition of natural resources have led to increased conflicts and political instability in Africa The social cleavages have also led to polarized party systems and caused adverse effects on democracy due to the highly polarized societies and political competition Despite the many positive impacts multiparty politics have increased the consciousness of ethnic and religious identities leading to unhealthy political competition as evidenced by highly fragmented societies prone to conflicts and violence Kimemia comprehensively examines different governing electoral and party systems in order to determine the different incentives and how social divisions shape them This analysis helps to distinguish more permanent political structures from the merely epiphenomenal within the African political scene

The Law and Religious Market Theory Jianlin Chen, 2017-10-12 With comparative case studies from China Taiwan and Hong Kong Jianlin Chen's new work offers a fresh descriptive and normative perspective on law and religion This presentation of the original law and religious market theory employs an interdisciplinary approach that sheds light on this subject for scholars in legal and sociological disciplines It sets out the precise nature of religious competition envisaged by the current legal regimes in the three jurisdictions and analyses how certain restrictions on religious practices may facilitate normatively desirable market dynamics This updated and invaluable resource provides a new and insightful investigation into this fascinating area of law and religion in Greater China today

Religion, Democracy and Democratization John Anderson, 2013-09-13 A new exploration of the troubled relationship between religion and democracy

focusing in on two key questions how has religion engaged with the democratization processes that have taken place over the last thirty years how can it contribute towards democracy in the future These questions are tackled with clarity and rigour Select chapters explore the ways in which religious ideas have been used to undermine authoritarian regimes and how religious institutions have provided the basis for resistance to such regimes The reader is This book was previously published as a special issue of the leading journal Democratization *An Introduction to Religion and Politics* Jonathan

Fox,2018-02-13 This fully revised edition offers a comprehensive overview of the many theories of religion and politics and provides students with an accessible in depth guide to the subject s most significant debates issues and methodologies It begins by asking the basic questions of how social scientists see religion and why religion remains relevant to politics in the modern era Fox examines the influence of religious identity beliefs institutions and legitimacy on politics and surveys important approaches and issues found in the literature on religion and politics Four new chapters on religious policy around the world political secularism and religious freedom and human rights have been added to fully revised content covering religious identity rational choice approaches to religious politics worldviews beliefs doctrines ideologies institutions and political mobilization fundamentalism secularization and religion and conflict This work will be essential reading for all students of religion and politics comparative politics international relations and security studies **The Role of Civil**

Society in Africa's Quest for Democratization Abadir M. Ibrahim,2016-12-08 This book tests many of the assumptions hypotheses and conclusions connected with the presumed role of civil society organizations in the democratization of African countries Taking a comparative approach it looks at countries that have successfully democratized those that are stuck between progress and regression those that have regressed into dictatorship and those that are currently in transitional flux and evaluates what role if any civil society has played in each instance The countries discussed South Africa Ghana Nigeria Ethiopia Egypt and Tunisia represent a diverse set of social and political circumstances and different levels of democratic achievement providing a rich set of case studies Each sample state also offers an internal comparison as each has historically experienced different stages of democratization Along the course of each case study the book also considers the effect that other traditionally studied factors such as culture colonization economic development and foreign aid may have had on individual attempts at democratization The first extensive work on civil society and democratization in Africa the book adds new insights to the applicability of democratization theory in a non Western context both filling a gap in and adding to the existing universal scholarship This book will be useful for scholars of political science economics sociology and African studies as well as human rights activists and policy makers in the relevant geographical areas **Democracies and**

Authoritarian Regimes Andrea Kendall-Taylor,Natasha Lindstaedt,Erica Frantz,2019 The only introduction to cover the full spectrum of political systems from democracy to dictatorship and the growing number of systems that fall between equipping readers to think critically about democracy s future trajectory
