Religious Traditions In South Asia Interaction And Change:

Religious Traditions in South Asia Geoffrey A. Oddie, 2022-02-22 These studies focus on questions of religious interaction and change in India from the sixth century B C to the present day They represent the work of scholars in a range of disciplines and who are resident mostly in Australia

South Asian Christian Diaspora Selva J. Raj, Knut A. Jacobsen, 2016-04-01 The South Asian Christian diaspora is largely invisible in the literature about religion and migration This is the first comprehensive study of South Asian Christians living in Europe and North America presenting the main features of these diasporas their community histories and their religious practices The South Asian Christian diaspora is pluralistic both in terms of religious adherence cultural tradition and geographical areas of origin This book gives justice to such pluralism and presents a multiplicity of cultures and traditions typical of the South Asian Christian diaspora Issues such as the institutionalization of the religious traditions in new countries identity the paradox of belonging both to a minority immigrant group and a majority religion the social functions of rituals attitudes to language generational transfer and marriage and family life are all discussed

India after the 1857 Revolt M. Christhu Doss, 2022-11-23 Weaving together the varied and complex strands of anti colonial nationalism into one compact narrative Christhu Doss takes an incisive look at the deeper and wider historical process of decolonization in India In India after the 1857 Revolt Doss brings together some of the most cutting edge thoughts by challenging the cultural project of colonialism and critically examining the multi dimensional aspects of decolonization during and after the 1857 revolt He demonstrates that the deep rooted popular discontent among the Indian masses followed by the revolt generated a distinctive form of decolonization movement redemptive nationalism that challenged both the supremacy of the British Raj and the cultural imperatives of the controversial proselytizing missionary agencies Doss argues that the quests for decolonization of mind that got triggered by the revolt were further intensified by the Indocentric national education the historic Chicago discourse of Swami Vivekananda the nonviolent anti colonial struggles of Mahatma Gandhi the seditious political activism displayed by the Western Gandhian missionary satyagrahis and the de Westernization endeavours of the sandwiched Indian Christian nationalists A compelling read for historians political scientists and sociologists it is refreshingly an indispensable guide to all those who are interested in anticolonial struggles and decolonization movements worldwide

The Political Economy of NGOs Jude L. Fernando, 2011-07-08 This book explores the paradoxical relationship between NGOs and capitalism showing that supposedly progressive organisations often promote essentially the same policies and ideas as existing governments It examines how a diverse group of NGOs have shaped state formation in Bangladesh and Sri Lanka It argues that rather than influencing state formation for the better NGOs have been integrated into the capitalist system and their language adopted to give traditional exploitative social relations a transformative appearance This enlightening study will give pause to those who see NGOs as drivers of true social change and will encourage students of development studies to make a deeper analysis

of state formation *Journal of Asian History* ,1999 **Indentured Muslims in the Diaspora** Maurits S. Hassankhan, Goolam Vahed, Lomarsh Roopnarine, 2016-11-10 This is the fourth publication originating from the conference Legacy of Slavery and Indentured Labour Past Present and Future which was organised in June 2013 by the Institute of Graduate Studies and Research IGSR Anton de Kom University of Suriname The core of the book is based on a conference panel which focused specifically on the experience of Muslim with indentured migrants and their descendants This is a significant contribution since the focus of most studies on Indian indenture has been almost exclusively on Hindu religion and culture even though an estimated seventeen percent of migrants were Muslims This book thus fills an important gap in the indentured historiography both to understand that past as well as to make sense of the present when Muslim identities are undergoing rapid changes in response to both local and global realities The book includes a chapter on the experiences of Muslim indentured immigrants of Indonesian descent who settled in Suriname The core questions in the study are as follows What role did Islam play in the lives of Indian Muslim migrants in their new settings during indenture and in the post indenture period How did Islam help migrants adapt and acculturate to their new environment What have been the similarities and differences in practices traditions and beliefs between Muslim communities in the different countries and between them and the country of origin How have Islamic practices and Muslim identities transformed over time What role does Islam play in the Muslims lives in these countries in the contemporary period In order to respond to these questions this book examines the historic place of Islam in migrants place of origin and provides a series of case studies that focus on the various countries to which the indentured Indians migrated such as Mauritius South Africa Guyana Trinidad Suriname and Fiji to understand the institutionalisation of Islam in these settings and the actual lived experience of Muslims which is culturally and historically specific bound by the circumstances of individuals location in time and space The chapters in this volume also provide a snapshot of the diversity and similarity of lived Muslim experiences *South Asia* ,2006

End-Game Lorenzo DiTommaso, James Crossley, Alastair Lockhart, Rachel Wagner, 2024-09-02 Video games are a global phenomenon international in their scope and democratic in their appeal This is the first volume dedicated to the subject of apocalyptic video games Its two dozen papers engage the subject comprehensively from game design to player experience and from the perspectives of content theme sound ludic textures and social function The volume offers scholars students and general readers a thorough overview of this unique expression of the apocalyptic imagination in popular culture and novel insights into an important facet of contemporary digital society **Reform, Identity and Narratives of Belonging** Arkotong Longkumer, 2011-11-03 Reform Identity and Narratives of Belonging focuses on the Heraka a religious reform movement and its impact on the Zeme a Naga tribe in the North Cachar Hills of Assam India Drawing upon critical studies of religion cultural ethnic identity and nationalism archival research in both India and Britain and fieldwork in Assam the book initiates new grounds for understanding the evolving notions of reform and identity in the emergence of a Heraka religion

Arkotong Longkumer argues that reform and identity are dynamically inter related and linked to the revitalisation and negotiation of both tradition legitimising indigeneity and change legitimising reform The results have deepened yet challenged not only prevailing views of the Western construction of the category religion but also understandings of how marginalised communities use collective historical imagination to inspire self identification through the discourse of religion In conclusion this book argues for a re evaluation of the way in which multi religious traditions interact to reshape identities and belongings

Shared Characters in Jain, Buddhist and Hindu Narrative Naomi Appleton, 2016-11-25 Taking a comparative approach which considers characters that are shared across the narrative traditions of early Indian religions Brahmanical Hinduism Jainism and Buddhism Shared Characters in Jain Buddhist and Hindu Narrative explores key religious and social ideals as well as points of contact dialogue and contention between different worldviews The book focuses on three types of character gods heroes and kings that are of particular importance to early South Asian narrative traditions because of their relevance to the concerns of the day such as the role of deities the qualities of a true hero or good ruler and the tension between worldly responsibilities and the pursuit of liberation Characters including character roles and lineages of characters that are shared between traditions reveal both a common narrative heritage and important differences in worldview and ideology that are developed in interaction with other worldviews and ideologies of the day As such this study sheds light on an important period of Indian religious history and will be essential reading for scholars and postgraduate students working on early South Asian religious or narrative traditions Jain Buddhist and Hindu as well as being of interest more widely in the fields of Religious Studies Classical Indology Asian Studies and Literary Studies
