Rembrance Of Things Past 7vol

**John Lawrence Ward, Edwin Walter
Dickinson**

Remembrance Of Things Past 7vol:

Men and Mothers Hendrika C. Freud, 2018-03-08 Not all men vie with their fathers for the love of their mothers In some families the mother becomes the central figure for her son the father is excluded or excludes himself and does not come between mother and son The main thesis of this book using clinical vignettes and quotes from the work of Marcel Proust to illustrate the author's points is that in these cases fantasies of matricide replace patricide Men develop their male gender identity by being permitted to separate from their mother early on but when a man does not resolve his infantile tie to his mother he risks remaining in a passive and or dependent position towards her Over identification with the mother might ensue hampering masculine development Mothers who seek emotional support by binding their sons too closely can become seductive towards them The child is inclined to try to satisfy the emotional needs of his mother and he fears rejection if he asserts his independence instead of complying

Edwin Dickinson John Lawrence Ward, Edwin Walter Dickinson, 2003 Featuring 19 color plates and 65 b w illustrations this text critically examines the imagery process and pictorial structure of works by American painter Edwin Dickinson 1891 1978 Drawing upon 56 years of the artist's journals and several thousand pages of his letters Ward makes connections b

The Ideal Reader Jacques Riviere, 2017-07-05 Jacques Riviere knew how to accept art emotionally No French critic was ever less a traditional pedagogue Riviere was an intelligent French writer who knew that the summit of the intellect is to admit effective knowledge instinct and intuition The heart or taste is always superior to raw intelligence Riviere's supple metaphors are not easily rendered into English The density of his thought the complexity of his views the moral and spiritual fervor that vibrates in these pages further enhances the difficulties the skilled translator must overcome Literary criticism is often ephemeral it has served its purpose if it stimulates discussion about the work of art under scrutiny Not so with essays like these They demand an active reading as do the original works themselves They do not easily yield their significance Among the critics who came into the French literary scene in the years immediately preceding and following the First World War Jacques Riviere has been least affected by the attrition of time His studies of Proust and Rimbaud still rank among the two or three essential works to be read on these authors Few other critics have gone further in a sensuous perception of these authors work and the intellectual lucidity in analyzing it Riviere had few pretensions to profundity and a great purity of style In an age of slogans and judgments this volume reminds the reader of the extraordinary role of European critical thought in the twentieth century

Dysfluencies Chris Eagle, 2013-11-07 *Dysfluencies* is the first comprehensive study of how speech disorders are portrayed in modern literature Tracing the roots of this interaction between literary practice and speech pathology back to the rise of aphasiology in the 1860s *Dysfluencies* examines portrayals of disordered speech by writers like Zola Proust Joyce Melville and Mishima as well as contemporary writers like Philip Roth Gail Jones and Jonathan Lethem *Dysfluencies* thus speaks directly to the growing interest at present both in popular culture and the Humanities regarding the status of the Self in relation to speech pathology

The need for this type of study is clear considering the number of prominent writers whose works foreground disorders of speech Melville Zola Kesey Mishima Roth et al Moreover thinkers like Freud Bergson and Jakobson were similarly concerned with the implications of language breakdown This volume shows this concern began with the rise of neurology and aphasiology which challenged spiritual conceptions of language and replaced them with a view of language as a material process rooted in the brain Dysfluencies traces the history of this interaction between literary practice and speech pathology arguing that works of literature have responded differently to the issue of language breakdown as the dominant views on the issue have shifted from neurological circa 1860s to 1920s to psychological circa 1920s to 1980s and back to neurological during the so called decade of the Brain the 1990s
