Religious Dreamworld Of Apuleius Metamorphoses:

The Religious Dreamworld of Apuleius' Metamorphoses James Gollnick, 2006-01-01 Apuleius Metamorphoses is probably best known as the literary source for the myth of Eros and Psyche and as a primary source of information about mystery religions in the ancient world There is another realm of the Metamorphoses which has until now received relatively little attention namely the many dreams found within it The Religious Dreamworld of Apuleius Metamorphoses offers an engaging portrait of the second century dreamworld Recognizing the centrality of the religious function and spiritual interpretation of dreams this book illustrates their vital importance in the ancient world and the wide variety of meanings attributed to them James Gollnick draws deeply from historical and psychological studies and provides a historical background on the current interest in the role of dreams in psychological and spiritual transformation This study of Apuleius Metamorphoses adds to an appreciation of Apuleius the dreamer and the second century dreamworld in which he lived and wrote

Religious Rivalries in the Early Roman Empire and the Rise of Christianity Leif E. Vaage, 2010-10-30 Religious Rivalries in the Early Roman Empire and the Rise of Christianity discusses the diverse cultural destinies of early Christianity early Judaism and other ancient religious groups as a question of social rivalry The book is divided into three main sections The first section debates the degree to which the category of rivalry adequately names the issues that must be addressed when comparing and contrasting the social success of different religious groups in antiquity The second is a critical assessment of the common modern category of mission to describe the inner dynamic of such a process it discusses the early Christian apostle Paul the early Jewish historian Josephus and ancient Mithraism The third section of the book is devoted to the rise of Christianity primarily in response to the similarly titled work of the American sociologist of religion Rodney Stark While it is not clear that any of these groups imagined its own success necessarily entailing the elimination of others it does seem that early Christianity had certain habits both of speech and practice which made it particularly apt to succeed in the Roman Empire

Women's Religions in the Greco-Roman World Ross Shepard Kraemer, 2004-03-04 This is a substantially expanded and completely revised edition of a book originally published in 1988 as *Maenads Martyrs Matrons Monastics* The book is a collection of translations of primary texts relevant to

women's religion in Western antiquity from the fourth century BCE to the fifth century CE. The selections are taken from the plethora of ancient religions including Judaism and Christianity and are translated from the six major languages of the Greco-Roman world: Greek, Latin, Aramaic, Hebrew, Syriac, and Coptic. The texts are grouped thematically in six sections: Observances, Rituals and Festivals, Researching Real Women, Documents to and from Women, Religious Office, New Religious Affiliation and Conversion, Holy Pious and Exemplary Women, and The Feminine Divine. Women's Religions in the Greco-Roman World provides a unique and invaluable resource for scholars of classical antiquity, early Christianity, and Judaism, and women's religion more generally.

What's in a Name? Joan Booth, Robert Maltby, 2006-12-31. Latin poets and prose writers of the classical period and later used and withheld names subtly and to important effect. Here in eleven new essays an eminent international cast explores themes which include speaking names often involving bilingual Latin/Greek, play the ways in which persons and objects are named in contexts of invective or endearment, the significant suppression or changing of names, the religious and historical significances of names, the uses of names in literary catalogues, names as devices to structure a group of shorter poems.

Evolution, Cognition, and the History of Religion: A New Synthesis Anders Klostergaard Petersen, Ingvald Sælid, Luther H. Martin, Jeppe Sinding Jensen, Jesper Sørensen, 2018-10-08. Evolution, Cognition, and the History of Religion: A New Synthesis comprises 41 chapters that push for a new way of conducting the study of religion, thereby transforming the discipline into a genuine science of religion. The recent resurgence of evolutionary approaches on culture and the increasing acknowledgement in the natural and social sciences of culture's and religion's evolutionary importance calls for a novel epistemological and theoretical framework for studying these two areas. The chapters explore how a new scholarly synthesis founded on the triadic space constituted by evolution, cognition, cultural and ecological environment may develop. Different perspectives and themes relating to this overarching topic are taken up with a main focus on either evolution, cognition, and/or the history of religion.

The Formation of Christian Europe Owen M. Phelan, 2014-10-23. The Formation of Christian Europe analyses the Carolingians' efforts to form a Christian Empire with the organizing principle of the sacrament of baptism. Owen M. Phelan argues that baptism provided the foundation for this society and offered a medium for the communication and the popularization of beliefs and ideas through which the Carolingian Renewal established the vision of an imperium christianum in Europe. He analyses how baptism unified people theologically, socially, and politically and helped Carolingian leaders order their approaches to public life. It enabled reformers to think in ways which were ideologically consistent, publically available, and socially useful. Phelan also examines the influential court intellectual Alcuin of York who worked to implement a sacramental society through baptism. The book finally looks at the dissolution of Carolingian political aspirations for an imperium christianum and how by the end of the ninth century political frustrations concealed the deeper achievement of the Carolingian Renewal.

Cultural Crossroads in the Ancient Novel Marília P. Futre Pinheiro, David Konstan, Bruce Duncan MacQueen, 2017-12-04. The protagonists of the ancient novels wandered or were

carried off to distant lands from Italy in the west to Persia in the east and Ethiopia in the south the authors themselves came or pretended to come from remote places such as Aphrodisia and Phoenicia and the novelistic form had antecedents in a host of classical genres These intersections are explored in this volume Papers in the first section discuss mapping the world in the novels The second part looks at the dialogical imagination and the conversation between fiction and history in the novels Section 3 looks at the way ancient fiction has been transmitted and received Space as the locus of cultural interaction and exchange is the topic of the fourth part The fifth and final section is devoted to character and emotion and how these are perceived or constructed in ancient fiction Overall a rich picture is offered of the many spatial and cultural dimensions in a variety of ancient fictional genres

Witches, Isis and Narrative Stavros Frangoulidis, 2008-11-06 This is the first in depth study of Apuleius *Metamorphoses* to look at the different attitudes characters adopt towards magic as a key to deciphering the complex dynamics of the entire work The variety of responses to magic is unveiled in the narrative as the protagonist Lucius encounters an assortment of characters either in embedded tales or in the main plot A contextualized approach illuminates Lucius' relatively good fortune when compared to other characters in the novel this results from his involvement with the magic of a sorcerer's apprentice rather than that of a real witch and signals the possibility of eventual salvation A careful investigation of Lucius' attitude towards Isis in book 11 and his relationship with the witch slave girl Photis earlier on suggests that the novel's final book may be read as a second *Metamorphoses* consciously rewritten from a positive perspective Last but not least the book also breaks new ground by examining the narrative structure of the *Metamorphoses* against the background of the typical plotline found in the ideal romance The comparison shows how Apuleius both follows and alters this plot exploiting the genre to his own specific ends in keeping with his central theme of metamorphosis

The Tale of Cupid and Psyche Apuleius, 2009-03-15 Is Cupid and Psyche a romance a folktale a Platonic allegory of the nature of the soul a Jungian tale of individuation or an archetypal dream This volume provides Joel Relihan's lively translation of this best known section of Apuleius' *Golden Ass* some useful and illustrative parallels and an engaging discussion of what to make of this classic story
