Remaking Italy In The Twentieth Century

Roy Palmer Domenico

Remaking Italy In The Twentieth Century:

Remaking Italy in the Twentieth Century Roy Palmer Domenico, 2002 Although the unification of Italy in 1870 initially defined the nation's geographical boundaries Italians faced challenges of determining their nation's social political and cultural identity This volume examines the struggle to recast the nation according to their visions **Making and Remaking Italy** Albert Russell Ascoli, Krystyna Clara Von Henneberg, 2001-05 This important new book considers many of the ways in which national identity was imagined implemented and contested within Italian culture before during and after the period of Italian unification in the mid nineteenth century Taking a fresh approach towards national icons cherished by both Left and Right the collection's authors examine the complex interaction between a perceived need for national identity and the fragmented nature of the Italian peninsula In so doing they draw on examples from a wide range of artistic and cultural media The book opens with an introduction which defines the case of the Italian Risorgimento and places it within a large context of European and global nation building and nationalism Authors discuss how episodes from the distant past were used by nineteenth and twentieth century artists musicians and writers to recreate narratives of nationhood as well as how the problem of Italian identity was before and during the Risorgimento The question of who belonged in the new Italy who remained outsiders and how social and sexual differences entered into defining these groups is also addressed The book concludes with an analysis of twentieth century attempts to appropriate and reforge the spirit of the Risorgimento under Fascism and in our own time Languages of Discrimination and Racism in Twentieth-Century Italy Marcella Simoni, Davide Lombardo, 2022-06-06 This volume represents one of the first extensive studies that investigates the persistence of questions of race and racism in Italy from the liberal age to the present through colonialism Fascism and post war Italy It adopts an interdisciplinary perspective to investigate the intertwining of the cultural social legislative and political dynamics of discrimination in Italy's past and present Drawing upon the expertise of historians political scientists sociologists scholars of literature and experts in cultural studies the original essays collected in this volume show a remarkable continuity and the persistence of racism in the Italian cultural and political discourse in society and in the representation of Others They also speak of the shifting of practices of Othering from one group to another in different historical contexts *The A to Z of Modern Italy* Mark Gilbert, Robert K. Nilsson, 2010-04-20 Italy is a country that exercises a hold on the imagination of people all over the world Its long history has left an inexhaustible treasure chest of cultural achievement The historic cities of Rome Florence and Venice are among the most sought after destinations in the world for tourists and art lovers and Italy's natural beauty and cuisine are rightly renowned Italy's history and politics are also a source of endless fascination Modern Italy has consistently been a political laboratory for the rest of Europe In the 19th century Italian patriotism was of crucial importance in the struggle against the absolute governments reintroduced after the Congress of Vienna 1814-15 After the fall of Fascism during World War II Italy became a model of rapid economic development though its politics has never been less than

contentious and its democracy has remained a troubled one The A to Z of Modern Italy is an attempt to introduce the key personalities events social developments and cultural achievements of Italy since the beginning of the 19th century when Italy first began to emerge as something more than a geographical entity and national feeling began to grow This is done through a chronology a list of acronyms and abbreviations an introductory essay a map a bibliography and some 400 cross referenced dictionary entries on prominent individuals basic institutions crucial events history politics economics society and culture

Italy in the Modern World Linda Reeder, 2019-12-12 Providing a comprehensive history of Italy from around 1800 to the present *Italy in the Modern World* traces the social and cultural transformations that defined the lives of Italians during the 19th and 20th century The book focuses on how social relations class gender and race science and the arts shaped the political processes of unification state building fascism and the postwar world Split up into four parts covering the making of Italy the liberal state war and fascism and the republic the text draws on secondary literature and primary sources in order to synthesize current historiographical debates and provide primary documents for classroom use There are individual chapters on key topics such as unification Italians in the world Italy in the world science and the arts fascism the World Wars the Cold War and Italy in the 21st century as well as a wealth of useful features for students including Comprehensive bibliographic essays covering each of the four parts 23 images and 12 maps *Italy in the Modern World* also firmly places both the nation and its people in a wider global context through a distinctly transnational approach It is essential reading for all students of modern Italian history

The Concise History of the Crusades Thomas F. Madden, 2014-03-16 What is the relationship between the medieval crusades and the problems of the modern Middle East Were the crusades the Christian equivalent of Muslim jihad In this sweeping yet crisp history Thomas F Madden offers a brilliant and compelling narrative of the crusades and their contemporary relevance Placing all of the major crusades within their social economic religious and intellectual environments Madden explores the uniquely medieval world that led untold thousands to leave their homes families and friends to march in Christ's name to distant lands From Palestine and Europe's farthest reaches each crusade is recounted in a clear concise narrative The author gives special attention as well to the crusades effects on the Islamic world and the Christian Byzantine East

American Evangelicals Barry Hankins, 2009-02-16 There may be no group in American society that is more talked about but so little understood as Evangelical Christians Sometimes dismissed as violent fundamentalists and ignorant flat earthers few can doubt the political cultural and religious significance of the Evangelicals Barry Hankins puts the Evangelical movement in historical perspective reaching back to its roots in the Great Awakening of the eighteenth century and leading up to the formative moments of contemporary conservative Protestantism Taking on key topics such as the standing of science the authority of scripture and gender and racial equality Hankins analyzes what is most essential for us to understand today about this potent movement

The Evolutionists J. David Hoeveler, 2007-03-15 Charles Darwin published his monumental treatise *The Origin of Species*

in 1859 It has proved to be a major contribution to scientific theory but highly contentious as well In the United States more than in any other country Darwin s theory of evolution became and remains a matter of political controversy from the famous monkey trial of 1925 to efforts even in the 21st century to diminish its influence in American public schools Many people think of the Darwinian disputes as a matter of science versus religion This book looks back to the first half century or so of the Darwinian reception in the United States and portrays a much more complex situation It shows that among many religious thinkers evolution received a welcome and formed the basis of a new theology The Evolutionists reminds us that America s most prominent scientist furnished a thoroughgoing criticism of Darwin The Evolutionists has a special feature in its chapter structure After examining the pre Darwinian world of European science and then reviewing the career of Darwin it offers pairings of American thinkers in the several categories of American thought where Darwinian ideas had their largest impact Thus reviewing the scientific reception of Darwin it compares Louis Agassiz and Asa Gray among Orthodox Protestants Charles Hodge and James McCosh in Protestant Liberalism Henry Ward Beecher and John Bascom It reviews evolution s impact on American sociology through William Graham Sumner and Lester Frank Ward and on feminism the ideas of Charlotte Perkins Gilman and Eliza Burt Gamble A chapter on Methodologies pairs Thorstein Veblen with Oliver Wendell Holmes Jr and the concluding chapter on philosophy examines William James and John Dewey

Chinese Migrations Diana Lary, 2012-06-08 The current waves of migration sweeping the Chinese world may seem like new phenomena the outcome of modernization and industrialization However this concise and readable book convincingly shows that contemporary movements are just the most recent stage in a long history of migration both within China and beyond its borders Distinguished historian Diana Lary traces the continuous expansion and contraction of the Chinese state over more than four millennia Periods of expansion which involved huge movements of people have been interspersed with periods of inward turning stasis Following a chronological framework the author discusses the migrations themselves and the recurrent themes within them We see migration as a broad spectrum of movement from short term and short range to permanent and long range and as a powerful vehicle for the transfer of commodities culture religion and political influence The Confucian tradition treated migration as undesirable It praised the delights of staying at home A thousand days at home are good half a day away is hard Lary argues that despite this view migration has been a key element in the evolution of Chinese society one that the state disparages and encourages at the same time Her book will be compelling for all readers who want to understand the context for the present internal and international migrations that have changed the face of China itself and its international relations

Europe's Reformations, 1450-1650 James D. Tracy, 2006-03-23 In this widely praised history noted scholar James D Tracy offers a comprehensive lucid and masterful exploration of early modern Europe s key turning point Establishing a new standard for histories of the Reformation Tracy explores the complex religious political and social processes that made change possible even as he synthesizes new understandings of the profound continuities between

medieval Catholic Europe and the multi confessional sixteenth and seventeenth centuries This revised edition includes new material on Eastern Europe on how ordinary people experienced religious change and on the pluralistic societies that began to emerge Reformation scholars have in recent decades dismantled brick by brick the idea that the Middle Ages came to an abrupt end in 1517 Martin Luther's Ninety five Theses fitted into an ongoing debate about how Christians might better understand the Gospel and live its teachings more faithfully Tracy shows how Reformation era religious conflicts tilted the balance in church state relations in favor of the latter so that the secular power was able to dictate the doctrinal loyalty of its subjects Religious reform Catholic as well as Protestant reinforced the bonds of community while creating new divisions within towns villages neighborhoods and families In some areas these tensions were resolved by allowing citizens to profess loyalty both to their separate religious communities and to an overarching body politic This compromise a product of the Reformations though not willed by the reformers was the historical foundation of modern pluralistic society Richly illustrated and elegantly written this book belongs in the library of all scholars students and general readers interested in the origins events and legacy of Europe's Reformation

Decoding **Remaking Italy In The Twentieth Century**: Revealing the Captivating Potential of Verbal Expression
