The Anatomy of Inclusive Cities Hangwelani Hope Magidimisha-Chipungu, Lovemore Chipungu, 2023-04-27 Creating cities inclusive of immigrants in Southern Africa is both a balancing act and a protracted process that requires positive attitudes informed by accommodative institutional frameworks This book revolves around two key contemporary issues that cities around the globe are trying to achieve viz the need to build inclusive cities and the need to accommodate immigrants The search for building inclusive cities is an on going challenge which most cities are grappling with This challenge is complicated by the need to include immigrants who are always side lined by policies of host countries This book discusses the host immigrant interface by providing a detailed insight of anchors of inclusive cities and a holistic picture of who immigrants are These are then discussed contextually within the Southern African region where insight into selected cities is provided to some depth using empirical evidence The discussion on inclusive cities and immigrants is a universal narrative targeting practitioners and students in town and regional planning urban studies urban politics migration and international relations The Southern African region once more provides an opportunity to further interrogate and understand the dynamics of immigration in selected cities This book will also be of interest to policy makers dealing with challenges of inclusivity in the light of immigrants
