Remaking The Past Tradition And Influence In Twentieth Century Music:

Remaking the Past Joseph Nathan Straus, 1990 Joseph Straus details the revisionary strategies of twentieth century composers how they transformed the music of the tonal tradition in creating their radically new sonorities and structures He defines a mainstream of musical modernism a mainstream shaped by the aggressive reinterpretation of eighteenth and nineteenth century models *Music in the Early Twentieth Century* Richard Taruskin, 2006-08-14 Music in the Early Twentieth Century the fourth volume in Richard Taruskin's history looks at the first half of the twentieth century from the beginnings of Modernism in the last decade of the nineteenth century right up to the end of World War II Taruskin discusses modernism in Germany and France as reflected in the work of Mahler Strauss Satie and Debussy the modern ballets of Stravinsky the use of twelve tone technique in the years following World War I the music of Charles Ives the influence of peasant songs on Bela Bartok Stravinsky's neo classical phase and the real beginnings of 20th century music the vision of America as seen in the works of such composers as W C Handy George Gershwin and Virgil Thomson and the impact of totalitarianism on the works of a range of musicians from Toscanini to Shostakovich *The Stravinsky Legacy* Jonathan Cross, 1998-12-10 This book explores the technical and aesthetic legacy of Igor Stravinsky *The Pop Palimpsest* Lori Burns, Serge Lacasse, 2018-01-29 A fascinating interdisciplinary collection of essays on intertextual relationships in popular music *Bruckner's Symphonies* Julian Horton, 2004-11-25 Few works in the nineteenth century repertoire have aroused such extremes of hostility and admiration or have generated so many scholarly problems as Anton Bruckner's symphonies In this 2004 book Julian Horton seeks fresh ways of understanding the symphonies and the problems they have accrued by treating them as the focus for a variety of inter disciplinary debates and methodological controversies He isolates problematic areas in the works analysis and reception and approaches them from a range of analytical historical philosophical literary critical and psychoanalytical viewpoints The symphonies are thus explored in the context of a number of crucial and sometimes provocative themes including the political circumstances of the works production Bruckner and post war musical analysis issues of musical influence the problem of editions Bruckner and psychobiography and the composer's controversial relationship to the Nazis *Twentieth-century Music Theory and Practice* Edward Pearsall, 2012 Twentieth Century Music Theory and Practice introduces a number of tools for analyzing a wide range of twentieth century musical styles and genres It includes discussions of harmony scales rhythm contour post tonal music set theory the twelve tone method and modernism Recent developments involving atonal voice leading K nets nonlinearity and neo Reimannian transformations are also engaged While many of the theoretical tools for analyzing twentieth century music have been devised to analyze atonal music they may also provide insight into a much broader array of styles This text capitalizes on this idea by using the theoretical devices associated with atonality to explore music inclusive of a large number of schools and contains examples by such stylistically diverse composers as Paul Hindemith George Crumb Ellen Taffe Zwilich Steve Reich

Michael Torke Philip Glass Alexander Scriabin Ernest Bloch Igor Stravinsky Bela Bartok Sergei Prokofiev Arnold Schoenberg Claude Debussy György Ligeti and Leonard Bernstein This textbook also provides a number of analytical compositional and written exercises The aural skills supplement and online aural skills trainer on the companion website allow students to use theoretical concepts as the foundation for analytical listening Access additional resources and online material here <http://www.twentiethcenturymusictheoryandpractice.net> and <https://www.motivichearing.com>

The Ashgate Research Companion to Minimalist and Postminimalist Music Keith Potter, Kyle Gann, 2016-03-23 In recent years the music of minimalist composers such as La Monte Young Terry Riley Steve Reich and Philip Glass has increasingly become the subject of important musicological reflection research and debate Scholars have also been turning their attention to the work of lesser known contemporaries such as Phill Niblock and Eliane Radigue or to second and third generation minimalists such as John Adams Louis Andriessen Michael Nyman and William Duckworth whose range of styles may undermine any sense of shared aesthetic approach but whose output is still to a large extent informed by the innovative work of their minimalist predecessors Attempts have also been made by a number of academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment including such diverse figures as Karel Goeyvaerts Robert Ashley Arvo Pärt and Brian Eno Theory has reflected practice in many respects with the multimedia works of Reich and Glass encouraging interdisciplinary approaches associations and interconnections Minimalism's role in culture and society has also become the subject of recent interest and debate complementing existing scholarship which addressed the subject from the perspective of historiography analysis aesthetics and philosophy The Ashgate Research Companion to Minimalist and Postminimalist Music provides an authoritative overview of established research in this area while also offering new and innovative approaches to the subject

The Music of Michael Nyman Pwyll ap Siôn, 2017-07-05 Nyman's rise to international prominence during the last three decades has made him one of the world's most successful living composers His music has nevertheless been criticized for its parasitic borrowing of other composers' ideas and for its relentless self-borrowing In this first book-length study in English Pwyll ap Siôn places Nyman's writings within the general context of Anglo-American experimentalism minimalism and post-minimalism and provides a series of useful contexts from which controversial aspects of Nyman's musical language can be more clearly understood and appreciated Drawing upon terms informed by intertextual theory in general appropriation and borrowing are first introduced within the context of twentieth-century art music and theory Intertextual concepts are explained and their terms defined before Nyman's musical language is considered in relation to a series of intertextual classifications and types These types then form the basis of a more in-depth study of his works during the second half of the book ranging from opera and chamber music to film Rather than restricting style and technique Nyman's intertextual

approach on the contrary is shown to provide his music with an almost infinite amount of variety flexibility and diversity and this has been used to illustrate a wide range of technical aesthetic and expressive forms He composes with his ear towards the past as if it were a rich quarry to mine working like a musical archaeologist uncovering artefacts and chiselling fresh and vibrant sonic edifices out of them *Elisabeth Lutyens and Edward Clark* Annika Forkert, 2023-10-19 The composer Elisabeth Lutyens and her second husband the conductor and music programmer Edward Clark were innovators in composition conducting programming teaching and music administration in Britain between 1918 and 1983 Controversial in their professional and personal views and tastes their achievements obscured by layers of anecdote and some self inflicted reputational harm this book critically re assesses their roles as cornerstones of structures and developments in British music that we now take for granted Key to understanding their central roles in orchestrating musical progress is the ambiguous role of influence in their work and the intimate connections between British and European music This study critically charts their professional lives in music taking a holistic approach to contextualise Lutyens and Clark s multifaceted work in music historically music analytically and culturally
