Nietzsche's Corps/e Geoff Waite, 1996 Appearing between two historical touchstones the alleged end of communism and the 100th anniversary of Nietzsche's death this book offers a provocative hypothesis about the philosopher's afterlife and the fate of leftist thought and culture At issue is the relation of the dead Nietzsche corpse and his written work corpus to subsequent living Nietzscheanism across the political spectrum but primarily among a leftist corps that has been programmed and manipulated by concealed dimensions of the philosopher's thought If anyone is responsible for what Geoff Waite maintains is the illusory death of communism it is Nietzsche the man and concept Waite advances his argument by bringing Marxist especially Gramscian and Althusserian theories to bear on the concept of Nietzscheanism But he also goes beyond ideological convictions to explore the vast Nietzschean influence that proliferates throughout the marketplace of contemporary philosophy political and literary theory and cultural and technocultural criticism In light of a philological reconstruction of Nietzsche's published and unpublished texts Nietzsche's Corps/e shuttles between philosophy and everyday popular culture and shows them to be equally significant in their having been influenced by Nietzsche in however distorted a form and in a way that compromises all of our best interests Controversial in its decelebration of Nietzsche this remarkable study asks whether the postcontemporary age already upon us will continue to be dominated and oriented by the haunting spectre of Nietzsche's corps/e Philosophers intellectual historians literary theorists and those interested in western Marxism popular culture Friedrich Nietzsche and the intersection of French and German thought will find this book both appealing and challenging **Psychology of Aging** Aimee Spector, 2017-03-02 The psychology of aging is an exciting and rapidly developing field This volume provides a collection of classic original and often widely cited papers including some older papers which may be hard to find through conventional searches Taken together they help to address some key questions what are the cognitive changes related to aging Is mental exercise useful To what extent might intelligence education or stimulating mental activities delay or even reduce cognitive symptoms of dementia However the book goes well beyond cognition and addresses social and emotional changes in aging as well as looking at how lifestyle factors may be influential in psychological functioning The section on the psychology of dementia covers the evolving psychological models plus

innovative types of psychological interventions As more people live to an age where they are dependent on others the book also considers the stresses on carers and how carers can be supported Lastly other aspects of mental health problems in old age are addressed including depression PTSD and personality disorder This collection of intriguing and inspiring papers will liven up the shelves of students researchers and academics in the field as well as being a very useful resource for research teaching and study

Urban and Visual Culture in Contemporary Iran Pedram Dibazar,2020-12-10 In *Urban and Visual Culture in Contemporary Iran* Pedram Dibazar argues that everyday life in Iran is a rich domain of social existence and cultural production Regular patterns of day to day practice in Iran are imbued with forms of expressivity that are unmarked and inconspicuous but have remarkable critical value for a cultural study of contemporary society Blended into the rhythms of everyday life are nonconformist modes of presence subtle in their visibility and non confrontational in their resistance to the established societal norms and structures This volume is about such everyday tactics and creativity as lived in space visualised in cultural forms and communicated through media Through its analysis of familiar everyday experiences *Urban and Visual Culture in Contemporary Iran* covers a wide range of ordinary practices such as walking driving shopping and doing or watching sports and spatial conditions such as streets cars rooftops shopping centres and stadiums It also explores a variety of cultural formations including film photography architecture literature visual arts television and digital media This book offers new ways of thinking about visual and urban cultures by highlighting a politics of everyday life that is conditioned on concerns over visibility and presence
