

MAKING AND REMAKING THE BALKANS

**NATIONS
AND STATES
SINCE 1878**

ROBERT C. AUSTIN

Remaking The Balkans

S. Kappler

Remaking The Balkans:

Remaking the Balkans Christopher Cviic, 1995 A comprehensive analysis of the political and security implications for southeastern Europe indeed for the whole of Europe resulting from the collapse of communism This second edition has been significantly revised to include an assessment of the consequences of the disintegration of Yugoslavia and the ensuing war in Bosnia

Making and Remaking the Balkans Robert Clegg Austin, 2019-04-08 With more than 25 years since the collapse of communism the end of the wars and billions of dollars in aid the Balkans are still characterized by corruption state capture and decidedly unmodern states that are often either weak or authoritarian Taking the contemporary Balkans as a starting point Making and Remaking the Balkans studies the region's history combined with observations based on more than twenty years of field experience Primarily concerned with current issues in the Balkans since 1989 this book explains why the region has endured such a prolonged and fraught transition to democracy and eventual membership in the European Union The young and educated have largely left Governmental crisis and economic stagnation is the norm and much needed regional cooperation has been suppressed by renewed nationalism Wars on corruption have proved to be largely rhetorical Making and Remaking the Balkans offers a systematic study of the issues the entire region faces as it struggles to complete the European integration process at a time when the European Union faces bigger problems elsewhere

Separatism Metta Spencer, 1998 As we approach the millennium the world is experiencing civil wars exclusively half of which are being waged over the issue of secession This book offers a comparative view of nine historic separatist movements some of which have achieved the break up of an empire or a state and others that to date have not Separatist struggles occur in waves that tend to coincide with upsurges of democratization Several chapters explore this connection making comparisons with economic and geopolitical causes The authors analyze the long term effects of secession after partition ethnic strife typically continues for generations minorities decline in status and democracy and human rights are derogated The break up of one state often leads to further fragmentation as in the disintegration of the Ottoman Austro Hungarian and Russian empires where years later separatism unfolded in the successor states of Yugoslavia Czechoslovakia Palestine Chechnya and Tatarstan The authors attribute much of today's separatism to the demagoguery of politicians losing legitimacy in post communist states for whom nationalism is a convenient populist ideology A broader explanation however points to the failure of modern democracies to develop constitutional mechanisms reconciling the expression of particularistic identities with the universalism of citizenship The book reviews proposals toward that end

Integrating the Balkans Máire Braniff, 2011-06-30 Emerging from a decade of violent ethnic and inter state conflict during the 1990s the countries of the Western Balkans entered a phase of rebuilding and reconciliation Due to the key role played by the EU in the region's rebuilding efforts Integrating the Balkans explores this institution's considerable efforts to influence and shape the nature of state society and foreign relations as it utilised the promise of membership as a vital tool to exert its influence The picture

that materialises is one of the EU's discernible but often contradictory impact as it offers the carrot of EU membership in the hope that the legacies of the past conflict can be re-evaluated, re-imagined and transformed. By also analysing the conditions that come with EU aid such as co-operation with the International Criminal Tribunal for the former Yugoslavia (ICTY), Maire Braniff offers an extremely important perspective for all those involved in the study and practice of the processes of European integration and post-conflict resolution.

Imagining the Balkans Maria Todorova, 2009-04-15 If the Balkans hadn't existed they would have been invented was the verdict of Count Hermann Keyserling in his famous 1928 publication *Europe*. Over ten years ago Maria Todorova traced the relationship between the reality and the invention. Based on a rich selection of travelogues, diplomatic accounts, academic surveys, journalism and belles lettres in many languages, *Imagining the Balkans* explored the ontology of the Balkans from the sixteenth century to the present day, uncovering the ways in which an insidious intellectual tradition was constructed, became mythologized and is still being transmitted as discourse. Maria Todorova, who was raised in the Balkans, is in a unique position to bring both scholarship and sympathy to her subject and in a new afterword she reflects on recent developments in the study of the Balkans and political developments on the ground since the publication of *Imagining the Balkans*. The afterword explores the controversy over Todorova's coining of the term 'Balkanism'. With this work, Todorova offers a timely, updated, accessible study of how an innocent geographic appellation was transformed into one of the most powerful and widespread pejorative designations in modern history.

Reconstructing the Balkans Derek R. Hall, Darrick Danta, 1996-10-21 The past few years have seen the re-emergence of the Balkans as the cockpit of Europe. The break-up of Yugoslavia, the regional conflict between ethnic groups, the creation of new states like Slovenia and the transformation of existing ones like Albania have made the area of prime importance in geopolitical terms once again. *Reconstructing the Balkans* looks at the complex and rapidly changing human geography of the Balkans and considers the cultural, social and political geographies of the region and its neighbours. It provides both an examination of the history of the Balkans, emphasising ethnicity and nationality issues, and an evaluation of the historical and geographical roots of contemporary Balkan disputes from a range of national viewpoints. Written by acknowledged experts in the field, the book assesses some of the geographical consequences of the region's conflicts and analyses the post-socialist restructuring, reconstruction and reconfiguration regionwide and country by country. It also gives projections of likely regional development trends. This is a unique book as it represents diverse viewpoints from a wide range of ethnic, national and disciplinary approaches. It draws upon expertise from the USA, the UK and everyone concerned with the Balkan regions, making it essential reading for analysts and consultants in banks, funding agencies and government departments. It will also be of interest to advanced students of European Studies, Geography, International Relations, Politics, Development and History.

The Balkans Mark Biondich, 2011-02-17 The Balkans has long been a place of encounter among different peoples, religions and civilizations, resulting in a rich cultural tapestry and mosaic of nationalities. But it has also been burdened by a

traumatic post colonial experience The transition from traditional multinational empires to modern nation states has been accompanied by large scale political violence that has resulted in the deaths of hundreds of thousands and the permanent displacement of millions more Mark Biondich examines the origins of these conflicts while treating the region as an integral part of modern European history shaped by much the same forces and intellectual impulses It reminds us that political violence and ethnic cleansing have scarcely been unique to the Balkans As Biondich shows the political violence that has bedevilled the region since the late nineteenth century stemmed from modernity and the ideology of integral nationalism employed by states that were dominated by democratizing or authoritarian nationalizing elites committed to national homogeneity Throughout this period the Balkan proponents of democratic governance civil society and multiculturalism were progressively marginalized The history of revolution war political violence and ethnic cleansing in the modern Balkans is above all the story of this tragic marginalization Britain and the Balkans Carole Hodge,2006-04-18 This book traces the evolution of British policy in former Yugoslavia from the onset of war in Croatia and Bosnia to the NATO action in Kosovo and beyond examining the underlying factors which have governed Britain s Balkans policy Local Agency and Peacebuilding S. Kappler,2014-01-30 Investigating local responses to EU peacebuilding this book develops a relational and spatial concept of agency helping to understand the processes in which peacebuilding actors engage and interact with one another The focus on cultural actors reveals the contested nature of local agency and its potential to challenge institutional policies

Diplomacy and Crisis Management in the Balkans Gazmen Xhudo,2016-07-27 Since the fall of the Berlin Wall observers and players of American foreign policy have been wrestling with what US policy is and more importantly what it should be in the post Cold War era The breakdown of communism in the East has coincided with the outbreak of warfare in the former Yugoslavia to add a new sense of urgency for those seeking a direction for US foreign policy This work seeks to demonstrate how reactive rather than proactive measures by the US in both democracy promotion and in crisis management have been short sighted resulting in the present failure

Remaking The Balkans Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Remaking The Balkans**," written by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we will delve to the book is central themes, evaluate its unique writing style, and assess its overall influence on its readership.
